

IN FALL MONTHS.

Neuralgia, Rheumatism, Can Now Be Cured.

Old Time Obstinate Diseases are Easily Curable.

Paine's Celery Compound Is the Great Specific.

It Restores the Neglected, Famished Nerve Parts.

It Replaces Worn-Out Tissues with New, Vigorous Ones.

Paine's celery compound is the assured remedy for rheumatism and neuralgia, that is every day accomplishing all that physicians claim for it.

Both these old-time obstinate diseases are today speedily and permanently cured by Prof. Edward E. Phelps' great prescription.

Neuralgia and rheumatism are merely names for a certain reduced state of the nervous tissues. As far as causes go, they do not much differ from nervous debility, headaches, dyspepsia and sleeplessness.

The mischief is the same in every case, a nervous system robbed of its substance, by over exertion and scanty nutrition. The cure for all these is likewise in the same direction—strengthen and restore the nerves to their normal condition with Paine's celery compound.

It is the advice of ablest physicians everywhere.

As soon as all the countless nerve centers and fibers have been made sound and strong, not only rheumatism and neuralgia, but low spirits, kidney trouble, disordered liver and heart palpitation, vanish without a trace to remind one that their presence was not all a fearful dream.

Paine's celery compound does its curative work in a simple, straightforward way. It wastes little time on the minute and puzzling classification of diseases, but bends on its energies at once to feeding the worn-out, shattered nervous track, filling the arteries with rich, new blood, and building up the body for its fight against disease.

Low spirits use their power when the system feels the buoyancy of returning health, such as soon comes from taking Paine's celery compound. The rapid gain in weight that follows its use is a reasonable indication of the strengthening processes that are going on among the vital organs.

Many men and women who recommend Paine's celery compound do so in what, to others, may sometimes seem extravagant words. But Paine's celery compound has made them well!

Did You Ever Think

That you cannot be well unless you have pure, rich blood? If you are weak, tired, languid and all run down, it is because your blood is impoverished and lacks vitality. These troubles may be overcome by Hood's Sarsaparilla because Hood's Sarsaparilla makes pure, rich blood. It is, in truth, the great blood purifier.

Hood's Pills cure liver ills, constipation, biliousness, jaundice, sickheadache, indigestion.

There are 177,765 miles of railroad in the United States.

There are 66,835,880 rails used to cover this ground.

There are 533,355,000 ties used to bind these rails together, but so such amount, however, is required to bind the hearts of the traveling public to the fact that the Wisconsin Central lines furnish superior facilities on all their trains between St. Paul and Chicago which form close connections with all lines to the east and south.

Make a note of it.

THE GOLDITE PLAN.

The goldites don't want anything better than for the silver men to go off and organize a party by themselves.

That will draw off a few silver men from the old parties, and leave them under a stronger gold control than ever before.

The evident intention of the goldite managers is to have both the Republicans and Democrats put up goldite candidates for the presidency and then have the capitalistic classes vote for the goldenest one of the two as a rebuke for the one who is not quite so extreme.

It will then be said that he was not a sound money man and hence was beaten. The goldites know a party not principle but devotion to gold interest.

Hence we see the leading goldites of this state supporting Cleveland and Carlisle and circulating literature of the free trade New York Reform club. They are willing to sacrifice the industries and agriculture of our country in order to maintain a rushing financial monopoly, even by union with Democrats and free-traders.

Can such men be said to have any political principles and to belong to party of Abraham Lincoln, Seward and Stanton? Nay, verily; they belong to the modern shrewd breed that would flood our country with foreign capital and bind our producers and laborers to the Juggernaut of the shynocks of Europe.

With our wonderful resources our country has prospered in spite of the infamous burden of interest drawn out by foreign capital and the enormous burden of railroad and other securities held abroad. But it has been a continually waning prosperity, and those who base their hopes on increased importations of foreign capital are like old Doctor Sangrado, who constantly resorted to more blood letting until his patient died. We do not want more foreign capital. We do want more American standard legal tender dollars to use while we live and to exchange for one another's products.

The only possible distribution of wealth that is of any value this side of socialism, is the money that men pay to one another for labor and products. Those who say that the restoration of the silver dollar to full legal tender value would cut wages and the price of farm products in two are mistaken. They were cut in two by the demonetization of silver and will be restored when silver is.

The JOURNAL does not believe that anything can be done at raising money among the farmers or laboring men for a silver service to present to the Warship Oregon. If we may suggest a plan to the committee, let them call a mass meeting of the business men of each city to raise a fund. The bankers and merchants, the corporations and officeholders are best able to contribute. If they are given a public opportunity to do so, we believe that a very nice sum can be secured to creditably recognize the naming of a Battleship for Oregon.

A number of our exchanges are great economizers of time. You don't have to even examine them to ascertain their editorial views and opinions. They have none.

United States Senators John H. Mitchell and George W. McBride are visiting points in the valley with a view to coming in touch with the people and acquainting themselves with their wants, real and imaginary.—Newberg Graphic.

The towns of Newberg and Butteville hold annually good agricultural fairs, pay liberal premiums and have a big attendance, and without any state appropriation. How is this?

THOROUGH AND COMPLETE REVIEW

OF Rev. Copeland's Discourse Last Sunday Night.

(Continued from yesterday.)

If an individual God be done away with, we are incapable of thought, meditation, design or intelligent action.

The pastor of the Unitarian church can think, act and design but what could he say to the Chinaman with his idols. He prays to an inferior when he prays to God.

"The Christian world needs very much a new God, whom we can worship in spirit and in truth. This was what Jesus referred to when he declared that God is a spirit whom we are to worship in spirit and in truth. The action of the Methodist conferees not only shows their great need of education, but they may form a proper conception of God but also shows that the spirit of persecution and bigotry is not dead." The gentleman is now quoting Jesus which he has no right to, believing in an impersonal God—Father of nothing. By a new God he means a new conception of God. Some Unitarians are not represented by this sermon. I am repudiating some of the best statements Unitarians can put up but am not the best scholar for the Evangelical church at all. Who can worship an impersonal God in spirit or in wisdom? Talk of barbaric conception, Rev. Copeland's conception of God is the most barbaric of all. Indians had same conception of God as this man. People in Rome are worshipping an impersonal God and are a barbarous tribe. The Unitarians' conception of God is not refined. The revelation of God, set forth by Christ to men is not barbarous. The religion of the bible enlightens us. The Unitarian pastor has a barbaric conception of God so have all quacks. Cranks boast of wisdom and science so do cranks in the insane asylum. Shows that he is not scientific and is over balanced by theology. Who is in chains? He keeps all back. His unwritten creed will not let him say it. Makes God next to nothing and impersonal. Takes the glory from God.

Speaking of the persecution of the Seven Day Adventists by the Methodists the speaker referred to the persecution of the Christian martyrs in Rome.

The bible teaches but one God and ascribes to Jesus and the Holy Ghost what they claim for themselves. Unitarians will not believe in the resurrection of Jesus Christ, but will swallow such a sermon as was delivered last Sunday night. If you ever hear of a hell worse than the orthodox hell call it Unitarian hell. World is adopted to everything that is good. After such talk quotes Lord's prayer. Says there is none better. In conclusion will say that the Unitarian gentleman is an unbeliever and blasphemer of the Lord Jesus Christ; a skeptic of the bible and an enemy of religion. The gentleman's sermon last Sunday evening was not a discourse on hop lice, but chose a text on hop lice and preached against the bible and religion.

THE JOURNAL predicted that President Chapman of the State University was a man capable of growth. He is fulfilling that forecast.

Capoul, the French tenor, was the recipient of volumes of letters from lady admirers both here and in Paris. On the English stage, besides Mr. Irving, Mr. Alexander, Mr. Hays and Mr. Bancroft have been overwhelmed with a goodly number. But I am told by one who knows that no actor living ever received such a number of admiring epistles from the fairer sex as the late John Clayton.

Among actresses Mrs. Bancroft has perhaps been treated to the kindest attentions. Mrs. John Wood, too, on the first or last night of her play had always her dressing room converted into a perfect bower of flowers, and little gifts of jewelry literally poured in upon her. There was one bangle with the inscription "Bless your art." Whether it was Mrs. Wood's heart or art that was blessed remains a riddle to this day.—London

DEPEW'S GREATNESS.

Chauncey Depew goes to Europe to meet railroad magnates, mingle with the aristocracy multi-millionaires, is wine and dined, returns home and gushes over the "good times" on the other side of the Atlantic. With his brief visit, his numerous engagements in the upper circles, and his associations while abroad, what fine opportunity had this dining-room orator, this Vanderbilt darling, to give to the lower order of humanity—the laboring class and those unfortunate enough to practically belong to even that—and learn of their true condition? He merely, delicately felt the crust and surmised the contents. His cursory examination did not embrace the plebeian classes, who, when prosperous, denote the real prosperity of a nation.—Oswego Ironworker.

The Ironworker is getting in its iron work on Depew. Isn't Depew the greatest of our corporation lawyers, a Republican and orator? Can't a man be great in this country without being the idol of the common people? It is true Depew is not great in the sense that Lincoln was, and few men are. But Depew is a great man, "all the same," the way greatness is figured these days.

IRONWORKER OR RINGWORKER?

We would like to ask you, are you arguing Mr. Herman's return?—Salem Capital Journal.

Not residing in Salem, we have no desire to succeed Congressman Herman. The Capital Journal will please inform us why we should not support Mr. Herman's candidacy.—Oswego Ironworker.

The Ironworker was a machine mouthpiece of the old Portland ring, and it will be seen that it skillfully dodges our questions. It will support Mr. Herman if he is nominated. Mr. Herman does not mind the support of the Ironworker or the ringworkers if he is nominated. The people will do the rest. The only fight will be over the nomination. The Ironworker as well as the ringworkers show their name too plainly in the above. The JOURNAL is not a Herman organ but in any contest with the ringworkers the people know where to find us. Where will they find the Ironworker?

Mexico's Better Postage Stamps.

The following from Mexico City will interest the multitude of cranks who collect postage stamps: A new series of postage stamps is in process of engraving by the Mexican government and will make its appearance for sale in September. This is the first issue of pictorial postage stamps ever issued in Mexico. They will be in the usual denominations, 1 cent, 2 cent, 4 cent, 5 cent and 10 cent, and will represent by cleverly executed drawings the various stages of Mexican mail transportation, showing the motive power of man, burro, stage and steam train.—New Orleans Times-Democrat.

The Duke of Westminster is asking the sympathy of his friends because, under the terms of the death duties in the pending budget, his estate at his death must pay to the government a tax of no less than \$6,500,000. This will compel the poor heirs to get along with only \$50,000,000.—London Truth.

Mrs. Grafton Ross, an English woman, has invented a tool for killing weeds in gardens. It is in the form of a hollow piercer, through which poison is conveyed to the heart of the root of a weed, causing it to shrivel up in a very short time.—London Gentlewoman.

PROGRESS.

People who get the greatest degree of comfort and real enjoyment out of life, are those who make the most out of their opportunities.

Quick perception and good judgment, lead such promptly to adopt and make use of those refined and improved products of modern inventive genius which best serve the needs of their physical being. Accordingly, the most intelligent and progressive people are found to employ the most refined and perfect laxative to regulate and tone up the stomach, liver, and bowels, when in need of such an agent—hence the great popularity of Dr. Pierce's Pleasant Pellets. These are made from the purest, most refined and concentrated vegetable extracts, and from forty-two to forty-four are contained in each vial, which is sold at the same price as the cheaper made and more ordinary pills found in the market. In curative virtues, there is no comparison to be made between them and the ordinary pills, as any one may easily learn by sending for a free sample, (four to seven doses) of the Pellets, which will be sent on receipt of name and address on a postal card.

ONCE USED THEY ARE ALWAYS IN FAVOR.

The Pellets cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation, sour stomach, loss of appetite, coated tongue, indigestion, or dyspepsia, windy belching, "heartburn," flat and distress after eating, and kindred derangements of the liver, stomach and bowels. Put up in glass vials, therefore always fresh and reliable. One little "Pellet" is a laxative, two are mildly cathartic. As a "dinner pill," to promote digestion, take one each day after dinner. To relieve distress from over-eating, they are unequalled. They are tiny, sugar-coated granules; any child will readily take them. Accept no substitute that may be recommended to be "just as good." It may be better for the dealer, because of paying him a better profit, but he is not the one who needs help. Address for free sample, WORLD'S DISPENSARY MEDICAL ASSOCIATION, 663 Main Street, Buffalo, N. Y.

Makes the Blood Pure

This is the secret of the cures by Hood's Sarsaparilla. Read this:

"I am so glad to write that I am now in perfect health and it is all because Hood's Sarsaparilla made my blood pure. My health broke down with troubles peculiar to women, my nervous system was shattered and I had to take my bed. The physician said there was little hope for me. A neighbor told of wonderful cures by Hood's Sarsaparilla and I decided to try it. When I had taken 3 bottles, I could sit up and now I am perfectly well and strong."

Hood's Sarsaparilla has done all this for me." Mrs. C. F. FADEKER, La Platte City, Colorado.
