Must Be Worthy.

A letter from Governor Lord in answer to a request from Eastern Oregon for the restoration to citizenship of a man convicted of larceny, may be taken as indicative of his position in the matter. The letter states that the loss of citizenship is a part of the penalty imposed by law and cannot be set aside, unless it be reasonably plain that the subject will use his citizenship well; that if the man possesses a bad character, though his wife and family may be entitled to sympathy, there is no reason for revoking a part of the transgressor's punishment; that the rights of society and government must be considered, which require that the applicant for citizenship must thoroughly establish his worthiness before executive clemency can be granted in his behalf.

CHILDREN POISONED.

One Dies But the Other Will Possibly Recover.

A sad case of poisoning occurred in Englewood addition to Salem about 4:30 o'clock Tuesday afternoon wherein two little children were poisoned, one fatally. The unfortunate children were Walter Churchill aged four years, the son of Mr. and Mrs. E. C. Churchill, residing at the corner of Fourteenth and D streets, and Ethel Welch, the 3-year-old daughter of Mr. and Mrs. Thomas Welch living on Fourteenth near Division.

Between 4 and 5 o'clock Tuesday afternoon a number of children were playing in the yard with Walter and Ethel and becoming tired of this sport went into the basement. One of the older children secured from the top of the safe a box in which was a bottle filled with opium, an alcoholic of belladonna which is a very poisonous medicine, being an eye preparation.

Whether the poison was taken inwardly is not positively known, but shortly afterward Mrs. Churchill was called down stairs. She noticed the eyes of the little girl were badly swollen and had her taken home about two blocks distant accompanied by Little Walter. Returning soon after she told Mrs. Churchill she was wanted at Mrs. Welch's at once. Arriving there she found the little girl suffering intense pain from the poison and a raging fever. The unfortunate child did not regain consciousness after the poison had been administered. Mrs. Churchill returned home about 6 o'clock and found Walter almost wild with pain. Hastily summoning Dr. Reynolds the little fellow was made as comfortable as possible. This morning he was resting easily and in a fair way to recover, having had a very narrow escape. It is thought Walter did not receive so heavy a dose of the poison as did Ethel, the story finding the most ad-vantages being that the little girl took the liquid inwardly. Throughout the night she suffered from spasms, passing peacefully away at 4:30 a. m. today. At one time during the night her fever reached the extraordinary height of 108.

The funeral took place this afternoon at 4 o'clock from the residence on Fourteenth street, conducted by Rev. W. J. Bowerman, pastor of the Free Methodist church of this city. Interment took place in Lee Mission cemetery.

The bereaved family have the sympathy of the entire community in their trouble.

Building and Loan.

At the regular monthly meeting of the Salem Building & Loan Association, which was held under adjournment this morning at 9 o'clock, \$1150 were loaned for 85 months, and \$1040 for 78 months, interest in advance. Withdrawals, to the amount of \$2650 were ordered paid out of the funds in the treasury.

The secretary reported that notwithstanding the trying times of the past year—only one borrower had become so far delinquent as to give cause for foreclosure proceedings. The fact that in the five and one half years of the Association's life, there have been but two foreclosures—aggregating some \$1500, shows the very healthy condition of this strong local organization, which evidences its position as one of Salem's greatest up-builders, in the number of beautiful homes which it has helped to erect in and around Salem.

AMONG THE BUILDERS.

Satisfactory Progress in All Parts of Town.

All over the city new buildings are going up. Frames and spires are rising above the trees.

John Gray has started his new house facing on Marion Square. He is also building the beautiful new Wm. Brown residence on state street, and the sweet little cottage that Jo Albert is building on Oak and Summer streets in Yew Park.

Architect Burgraf has moved into the prettiest \$1200 modern style cottage ever erected in Salem for that money. He is also in Yew Park and is on 18th street, which next to Oak, is one of the prettiest in the city. Such improvements are a lever that is bound to force prices upward.

Burgraf is also making the Baptist church improvements which will be the best conversion of an old, unightly out of date house of worship into something elegant yet made. A thousand dollars worth of the best modern style oak veneered church pews have been ordered from Grand Rapids, Michigan, and the Baptists will feel so happy when they get into it that they won't want to die for fear heaven is not good enough. They are blowing in nearly \$3000 on the job.

For Medals. The Willamette University gymnasium class that has been training under Director Brown for the last school year, will contest, next Saturday, for medals put up by W. W. Martin, of this city. He has offered a handsome medal for the best drilled lady in the school and one for the best drilled gentleman. The contest will consist of a series of exercises with the different pieces of apparatus, and competent judges will be present to decide who deserve the medals. The following entries have been made: Misses Marsh, Jones, Longness, Harris and Anderson; and Messrs. Shiras, Lavery, Martin and Miller.

Investigate a patent chemical fire extinguisher submitted to the board after which the meeting adjourned.

Miss McKinley and Miss Coburn, of the Park schools, set in their resignations some time since, and they were yesterday accepted.

FORREST.—Tuesday morning, June 11, 1895, of consumption of the brain, at the home near Turner, Willis C. Forrest, aged 34 years.

For Picnics and Campers. John G. Wright has probably the finest thing in the fish line ever known. It consists of boiled mackerel put up in tin cans, in spices and in mustard. Also sardines in tomato, in olive oil and in oil. These goods are packed in the most elegant manner and their cheapness will surprise all. Nothing so fine for picnics or camping.
