BIMETALLISM.

The eloquent pleas of Congressman Bryan for Bimetallism are simply unanswerable. They meet with almost universal acceptance in the minds of the unprejudiced and interested. Regardless of party, men applauded him at the state fair and it is to be regretted that the masses of the people cannot hear him.

Political machinery and campaign funds will be exhausted next year to bring into the state the orators for so-called sound money. Unless it is in the ranks of the Populist party, which is loaded down with a variety of objectionable issues that do not appeal to the masses of the people, the campaign speakers will not plead the cause of silver money.

What can the people do? Doubtless a great majority of voters in all parties, if they could hear the question fully discussed, would cast a vote for the policy of bimetallism. But divided off into parties they may all be suppressed and obliterated in partisan strife. A Democratic free silver vote will annihilate a Republican free silver vote. We believe there are a large number of voters in all parties who believe in a policy of protection to American industry—protecting the farmer as well as the manufacturer on equal terms. If these men could unite with the bimetallists, an invincible combination would be presented. Protection and bimetallism are naturally allied policies of government.

We look for the Republican party to unite these two principles more vigorously than in the past. There is nothing in these policies foreign to Republicanism. The Republican party has talked bimetallism in the past. It has never advocated the single gold standard, yet that has been in effect what it has given given us. It is the duty of the Republican party, if it would retain its hold on the producers and laborers, as well as the constantly increasing debtor class of our country, to not only talk bimetallism as a matter of policy, but to give the people bimetallism as a reality if it hopes to live. The party that gives the people a genuine American system of protection and bimetallism, as against the pauper labor and monometallism of European monarchies—that is the party that will hold the affection of the people fixed for years to come. But it must be done in no half-hearted, or deceptive manner. It must be the genuine stuff.

THE JOURNAL is a Republican paper but it places the country and the people before the interests of the partisan for revenue. THE JOURNAL is not a partisan for revenue. It believes in genuine bimetallism, not in single gold standard bimetallism. It will do all in its power to secure genuine bimetallism by and through the Republican party. But it will also labor to secure bimetallism by and through the people in their primary capacity whenever and wherever they have a chance to express themselves. It is a question that is not confined to any party or even to our country. It is the cause of humanity, just as the abolition of slavery, the abolition of monarchies, the abolition of aristocracy, the abolition of monopoly, are causes of humanity. In this way we applaud the labors of Bryan and all other good men in all other parties who labor usefully for the cause of bimetallism. Mr. Bryan did good work in Oregon in opening the eyes of even a few people to the justice of bimetallism and the injustice of

monometallism. He has left a determination in the hearts of true bimetallists to labor on, both within and without party lines, until this cause is won. He has got men to thinking how they may best cast their votes to help this cause. The result of his labors will be an extension of the bimetallist organization and probably a canvass of the state all winter on the question. The people are ready to hear the question discussed without prejudice. They should hear it discussed, and then let it be seen whether Oregon stands for sound money or gold-buggery.

The Louisville Courier-Journal is owned by a few banks in that city just as the Oregonian is owned in Portland. It is not supporting the Democratic candidates in Kentucky who are sincere bimetallists, but is supporting the Democratic platform of 1892, which was put up to catch votes of silver men. In the same way Harvey Scott and other great editors who are owned by the bankers, would not support a Republican candidate if he were to be a sincere bimetallist, while they would support a bimetallist platform put up to catch silver votes.

Chas. W. Fulton and T. T. Geer were good enough to make a brilliant canvass of the state last year when most needed. But that is all they seem to be good for in the eyes of some Republicans. But their day is coming.

President Galloway has been a member of the State Agricultural society, was one of its first orators, was vice president several times, then president three times, which office he now holds.

Mayor Claud Gatch and Col. R. A. Miller were very properly selected as typical young men to deliver addresses on Natives' Day at the state fair.

The Coryalls prune syndicate has had bad luck. Its big drier has burned down twice.

After all the abuse that has been shed upon her Mrs. Lease still continues to be one of the most oft-quoted American personages.

The Duke of Marlborough is to wed Miss Vanderbilt with her ten millions. Still our goldbugs go to Europe.

Old Man Apperson is one of those office-holders who never knew when to quit.

Reed will never be president. He is a man of too positive a nature.

The New York hop crop is 65 per cent of last year.

Weak and Nervous
Describes the condition of thousands of people at this season. They have no appetite, cannot sleep, and complain of the prostrating effect of warmer weather. This condition may be remedied by Hood's Sarsaparilla, which creates an appetite and tones up all the organs. It gives good health by making the blood pure.
Hood's pills are the best after-dinner pills, assist digestion, cure headache.

Rheumatism
Is a symptom of disease of the kidneys. It will certainly be relieved by Park's Sure Cure. That headache, backache and tired feeling come from the same cause. Ask for Park's Sure Cure for the liver and kidneys price 1.00, sold by Lunn & Brooks. 19-4w

There are 17775 miles of railroad in the United States.
There are 68,835,880 rails used to cover this ground.
There are 538,295,000 ties used to bind these rails together, but no such amount, however, is required to bind the hearts of the traveling public to the fact that the Wisconsin Central lines furnish superior facilities on all their trains between St. Paul and Chicago which form close connections with all lines to the east and south.
Make a note of it.

Catarrh
Has troubled me for 11 years. I have taken four bottles of Hood's Sarsaparilla and am perfectly cured. I think Hood's Sarsaparilla has no equal, and believe that many who are in poor health and have become discouraged, would be restored to good health if they would only give Hood's Sarsaparilla.
