

THE BEST PIPE TOBACCO.

THE GREAT HUDYAR
 This is the only medicine that has been discovered by the scientific men of Europe and America. It is a purely vegetable preparation. It is the most powerful of all medicines. It is the only medicine that has been discovered by the scientific men of Europe and America. It is a purely vegetable preparation. It is the most powerful of all medicines.

Mexican Mustang Liniment

for Burns, Caked & Inflamed Udders, Piles, Rheumatic Pains, Bruises and Strains, Running Sores, Inflammations, Stiff joints, Harness & Saddle Sores, Sciatica, Lumbago, Scalds, Blisters, Insect Bites, All Cattle Ailments, All Horse Ailments, All Sheep Ailments.

Penetrates Muscle Membrane and Tissue. Quickly to the Very Seat of Pain and Ousts it in a Jiffy. Rub in Vigorously.

MONEY TO LOAN
 On farm land security. Special rates on large loans. Loans considered without delay.
 HAMILTON & MOIR,
 11th & 12th buildings.

WINTERING BEES.
 One Way of Carrying Bees Into the Cellar. Placing the Hives.

The time for putting bees into the cellar varies of course with the locality and the season. Whenever it turns cold, with a fair prospect of a continuance, open up the cellar and proceed to action. Better directions cannot be offered than the following plan, which the well known authority, A. I. Root, describes in his

CARRYING BEES WITH HIVE CARRIERS.
 A. B. C. of Bee Culture. He says: First with a screwdriver or cold chisel we go around to each hive, puff a little smoke in at the entrance and pry the body loose from the bottom board, as it will always be stuck down with propolis. It may yield with a little snap, and it will be necessary to use a little smoke to make the bees behave. The bottom boards all loosened, with an assistant and a couple of hive carriers we proceed to carry the bees into the cellar.

It is to be observed that our hive carriers are simply a couple of lengths of wire bent in the shape of a letter V, an ordinary wooden pail handle being slipped through to the middle of the wire. Both ends are bent down in the shape shown in the cut in the enlarged view. The ends are then bent in the form of a hook so as to catch on the bottom board. Now, then, to pick up the hives and carry them into the cellar we lift the front end of the bottom board up a little and slip the hooks of the hive carrier under. In like manner we catch the rear end of the bottom board, when the hive is picked up as shown in the cut, bottom board and all. We then proceed to the cellar and deposit the hive near the place where it is supposed to stay through the winter. Along on two sides of the cellar we have previously laid scuffling, say, 14 or 15 inches apart, depending of course upon the length of the hive. We then pick the hive just brought in up by the hand holes, lift it off its bottom and lay it at one end on top of the scuffling and lay the bottom board in one corner of the cellar.

In like manner we bring in another colony, lift it off the bottom board and deposit it by the side of the other colony, leaving 4 inches between, and so on. We bring in other colonies until the scuffings are covered with hives 4 inches apart. We are now ready to commence another tier on top. The next hive that is brought in is piled on top of two others in such a way that the bottom covers the space between the two hives below, and so on we pile the rows of the hives. The next tier is followed up in the same manner, until we have three or more tiers high, each hive placed over the intervening space between the two below.

ARRANGEMENT OF HIVES IN THE CELLAR.
 The United States has a lower percentage of blind people than any other country in the world.

ASSIST NATURE
 A little now and then in removing offending matter from the stomach and bowels and you thereby avoid a multitude of distressing derangements and diseases, and will have less frequent need of your doctor's services. Of all known agents for this purpose, Dr. Pierce's Pleasant Pellets are the best. Once used, they are always in favor. Their secondary effect is to keep the bowels open and regular, not to further constipate, as is the case with other pills. Hence, their great popularity with sufferers from habitual constipation, piles and their attendant discomfort and manifold derangements. The "Pellets" are purely vegetable and perfectly harmless in any condition of the system. No care is required while using them; they do not interfere with the diet, habits or occupation, and produce no pain, griping or shock to the system. They act in a mild, easy and natural way and there is no reaction afterward. Their help lasts.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.
 "Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
 Dr. G. C. OSOOD, Lowell, Mass.

Castoria.
 "Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
 H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
 UNITED HOSPITAL AND DISPENSARY, Boston, Mass.
 ALLEN C. SMITH, Pres.
