E. T. BARNES

STATE NORMAL SCHOOL

MONMOUTH, OREGON.

A training school for teachers. Complete eight grade training department and strong professional and academic courses.

The diploma of the school entitles one to teach in any county in the state without further examination.

Board and lodging, books and tuition \$150 per year. Beautiful and healthful location. No saloons. There is a good demand for well trained teachers—there is an over supply of untrained teachers.

Catalogue cheerfully sent on application. Address P. L. CAMPBELL, President. W. A. WANN, Secretary.

THE FAIR STORE

Shoes did you say? Yes, we have them; also ducks and sealings for tents, and so many other things that we could not put it all down on an acre of ground. Come and see and save money. 274 Commercial st.

UNIVERSITY OF OREGON, 1895-1896.

The University of Oregon, Eugene, Oregon, offers free tuition to all students. Young men can obtain board, lodging, heat and light in the dormitory for \$2.50 per week. Roomers furnish their own linen. Young women are provided with board in private families at \$3 per week.

CAPITAL BUSINESS COLLEGE.

FIRST NATIONAL BANK BUILDING, SALEM, OR. W. I. STALEY, PRINCIPAL.

Regular sessions begin Monday, September 2. Students registered now. It will pay those who expect to prepare for some business pursuit to attend a business college where a systematic course of business training may be had and trained teachers for this particular line of work instruct. The Capital Business College offers five courses:

Business, Shorthand, Typewriting, Penmanship and English. This is positively the only—

business college in Oregon using the inter-communication system of business practice. Out-of-town students may secure board and furnished room in private family at \$3 a week. Write or call at college office for circulars giving full information relative to courses of study, rates of tuition, etc.

DIG PROFITS ON SMALL INVESTMENTS.

Returning prosperity will make many rich, but nowhere can they make so much within a short time as by successful speculation in Grain, Provisions and Stock.

\$10 FOR EACH DOLLAR INVESTED can be made by our Systematic plan of Speculation.

All successful speculators operate on a regular system. It is a well known fact that there are thousands of men in all parts of the United States who, by systematic trading through Chicago brokers, made large amounts every year, ranging from a few thousand dollars to those who invest a hundred or two hundred dollars up to \$75,000 or more by those who invest a few thousand. It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and do not have the opportunity of seeing the market and our Daily Market Report, all of money-making pointers. All of these are explained in our Margin Report, all of money-making pointers. All of these are explained in our Margin Report, all of money-making pointers. All of these are explained in our Margin Report, all of money-making pointers.

TALKINGTON, BOTTGER & CO.

LABOR DAY PARADES.

Two Celebrations Held in the City of Chicago.

BUT NO RED FLAGS DISPLAYED.

Labor Demonstrations at Other Places.

CHICAGO, Sep. 2.—Two Separate distinct celebrations marked Labor Day in Chicago. The labor congress of socialistic tendencies held a mass meeting and picnic, preceded by a parade. The principle speakers were Keirr, Hardy, Frank Smith and John Swinton. The building trades council had a counter attraction in parade, picnic and mass meeting. No attempt was made to carry a red flag in the Labor congress parade.

In the Iron Mines. ISPREMING, Mich. Sep. 2.—Steam shovel operatives arrived this morning and were escorted to boarding houses under military protection. Several hundred strikers with wives and children assembled at different mining localities watching movements of the militia but there was no disturbance. Shipments of ore to Marquette will begin this afternoon.

In New York. NEW YORK, Sep. 2.—The weather is perfect today and nearly all labor organizations in the city are celebrating. For the first time in years, Central Labor Union did not parade. An excursion to Coney Island was deemed a better way of spending the day.

Great Labor Parade. BOSTON, Sep. 2.—Organized labor day is observed as the ninth annual legal holiday in the city of Boston, with the usual parade and almost innumerable sports and amusements. The spectacle of the day was a parade of labor organizations in which over 16,000 men participated.

Mobbed a Thief. CHICAGO, Sep. 2.—Five hundred people chased a thief through the streets today and aided in his capture. The prisoner, who gave his name as James Williams, of San Francisco, was charged with robbing the till of the Masonic Temple Association of a large sum.

Old N. P. Receivers Go. SEATTLE, Wn., Sep. 2.—Judge Hanford this morning read Judge Gilbert's decision in the case of the Northern Pacific receivers, finding that Judge Jenkins of Wisconsin had no jurisdiction in appointing Rouse, Payne and Oakes receivers. Judge Hanford will now hear the petition of the company that the receivers be removed.

Texas Lost to Democrats. DENVER, Colo., Sep. 2.—General James Weaver, who spent August in Texas, sends the following report of the political condition in that state to the Rocky Mountain News: "Old party ties are completely dissolved in Texas. She will cast her vote by an immense majority for the populist ticket."

The Peary Expedition. ST. JOHNS, N. F., Sep. 2.—The first news from the Peary relief expedition was brought today by the American schooner John E. Mackenzie. The Mackenzie thinks the Kite will have no difficulty in reaching Whales Sound, where the Peary headquarters are located. The return of the relief party is expected about the end of this month.

Always FIRST Gail Borden Eagle Brand CONDENSED MILK For 35 years the leading brand. It is the best and the most economical. A PERFECT FOOD FOR INFANTS.

Notes From Mebama.

CAMP ALBERT, Sept. 1, 1895.

A fishing expedition six miles up the North Fork of the Santiam, participated in by Dennis Flagg and myself, resulted almost unsuccessful. We have about concluded that we can't fish.

Friday afternoon we took the 3:30 east bound O. C. & E. accommodation train at Lyons for Detroit, the terminus of this road. We had scarcely reached Fox Valley, three miles distant, when the rain storm that had been threatening us the entire afternoon, burst upon us in all its fury. The lightning flashed, the thunder pealed and the rain fell in torrents. Soon after passing Mill City, the rain ceased and we were able once more to view the beautiful mountain scenery afforded on the road between Mill City and Detroit.

CHICAGO, Sep. 2.—Sedan day will be celebrated in a more general and enthusiastic manner than ever since 1870. No business will be done after noon today. The government employes will get their holiday with full pay, and all the schools will be closed. The celebrations will commence with a very impressive ceremony, the dedication of the Emperor William memorial church. A platform capable of seating 50,000 is being erected for the accommodations of the favored guests. The emperor and empress will arrive at the spot at 10 o'clock, escorted by a detachment of cuirassiers of the guard, and will be handed the golden key of the church by a deputation when their majesties reach the inside of the building.

DETROIT, the terminus of the O. C. & E. railroad, is a thriving little burg, and is rapidly growing. A saw mill has recently been started which gives about twenty men employment. New buildings are springing upon all sides. The city supports one church, a city hall and a saloon. The society people of this little mountain town gave an ice cream social and a dance in the city hall Friday night, that was largely attended.

About 9 o'clock Friday morning Elmer White, John Duncan, Newt Ferrell rode through Detroit on the return trip to Salem, having been up in the mountains for the purpose of proving up on their claims, which are located about twelve miles above Detroit on the Santiam.

Soon after 6 o'clock Friday evening W. J. and Chas. Culver and Chas. and Ernest Porter, reached Detroit, having walked in from Mount Jefferson, a distance of 21 miles since 11 o'clock of the same day. Not like most fishermen, the boys have something to show for their trip. They brought home a large quantity of the speckled beauties and did not fail to remember us in the distribution thereof. In four days the boys caught over 700 trout ranging from 6 to 14 inches in length. Saturday morning the boys took the O. C. & E. train for Shelburn where they secured their team and buggy and returned home overland. They report a big time although they did not succeed in killing any game.

We left Detroit at 6:30 a. m. Saturday morning and reached Albany at 10:50. At Gates we saw J. E. McCoy, the bridge builder, who is engaged in building a bridge across the Santiam near Gates, on the road leading to the Quarzville mines. E. E. McKinney, the Salem grain buyer, was up to his neck in wheat at Kingston. The farmers along this road find it quite difficult to secure cars enough in which to load their grain.

While in Albany Saturday we witnessed a runaway which might have resulted fatally. A team of dark horses attached to a light buggy came dashing down the street and ran into the rear of a farm wagon in which was seated two ladies. Fortunately neither was injured and the only damage done was to the buggy, which was pretty badly demolished.

L. Brounstein, who was formerly employed by the Salem Consolidated Street Railway Company, is now proprietor of a junk shop at Albany, and reports a rushing business. His profits last week netted him about \$35. The families of E. H. Flagg and E. P. Cochran, who have been camped on the island for some time, will return home tomorrow, leaving the island entirely deserted. J. W. C.

Dr. Price's Cream Baking Powder Assorted Gold Medal Manufacturers, San Francisco.

THIS IS SEDAN DAY.

Anniversary of the Surrender of Napoleon.

A GREAT GERMAN CELEBRATION.

The German-American Veterans Arrive at Berlin.

BERLIN, Sept. 2.—Sedan day will be celebrated in a more general and enthusiastic manner than ever since 1870. No business will be done after noon today. The government employes will get their holiday with full pay, and all the schools will be closed. The celebrations will commence with a very impressive ceremony, the dedication of the Emperor William memorial church. A platform capable of seating 50,000 is being erected for the accommodations of the favored guests. The emperor and empress will arrive at the spot at 10 o'clock, escorted by a detachment of cuirassiers of the guard, and will be handed the golden key of the church by a deputation when their majesties reach the inside of the building. Hymns will be sung and a patriotic sermon will be preached, and when their majesties leave the bands will play "The Wacht and Rhein." A cordon of troops and veterans who are visiting this city, will surround the church and will be reviewed by the emperor. It is noteworthy that not only the Protestant but the Catholic churches will have special Sedan day services tomorrow.

On Monday the fetes will be inaugurated by a parade held by the emperor on the Templehof field. The will be an unusually brilliant display of troops, and the kings of Saxony and Wurtemberg will be present. The veterans will be out in strong force, and a line of 30,000 school children with banners will be drawn up near the schloss, at which the emperor will be passed on returning to town with his retinue of colors, banners etc. During the early morning a patriotic festival will be held in the various public schools. The American colony will be present at the parade on Monday, and there will be illuminations upon a splendid scale in the evening. The mayor of Berlin has invited the whole population to join in the illuminations.

Considerable indignation has been felt at the fact that the socialists of Berlin and elsewhere are arranging a counter demonstration. On Monday six meetings of socialists have been called by Herren Bebel, Liebknecht, Singer, Auer and other leaders, in order to protest against the commemorations of the victories of 1870. A large batch of police and detectives has been ordered to stettin in anticipation of trouble.

Upon the occasion of the imperial maneuvers from September 5 to September 12, at which Emperor William, Emperor Francis Joseph, the King of Saxony and the Prince of Naples will be present. The French officers will not appear and the French ambassador at Berlin M. Herbetie, will leave the city during the Sedan fetes.

Murder and Suicide. HOT SPRINGS, Ark., Sept. 2.—The dead bodies of Dr. E. M. Remington and mother were found today at their home. The supposition is that the son, discouraged on account of having no practice, killed his mother and then himself.

SPEAKS TONIGHT.—Mrs. Mary Robinson Squire, an ordained minister, will lecture tonight at the Bush bank corner: "How to Keep Hell Out of the People, and Shall Churches Be Taxed."

A FINE ARTICLE.—Mr. A. Rich has been making a fine article of raspberry syrup for soda water the past season. A sample can be tried at Hopf's fountain, next door to the postoffice. It is the pure fruit syrup.

DR. DORMAN AT ALBANY.

Delivers a Lecture On the Scientific Effects of Alcohol.

Dr. C. A. Dorman lectured last night says the Albany Democrat, on "the effects of alcohol upon the mind and body." Besides being a pleasing talker, he adds to the effect of his lecture by giving illustrations of the topic being presented.

Alcohol is the result of decay. It can only be made as the product of disease and death. Even a leech can only live twenty minutes in alcohol; though it will live for hours cut in two in the sun. Animals will never use alcohol unless taught. A pig was once beside a drunken man. Someone said a man is known by the company he keeps, and the pig left. Instead of being a stimulant as stated for years, it is now learned that alcohol is only an irritant and narcotic, the same as a hot coal on a turtle.

The little corpuscles in the blood are to take oxygen through the body. Alcohol makes these corpuscles hard and unfit for use. The alcohol increases the action of the blood, goes to the brain, benumbs the nerve that protects the heart and it beats twice as fast and irregularly. The pulse of a dying man is merely a ripple, and 120 to 150 beats a minute. Brandy should never be given a dying man; it increases the circulation. A man who drinks has a red nose because the nerves in the nose are paralyzed and the blood vessels become large and flushed. So, in the stomach alcohol paralyzes the nerves. As he drinks the stomach becomes ulcerated. The nerves of the stomach are much less sensitive than of the head and throat, hence the effects of alcohol are not felt as soon on the digestion as the brain. Alcohol is not food, it is not digested. It is not even a heater; it decreases the heat. It does not help digestion; it irritates and hardens, hindering digestion. The speaker had the whites of four eggs in a glass. He poured alcohol into it. In less than two minutes it was hard and thick. Digestion makes thin. The proof was plain. After a spree a man throws up his food as eaten, undigested. In everybody are dead cells that must pass off in the healthy person. Alcohol preserves these cells and keeps them in the body, and the man becomes large and bloated—full of dead matter. Sullivan, in his fight with Corbett, was hit 141 times in the face and 41 times over the heart. The trouble with Sullivan was too much booze. He was hit before he could see the blow. The yellow ring around the drinker's eye ball means degeneration of the brain.

A picture was shown, actually painted by a man who had had delirium tremens, once a talented Englishman. The moderate drinker is the one who should be punished; the drunkard is a diseased man and should be treated. So the speaker declared a man might as well be licensed to sell smallpox germs as liquor. These old liquors were made a few days before. Lime kills the fuel oil that age used to kill, and the liquor gotten today is often a mixture of the worst poison and the most nauseating stuff.

Out of 20 men executed on a St. Louis gallows, 16 committed their crimes when under the influence of liquor. Wilkes Booth drank three times before shooting Lincoln. The speaker had had experience in a bichloride of gold cure. He had noticed that the men lost their taste for liquor; but the taste for immorality had not gone. Without being pointed to Christ, the chances are that the Keeley cure will fall again. The lecturer closed with a personal talk to men only, in which he answered several questions and gave some facts young men need to know.

THE DURRANT TRIAL.

Postponed On Account of Labor Day.

OPENING OF CASE ON TUESDAY.

A Full Report Will Appear in This Paper.

SAN FRANCISCO, Sept. 2.—The Durrant trial was today postponed until tomorrow. Uncertainty about the effect of labor day upon judicial acts led to the postponement. District Attorney Barnes will make his opening statement to the jury tomorrow morning. [A full report will appear in THE JOURNAL. Do not wait 48 hours for Frisco papers.]

INDIANS SHALL NOT HUNT.

A Grand Army Commander to Protect Buffalo.

DENVER, Sept. 2.—General O'Brien, commander of the department of Colorado and Wyoming, Grand Army of the Republic said today: "If the Indians attempt to hunt in the red desert of Wyoming they will never return alive. At the last session of the state legislature a stringent law was passed to protect the only herd of buffalo in the state. The state will stand by that law, even though it brings Wyoming up face to face with Uncle Sam."

Found Alive.

DULUTH, Sep. 2.—Dr. T. H. Fraker of Kansas City, whose family has just been awarded \$58,000 life insurance and who was supposed to be dead, has been found near here. The insurance company have always maintained that Fraker was alive and did not pay the insurance till after the lawsuit.

MARKETS BY TELEGRAPH

Salem and Eastern Quotations Corrected Daily.
