A Kick From Our Juniors. EDITOR JOURNAL:—Your intelligent compositor, in setting up my communication published yesterday, made one mistake that is "too much." I wrote: "Is there a schoolboy who cannot understand that if the final international balances were not against us we would have to ship no gold to pay them, and that as long as they are against us we will have to ship gold to pay them." By putting the "no" before the second "gold" instead of the first, the sense was eliminated. If you will kindly correct this one I will forgive you the minor mutilations which do not destroy the meaning. Yours in mild wrath, "X." Salem, May 16, 1895.

THE JOURNAL editor at Newport ruffled the feathers of some of the flatterers of Capt Symonds, a U. S. war department official who, in the interest of a townsite speculation he is helping to engineer at another harbor, wrote that it was beyond the art of man to further improve the ship channel into Yaquina Bay. If the truth merely hinted at has such an effect, what would result if the facts were published.

There are times when the truth should be told even to the officials of the war department. Before leaving Newport, Capt. Symonds told a man that he was sorry he had ever made an adverse report against Yaquina Bay and admitted that extension of the jetties might still further deepen the harbor.

During the past ten years the United States has sent abroad a million dollars a year for Irish potatoes, while the Pacific coast states, where the crop never fails and the yield is scarcely without limit, could have supplied any deficiency at almost half the price, which was 65 cents per bushel.

The Hon. Cicero Idleman, attorney general for the railroad commission, is very much elated over his success before Judge Hewitt. The motto of all three seems to be "the people be damned; any way to get our salaries." One is about as big a luxury as the other.

Good for the Tacoma women: The women of Tacoma have said that they will not purchase a foreign made product, if it is possible to obtain a home-made one of as good quality—not even a husband with a pinchbeck crown, and they mean it.

It appears likely that the movement in favor of a Latin-American union, to include all the republics of Central and South America, will result in a general congress next July to organize for protection against European aggression.

Thursday's editorial, "The Convention Dance," of course should have been "The Commission Dance." They are onto their job better than our proof reader.

It is said that when Rockefeller wants to build a new church or endow a college he simply marks up the price of oil. The consumer foots the bill; Rockefeller gets the credit.

Having entertained the big conventions Salem should now get up a rousing Fourth of July celebration and do something for herself.

Next week, at the state Republican club convention it can be seen whether the Salem hog wears a Portland ring in its nose.

If by cooperation Salem can entertain conventions of a thousand, Salem by co-operation can build a creamery.

In the Interest of Good Roads. F. J. Beatty, one of the two 5,000 mile cyclists sent out by Hofer Bros., publishers of the Salem JOURNAL, to make a tour of the state and report on the condition of the roads, arrived in Oregon City on Saturday. Mr. Beatty has traversed about 600 miles already, and has been on the road since April 29. He expects to be on his wheel at least 100 days. After reaching Portland he will go east to the mountains and follow them south till he reaches Salem, when he will go south. The object of the JOURNAL in sending out these wheelmen is to promote the cause of good roads, and the enterprise certainly is commendable and deserving of encouragement.

OREGON STRAWBERRIES. — Mrs. Frank Smith, living two miles north of Salem, brought to the city last evening, eight boxes of the choicest ripe strawberries yet placed on the market. Southern Oregon berries will not be in the market before the 20th. Surely Marion county takes the lead in everything.

In Our Great Grandfather's Time. big bulky pills were in general use. Like the "blunderbuss" of that decade they were big and clumsy, but ineffective. In this century of enlightenment, we have Dr. Pierce's Pleasant Pellets, which cure all liver, stomach and bowel derangements in the most effective way.

Assist Nature a little now and then, with a gentle, cleansing laxative, thereby removing of fending matter from the stomach and bowels, toning up and invigorating the liver and quickening its tardy action, and you thereby remove the cause of a multitude of distressing diseases, such as headaches, indigestion, or dyspepsia, biliousness, pimples, blotches, eruptions, boils, constipation, piles, catarrhs and maladies too numerous to mention. If people would pay more attention to properly regulating the action of their bowels, they would have less frequent occasion to call for their doctor's services to subdue attacks of dangerous diseases. That, of all known agents to accomplish this purpose, Dr. Pierce's Pleasant Pellets are unequalled, is proven by the fact that once used, they are always in favor. Their secondary effect is to keep the bowels open and regular, not to further constipate, as is the case with other pills. Hence, their great popularity, with sufferers from habitual constipation, piles and indigestion. A free sample of the "Pellets," (4 to 7 doses) on trial, is mailed to any address, post-paid, on receipt of name and address on postal card. Address, WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.
