CASTORIA

for Infants and Children.

The American people have not yet learned how imperative it is that
the health of the infant be taken care of, that all should be known
of the care and comfort essential to the infant's health, that it is
the most important work of the infant's life. It is
the most important work of the infant's life. It is
the most important work of the infant's life. It is
the most important work of the infant's life. It is
the most important work of the infant's life. It is
the most important work of the infant's life. It is
the most important work of the infant's life. It is
the most important work of the infant's life. It is
the most important work of the infant's life. It is
