M'BRIDE AND THE THIRTY.

The noble "30" greatly assisted in electing Senator McBride. The noble "30" are anxious to pass free silver coinage resolutions at the state convention of Republican clubs next Wednesday. Senator McBride, we know for a certainty, does not want them to. First hitch!—Oswego Ironworker.

All who wish to know the facts know that not all of the "30" were free silver men. All who wish to know the facts know that the revolt of the "30" was a revolt against the old Portland ring which has no principle but to plunder the people. That gang would be for free silver tomorrow if they could get back in the saddle thereby. But their day for misrepresenting and burdening the people of Oregon is about past.

The above item is an insult to American ideas of freedom and the principle of representative government. Just such editorial twaddle as the above has made it imperatively necessary to not keep silent or to discourage the silver question if Republicans want to retain their self-respect and love for free speech and independence of thought. The course of the Oregonian and of the goldbug press in seeking to forestall discussion and prevent even the introduction of a silver resolution has brought about the very opposite effect, just as their foolish insistence that Dolph was the only man to be mentioned without a sneer for the Oregon senatorship, did more to beat Mr. Dolph than the efforts of the "30."

There is no hitch between Mr. McBride and the "30" or between him and any other sensible man on that question. The time when a few alleged leaders in any party can dictate to the rank and file of that party what it shall discuss and what it shall let alone, is gone by. In the future politics of the country there is not going to be that slavery to party and that slavish subordination to partyism that has characterized the past 10 or 20 years. If Harrison, McKinley and Reed had not prevented the lower house of congress, in 1892, from passing the senate free silver bill, we might never have had a panic and we certainly would have had no Cleveland administration. Cleveland has, in the same manner, been overriding the will of the people and the very platform he was elected upon. The people are tired of being treated as though they were a lot of moral idiots, who, while they may be permitted to vote and express opinions under certain circumstances, are not capable of declaring what shall be the policy of our country on finance, but must have a few agents of the Rothschilds appointed to manage their affairs and buy their wheat at 35 cents a bushel and loan them money on cut-throat mortgages at 10 and 12 per cent and a bonus.

WHY SILVER FELL.

It is a very common error that the increase in the amount of silver is the sole cause of the fall in the price of that metal. Silver fell even in those years when gold was produced in greater quantity. We refer to the years from 1870 to 1882. Since the latter year both gold and silver have increased in production. The surplus of silver since 1882 amounts to $232,000,000. It is not possible that this surplus alone could unsettle the currency of the world; not possible that this $232,000,000, added to the $3,800,000,000 of silver currency of the world, could reduce the price of silver from 1.32 to .75. It is the law of 1873 demonetizing silver that caused the fall in price of the metal. That law destroyed the use to which three-fourths of the silver of the world was devoted. The natural and inevitable result of thus throwing all the silver produced into the market as a mere trinket metal is its fall in price. The fluctuation of gold and silver is relative. When one goes up the other goes down, like to the two sides of a pair of scales. To say silver is below par is merely another way of saying gold is above it. And demonetization will sink either below par.

Our children should not forget how the eagle should scream on July 4.

From the number of men who are saying they are opposed to the people on this or that it begins to look as though there is very little use for the people to have any opinions at all. People without opinions are just what is most needed in a free country anyway, come to think about it. Pretty soon they will even do their thinking for them and then all the common herd will have to do will be to browse like the cattle. That would be a millennium for men like Harvey Scott. His opinion would then rule a whole state like Oregon and his word would be law, no matter who was governor, or who sat on the supreme bench.

When a syndicate is formed with sufficient capital to buy up and store away all the gold and silver mined, what will the "sound money" men do then, poor things?—Union County Farmer.

What will they buy it with? When they buy it won't that put money in circulation? Our Populist friend would print a few billion irredeemable paper bills to help them out, perhaps.

A Salem man is nearly distracted. He has three sons who all want a bicycle. Of his four daughters one wants him to give her a wedding, two want to join a church and the fourth is crazy to have a wheel. The man is not a millionaire but he fears his family will force him to mortgage his property. His wife has not been heard from. It is presumed she will do well if she gets a calico dress.

In place of complaining of hard times, stretch yourself to the blanket, and go ahead with more energy than ever. THE JOURNAL has demonstrated that a newspaper can grow in hard times because it adjusted its prices to the times and went right ahead, kept out of debt and has a bigger circulation than ever.

The slave holders passed laws forbidding discussion of the abolition question and the education of the slave was made a crime. That is about the attitude of the Oregonian newspaper toward the silver question.

Farmers picnics on the Fourth of July and a farmer to orate is not a bad idea. Don't depend on the town chaps to amuse you on the day you should renew your dedication to independence.

It is the ultra-irony of fate that after Gas Addicks, of Deleware, blew in $153,000 trying to become a senator that the legislature should blow out Gas Addicks.

Ex-Gov. Fletcher, editor of the Salem Post, is delivering lectures on the subject of "Common Sense." The governor should print his lecture.

A six page DAILY Thursday, a ten page WEEKLY Thursday. The best and cheapest place to put an ad. to reach 3,500 subscribers.

A one cent daily paper is the best advertisement a city can have. The people of Salem appreciate such an advertisement.

It is said you cannot buy a bicycle in town for love or money. The dealers wont sell for love and most of us have no money.

Port Townsend Leader objects to Memorial day being devoted to a local sporting tournament.

For Good Roads.

F. J. Beaty, one of the Salem CAPITAL JOURNAL's 5000 mile bicycle riders, was in Oregon City Friday. He has just completed 500 miles in eight days and goes through to the Columbia river, and returns up the valley along the foot hills to Salem. He will then make a tour of the country south of Salem. The other rider is taking in west side sections, and they make daily reports to the JOURNAL whenever practicable, on the condition of the roads. Mr. Beaty had so far met with no accident to his wheel, but found several stretches of road, where he had to get off and push his wheel along. THE JOURNAL is doing this to advance the cause of good roads, and its enterprise is to be commended. Mr. Beaty took notes of the construction, etc., of Oregon City's Main street brick pavement and especially favors this method of street improvement.—Oregon City Enterprise.

There are 66,835,880 rails used to cover this ground.

There are 533,265,000 ties used to bind these rails together, but no such amount, however, is required to bind the hearts of the traveling public to the fact that the Wisconsin Central lines furnish superior facilities on all their trains between St. Paul and Chicago, which form close connections with all lines to the east and south.
