NOTES FROM THE ROAD.

One of The Journal's 5000 Mile Men Reports.

Newberg, the second city in population in Yamhill county, is not the least in her push and snap; her merchants are wide-awake up-to-date men. Last year this little city of 1100 people organized the Yamhill Fruit Growers' union. This year it is a branch of the state or "Oregon Fruit Union." The objects of this union are various. Co-operation in this line is essential; they have meetings and discuss ways and means of planting, cultivating, spraying, etc. One of the main objects is to get best market prices. Mr. Dunbar last season shipped his prunes through the union and realized 7c per pound net. His neighbors realize from 4c to 5c per pound. We are glad to say that Marion and Polk counties are also organized. Every grower should consider it to his interest to investigate the workings of the "Oregon Fruit Union." The city of Newberg should be proud of the Pacific university. She has 90 students this year. They are athletic young men and will indulge in the intercollegiate games at the State fair grounds on June 8. They told us they had chartered the steamer "Toledo" and will come 150 strong, headed by the Newburg band. Hurrah for the Pacific University. We saw them playing tennis and baseball, and saw them doing the pole vault act. Newberg is all right. We listed twenty subscribers in a day and a half. We found in talking with them that quite a number of the Newberg citizens are "hoosiers." Of course this accounts for much of their go-ahead-iveness. Ye editor of the "Newberg Graphic" is a "Hoosier" from an adjoining county in which the writer was born, and he was a prime mover in getting two miles of fine pike road from the river up to Newberg and on through the city. When he first talked the matter over to the people, a gentleman unacquainted evidently, with gravel roads, said a layer of gravel on this road would sink out of sight before spring, but unless our eyes deceive us there is not a better piece of road in Yamhill and it has been made for three years. We will speak in another article of the road from Newberg to North Yamhill and McMinnville.

State Prison Leases Lands and Builds Roads.

The last legislature made provision to build a big sewer from the asylum and pen to the Willamette river.

The state building board has made an order empowering Superintendent Gilbert of the penitentiary to proceed to the manufacture of two million brick needed for the construction of the sewer through the city.

This morning convicts were set to work clearing away the earth to get out the clay needed for the brick.

The state has leased of Sol Durbin forty acres of land for potatoes and all of his hay land for this year's crop. A force of convicts have been at work for two days to clear all the big gravel stone out of the road from the pen to the Red barn to make it passable for state hauling.

Dealer in Groceries, Paints, Oils, Window Glass, Varnishes and the most complete stock of Brushes of all Kinds in the State. Artists' Materials, Lime, Hair, Cement and Shingles and finest quality of GRASS SEEDS.

We have noticed with some amusement certain notices of "cuts" being made on groceries, as a rule prices quoted being above our regular retail price. P. T. Barnum said that the American people liked to be humbugged, but we think that in Salem it won't work, but that Salemites appreciate our efforts to sell the best goods at a very small margin. As we buy and sell for cash we can undersell all stores doing business on the credit system, and can and will meet all prices made by our competitors. As a flyer for today we quote:
