COUNTRY, OR PARTY?

An American President immortalised himself by saying, "he serves his party best who serves his country best." Not all that is done in the name of any party is good. Much that is bad is done in the name of the best party.

THE REAL FINANCIAL ISSUE.

In speaking of the silver question, where he was last interviewed, Senator Mitchell expressed himself in the following language, which cannot well be constructed to mean anything but what it says: "I have very decided views, and for a number of years have had on the coinage question—that is, as to the coinage of gold and silver and their use as money. I would have the government treat silver both as to coinage and use precisely as it treats gold. I would have no limit on the coinage and use of one metal as a legal tender money that does not attach to the other. In a word, I am in favor of the free and unlimited coinage of gold and silver into legal tender money. I would have such money treated and used as money of ultimate redemption. I would have the government do this independently of the wishes or protests or dictates of Great Britain or any other power on earth. In the language of the last national platform: 'I demand the use of both gold and silver as standard money.'"

Children Cry for Pitcher's Castoria.

their appointive power afterwards to suit the boss and say to the cause of good government and the people—"you be d—d!" It is now said Mr. Mitchell can be senator if he can raise the money to handle the Multnomah county primaries. It will cost from twenty to thirty thousand dollars. Mr. Simon and Lotan are said to be the only men who can handle the tough elements in the city precincts and set up the states for the county convention that nominates the members of the legislature who elect the senator. If Mr. Mitchell can raise the money either Lotan or Simon can do the rest. But Mr. Mitchell is said to be a poor man. It will be seen that while it is the financial question that will determine the next Oregon senatorship, it is not really the silver question. THE JOURNAL wishes Mr. Mitchell well but it wishes the cause of good government and the overthrow of corrupt boss rule much better. It believes the Republican manhood of Portland should hold the primaries without money, without Mr. Simon or Mr. Lotan.

According to the department returns wool growers in the United States are increasing the average weight of fleece on sheep. The average fleece weighs 5.33 pounds, an increase of about three-quarters pound. The range is from 2.8 pounds in North Carolina to 8 pounds in Wyoming.

A new forage plant is reported from Japan. It is said to grow fast and bear large leaves, making two crops in one year. This new plant is being tried in France, where it promises well. A new enemy to the potato bug has been found in several counties in New York. It is about twice as long as the potato beetle, but has a thinner body. It stings the potato beetle larvae and soon destroys their life. Estimates made by the Mark Lane Express on the English and French wheat crops indicate that both the United Kingdom and France will have to be much larger purchasers than usual of wheat. Hay having been listed on the New York Stock Exchange, it may be speculated in now. The South American trade requires immense implements in the way of steam plows, harvesters, etc. A company has been formed in Cincinnati for the purpose of baling hay for shipment to France.

The great German professor, Mommsen, who recently celebrated the centennial of his taking his degree of Ph.D. at Kiel, is a lively man of 76. He is small of stature and very thin, with a big head that is covered by a mass of white, silky hair. He has been a prolific in children as in historical theories and books, and of the 16 sons and daughters born to him 11 are living.—Boston Commonwealth.

When the Japanese and the Koreans "hitch" a horse, they do so by tying his forefeet together. Hitching posts are never used in either Korea or Japan.

Women often feel the effect of too much gayety—balls, theatres, and teas—in rapid succession find them worn out, or "run-down" by the end of the season. They suffer from nervousness, sleeplessness and irregularities. The smile and good spirits take flight. It is time to accept the help offered in Doctor Pierce's Favorite Prescription. It's a medicine which was discovered and used by a prominent physician for many years in all cases of "female complaint" and the nervous disorders which arise from it. The "Prescription" is a powerful uterine tonic and nerve, especially adapted to woman's delicate wants for it regulates and promotes all the natural functions, builds up, invigorates and cures.

Many women suffer from nervous prostration, or exhaustion, owing to congestion or to disorder of the special functions. The waste products should be quickly got rid of the local source of irritation relieved and the system invigorated with the "Prescription." Do not take the so-called "cure" compounds, and nerves which only put the nerves to sleep, but get a lasting cure with Dr. Pierce's Favorite Prescription.

"FEMALE WEAKNESS." Mrs. WILLIAM HOOVER, of Belleville, Richmond Co., Ohio, writes: "I had been a great sufferer from 'female weakness.' I tried three doctors; they did me no good; I thought I was an invalid forever. I heard of Dr. Pierce's Favorite Prescription, and then I wrote to him and he told me just how to take it. I took eight bottles. I now feel entirely well. I could stand on my feet only a short time, and now I do all my work for my family of five."

CASTORIA for Infants and Children.

MOTHERS, Do You Know that Paregoric, Buteman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine? Do You Know that opium and morphine are stupefying narcotic poisons? Do You Know that in most countries druggists are not permitted to sell narcotics without labelling them poisons? Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed? Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle? Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined? Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense? Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless? Do You Know that 35 average doses of Castoria are furnished for 35 cents, or one cent a dose? Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest? Well, these things are worth knowing. They are facts. The fac-simile signature of Chas. H. Pitcher is on every wrapper. Children Cry for Pitcher's Castoria.

MILTON RHODES, Practical Upholsterer. All kinds of work made to order. Repairing a specialty. 130 Court Street, Salem, Or.

EXCELSIOR - STABLES - E. C. HANSEN, MANAGER.

Only good horses used. Satisfaction guaranteed. Stables back of State Insurance block.

BIG PROFITS ON SMALL INVESTMENTS.

Returning property will make many rich, but nowhere can they make so much within a short time as by successful speculation. \$10 FOR EACH DOLLAR INVESTED can be made by our Systematic plan of Speculation. All successful speculators operate on a regular system. It is a well known fact that there are thousands of men in all parts of the United States who, by systematic trading through Chicago brokers, made large amounts every year, ranging from a few thousand dollars to the man who invests a hundred or two hundred dollars up to \$75,000 to \$100,000 or more by those who invest a few thousand. It is also a fact that those who have the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading. Write for convincing proofs, also our manual on successful speculation and our Daily Market Report, full of money-making pointers. All FREE. Our manual explains margin trading fully. Highest references in regard to our standing and success. For further information address TALKINGTON, BOTTGER & CO. 108 COURT ST., SALEM
