THE CAPITAL JOURNAL. (DAILY AND WEEKLY.) BY HOPFER BROTHERS. MONDAY, JUNE 17, 1895.

Don't forget to have the Goddess of Liberty wear the colors. Tillamook seems to be one of the live growing towns of the state. Why not have a state contest among Oregon's numerous rose queens. At this season the wide-awake farmer catches the hay fever. Good Times are not far off. Many now living will see them.

THE JOURNAL believes in Republicanism for the people first, last and all the time. Exchanges are warned that this department of THE ONE CENT DAILY is copyrighted.

"Coin's Financial Fool" is not read much in Oregon. He lives here—good many of him. THE JOURNAL would give a thousand dollars to have the street car lines run around the corner of this office.

Umatilla county needs a good Republican paper. It has only one—a stale concoction of the Oregonian. If the Oregonian does not seem to know that Governor Lord and Secretary Kincaid are elected for four years.

No one objects to Carl Browne and Miss Coxy not living together after marriage. Are there not enough of that breed? Independence is the gamest sporting town in Oregon, but a race date there is surer to bring rain than a campmeeting.

As the state editorial association will go in bathing at Newport, the Albany Democrat man's strawberry will be visible. Let Harvey Scott go to war with England, if he wants to. Nobody would go along with him and that would be all the better.

The State Press association meets this year at Newport during the bathing season. President Campbell will himself act as life-buoy. Can't the newspaper wits invent something new about the bicycle bloomer? They have about worn it out with their one joke.

Oscar Wilde will have ample opportunity to study the theory of evolution, as perfected by tread mill athletics. The editor of the Cottage Grove Leader is authority for the assertion that the fibre of carpets shrinks when wet. Does he speak from experience?

Every minister who tucks the typewriter says there is something diabolical about the machine. Now let us hear the typewriter's opinion on the minister.

When will the people learn common sense, which after all is not an uncommon? Eugene Broadaxe. The Broadaxe is getting in too big a hurry.

An exchange says: "Poisonous medicines, when they have done their duty for the purpose intended, should be immediately destroyed or placed under lock and key." Governor Fletcher might not get an appointment of Governor Lord on account of his brains or his bicycling, but his splendid figure ought to be a recommendation.

It used to be said that all a man had to do to get an office of Harrison was to go to see a Presbyterian. It is said Governor Lord likes a fat man. They are seldom vilified. Send to your ward measure when you apply for office in Oregon.

STILL ROLLING ON. A "Journal" 5000 Mile Man on the Road.

ON THE ROAD, June 14.—Leaving Waterloo on the morning of the 12th I ran down to within about two miles of Lebanon, and started south to Brownville, passing east over Peterson's butte, over a very slight rise of ground, yet the butte or bute is about 1000 feet high. There are several of these peculiar looking hills in this part of Linn county, and must have been parts of some grand avalanche when the lowest of the Cascades were taller than Mt. Hood is now. Many of them are now surrounded by level plains, and tower up from 800 to 1000 feet, some being nearly perfect cones. The roads here are very good, except some rocky points. The road grades have been very well used, except in a few places where some supervisor in the past was afflicted with the house-rod idea, but the later work shows quite an improvement in this.

About noon I pulled into about the prettiest little town in this valley—Brownsville. It is built in a little cove of the foothills and on the north bank of Calapooia creek, which furnishes ample water power for the woolen and flouring mills, and the manager now is a jolly Dutchman, called Jaeger. He told me some of his funny experiences when first coming to America, and hunting for a job, without knowing a word of United States, and showed me the inner workings of the factory. The mills are closed down just now for some repairs. They employ 60 hands in the mills. Albert Caveder is chief ink slinger on the "Times," and keeps the Brownvillians up-to-date in the news. O. P. Coshaw, the rustling real estate man and secretary of the Linn county pioneers, is just now busy as a bee getting the camping place fixed up for the meeting the pioneers, the 19th, 20th and 21st of this month. At the store of Geo. Dyson I saw some of the richest specimens of gold quartz that I ever brought to come across on this coast. Mr. Dyson and three others own the mine, which is about 40 miles up the Calapooia, from Brownsville. He says the ledge is 4 to 5 feet wide, and they have uncovered it for 1000 feet. It must be a bonanza.

The road north to Albany is almost a dead level, but a fool supervisor or some one else has a sign up on a side road of "18 miles to Albany," and this road led me out across a lot of swales and ended short, up against one of those buttes, in the brush. I enquired of one of the natives the way out, and by climbing several fences and going a mile or two around the hill, I got to the road again. Somebody please knock that sign-board down for me. If you hit the man who put it up, I don't care. I saw near this road a culvert of fine 12-inch sewer pipe (which probably cost \$1 per foot) left exposed and being broken up by wagon wheels, when a few minutes' work would have made it secure.

Arrived at Albany in time for supper at my old friends', B. F. Kump and family, formerly of Brooks. Frank is getting fat in the grocery business, whether he is getting rich or not. I called on the Democrat and Herald offices and read their exchanges, to catch up on the news. The prospect is for a lay-off, as it is raining heavily to the north, and the clouds are thick here.

A Salem mathematician is authority for the statement that I met placed at 6 per cent compound interest at the beginning of the Christian era would not amount to more than a quarter-dollar—more I wish 45 others answered. He further says that 1 per cent interest on a quarter-dollar would be for one amount of time would be more than 20,000,000 globes the size of the earth. Now let that fellow figure on 'how long will it take the United States to acquire metallium by waiting for England's occupation.'—Bairner Review.

The man, or woman either for that matter, who can not see beyond the surface of his own prejudice in politics or religion, and thinks that all are wrong who do not see as he does, is a sign of the worst type. This age of enlightenment is too liberal for him; he should have lived about five hundred years ago.

MINOR LOCAL MENTION.

Eugene will not celebrate the Fourth of July. The Oswego Ironworks are to start in a few days. Now that the first crop of hay is made by fore-handed farmers light showers are obligingly descending. Clarence W. Keene, a well-known and popular Salem student of the University of Oregon, has been chosen as orator for the Fourth of July celebration at Junction.

Gov. Fletcher of the Daily Post can turn a very graceful figure of speech but that is the only connection there is between him and a graceful figure of any kind on a bicycle or a foot. The big does not live exclusively at Salem. The Sheridan Sun says: "Salem wants 10,000 people to come and celebrate with them. Give the Sheridan a chance this year. The Salem hog is waxing too fat."

The indefatigable work that has been done by Dr. C. H. Chapman, since he has been connected with the university as its president, has already made its influence felt for the higher education of the masses. Lecturing, as he has, in the prominent towns of the state, on literary, sociological and economic subjects, and making the most favorable of impressions, interest at once centers to the institution of which he is the head, and the benefit which will thus accrue to the school are invaluable.

We find the following gem going the rounds of the press, without credit: "Remember this young man, be careful what you say about a woman's character. Think how many years she has been building it, of the tolls and privations endured, of wounds received, and let no suspicion follow her actions. The purity of the women is the salvation of the race, the hope of greatness and the redemption of man. Wipe out her purity and the man sinks beneath the wave of despair, without a star to guide his life into the channel of safety. Think then before you speak, and remember that any hog can root up the fairest flower that ever grew; so the vilest man can ruin the purest woman's character."

The Cumberland Campmeeting. The campmeeting under the auspices of the Cumberland Presbyterian church, to be held at Sodaville, from June 20 to July 4, bids fair to be a success. Already camps are on the ground, and a large restaurant is ready for serving meals at a reasonable price. The soda water and pure mountain air make it delightful for all who can leave the busy world for a few days of outing. Then add to this the social and religious features, and you can have some idea what is in store for those who attend. The grounds for camping are free to all, and so is the water. Sodaville is a beautiful little village, and is one of the few towns that has the courage to say that no intoxicating liquors can be sold in her borders. This town is the seat of Mineral Springs seminary, and hence has fine educational advantages. Parties attending who come by rail should procure a receipt at starting point showing that they have paid full fare, and on return they will be sold a ticket for one-third fare, provided not less than 25 have come in this way. These receipts will be given by any agent of the B. P. R. Co. in Oregon and are good until July 5. Lebanon is the end of the railroad, at which point hacks will meet all trains. Then let everybody come and join this happy band in combining religious duty and pleasure, in a summer outing.

Willamette Challenged. Newsweek, June 16, '95. Ed. JOURNAL.—We notice an article in this week's JOURNAL, stating that experts who saw the tennis game of the International contests on the 6th inst. do not hesitate to say that Willamette university would have easily won the tennis singles and doubles, under certain circumstances. We do not know the experts but we are familiar with the real, and are anxious to play Pacific college tennis team against the university champion as soon as he is again able to play the game.

That Recursion. All who wish tickets for the A. O. U. W. excursion to the Jefferson picnic next Thursday should secure them at once. Special train to leave at 9 a. m. and return at 6 p. m. The best opportunity for a day's outing during the season. Address by Grand Master Workman W. W. Stannard, Grand concert, games, music and races. Apply for tickets to committee, F. H. Raymond, A. M. Clough, W. V. Don Big.

This spring I was troubled with a pain around my heart and after taking Hood's Sarsaparilla I felt much better. Substituted, Geo. Hood's pills cure all liver ills.

An exchange makes fun of THE JOURNAL reporter because he wrote of a Salem man who "had his front re-ventrillionated," and that "E-ther Tripp was confined in the county jail." As the first statement refers to a store front and as E-ther was acquitted by the grand jury she has "no kick coming" against THE JOURNAL office.

The cry of "the rich against the poor" has done more to disrupt parties and breed discontent than other things combined.—Junction Times. See here, we have not said a word against you since you were in the legislature.

Rests the Tired Brain Hood's Sarsaparilla Gives Nerve Strength and Bodily Health Hood's Pills are "Much in Little." "I have used Hood's Sarsaparilla and Hood's Pills for many years and consider them the best on the market. Hood's Sarsaparilla has given me health and strength from time to time when tired and worn out from Overwork and the worry of business. It has purified my blood, toned my nerves, and rested my tired brain by restoring sleep and invigorating my entire system. Hood's Vegetable Pills are much in little. I use no others. They invigorate the liver to healthy action, act gently on the bowels, relieve sick headache and indigestion, and thus assist nature to remove disease and restore health." J. M. CROCKER, 1419 Rhode Island Avenue, Washington, D. C. Hood's Pills act harmoniously with Hood's Sarsaparilla.
