Don't Suffer With Rheumatism---Take Paine's Celery Compound.

The result of his lifework was Paine's celery compound, that remarkable remedy that permanently and speedily cures disease. It is the greatest nerve regulator and blood purifier of this present century.

For men and women out of health, Paine's celery compound should be tried without fail. It has meant health in place of sickness in thousands of cases that seemed hopeless.

The fact that this is the season when rheumatism most painfully shows itself, makes the following communication from Mr. J. M. Tobias of South Omaha, Neb., of special interest. Mr. Tobias writes:

"I suffered for years with rheumatism in the joints of my hands and arms, so that I could perform my work only with the greatest difficulty. I used all kinds of medicines without result. Finally I secured a bottle of Paine's celery compound, and it benefited me at once. Paine's celery compound certainly cures rheumatism!"

The common sense of the people has long refused to believe that rheumatism and neuralgia were diseases hopeless of cure.

Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth college, has confirmed their belief. There is an absolute

## LINCOLN COUNTY NEWS.

Hon. Binger Hermann was at the county seat yesterday, looking after the wants of his constituents, and at the earnest request of many citizens addressed a large crowd at the court house in the evening. The people in this section of the country being chiefly interested in the improvements of our rivers and harbors, Mr. Hermann reviewed the various improvements of harbors in Oregon, showing the results of a million and a half dollars spent at the mouth of the Columbia. He said that he was in favor of liberal appropriations for all rivers and harbors, both in the north and south, and promised to use his best efforts in the future as he had in the past, in securing help for Yaquina Bay. He said that the farmers living at Albany, Corvallis, and other points along the O. C. & E. road were receiving 5 cents more per bushel for their wheat than those living at McMinnville and other points on the west side. Mr. Herman promised to introduce a bill in the next congress, asking that the Elletts harbor and river be surveyed. He also said that he should make a hard and long pull for the Nicaragua canal. With the people of the coast counties Mr. Hermann is very popular. He was frequently interrupted in his talk by liberal applause, Democrats, Populists and Republicans showing their appreciation of the man who for 12 years has worked in the halls of congress in the interests of all classes and sections of the great state which he represents.

## THE NEW LEGISLATURE.

The next state senate will consist, as heretofore, of thirty members. The holdovers are: Brownell, Calbraith, Carter, Dawson, Geener, Gowen, Johnson, Holt, Johnson, King, McClung, Patterson, Price, Simons, Smith of Clatsop--15. Successors are to be elected to McGinn, Woodard, Bancroft and Deany in Multnomah county; Alley in Lane, Beckley in Douglas, Butler in Polk, Cogwell in Lake, Huston in Washington, Maxwell in Tillamook, McAllister in Union, Raley in Umatilla, Smith in Sherman, Steyer in Gilliam and Vandenberg in Coos. The retiring fifteen stand: Republicans, seven; Democrats, seven; Populists, one, counting Beckley as a Democrat. Of the holdovers, Molt and King are Populists and Smith of Clatsop a Democrat, the other twelve being Republicans.

Ordered Discharged. WASHINGTON, Oct. 11. Judge Bradley of District supreme court, today ordered discharged from custody Captain George A. Armes, arrested on order of Lieutenant General Schofield, just before the latter's retirement from command of the army, for having written him an insulting letter. Judge Bradley characterized action of the late general as unlawful, tyrannical and capricious.

Crossed the Plains. BUTTEVILLE, Or., Oct. 11.--Mrs. M. B. Graham died at her home, two miles north of Butteville, last Saturday at the advanced age of 85 years. "Grandma" Graham, as she was more familiarly known, was a pioneer of 1852, having crossed the plains with her husband and three children in that year.

## STATE BUTTER SUPPLY.

Not Enough Cows in Washington to Keep Creameries Running. "The supply of Washington butter is getting scarce every day as winter approaches," said a well-known local butter dealer, "and consequently prices are advancing. In the last three or four months prime butter has advanced from 16 to 22 cents per pound wholesale. From now on till February the great supply of butter consumed in this state will come from Iowa, Minnesota and other middle and western states."

"Why is it the rates advance when the Washington butter goes out of the market? Is it because a better grade is then offered for sale here?"

"No. Washington butter is equal to any made, and the cause for the advance in prices is the extra cost of shipping from such long distances. The local dealers would much prefer to handle home products if they were obtainable. California butter will come in competition with the eastern products early in February, and owing to the fact that freight rates between the Sound and California via steamer are so low as compared with the freight tariff on butter from Missouri river points, the eastern butter will be compelled to retire. Iowa and Minnesota butters are good and some California butter is good, but some of the dairy products of the Golden State are also very inferior."

"How is it that these other states can supply butter all the year around. If necessary, and Washington dairy products are to be found in the market during only half the time?"

"That is a point which could be eliminated by having more cows in the state. Under present conditions there are hardly enough cows to keep all the state running for six months. While the home creameries are in operation very little butter is imported. To make imported butter an unknown quantity here the number of milch cows must be at least doubled, so some may come in in the spring and some in the fall. Of course the season has been cut a little short this year by the extraordinary dry season and the attendant shortage of grass and fodder."

"In July dairy and farm products were cheaper than at any time during the past year. Prime Washington butter was then quoted at 16 cents and eggs at 10 cents. Ranch eggs are now quoted at 25 cents and eastern eggs at 22 cents. Pickled and cold storage butter, of which California supplies a large percentage, is from 18 to 20 cents per pound wholesale. Washington cheese is 11 cents a pound."--Tacoma News.

## A Just Verdict.

The Fleister murder case took up the time of the court last week till Friday about 3 in the afternoon, when it was given to the jury after long and exhaustive argument had been made by G. R. Smith for the defense and Messrs. Benson and Wade for the prosecution. It only took 15 minutes for the jury to bring in their verdict, "guilty as charged in the indictment." The prisoner who had hoped to get off on the plea of insanity, flew into a rage and cursed Sheriff Hiatt and several others who did not suit him. A stay of proceedings was asked for 15 days in order to give the defense a chance to make a motion for a new trial. Today (Thursday) at 2 o'clock Judge Hanna will sentence the prisoner. There is but one sentence, according to law, and that is death.--Grant's Pass Courier.

Fleister is the man who drowned his wife in a puddle of water, and if any one in the United States ought to hang it is Fleister. Hanged! He ought first to be held in a puddle of water for an hour and then hanged.--Albany Democrat.

## Blood Will Tell

Most surely upon the condition of the physical system. If the blood is pure and full of vitality it will carry health to all the organs of the body; it will expel the germs of disease and the result will be a condition of perfect health. If it is impure and impoverished, such a condition will be impossible. The best way to keep the blood pure is by the use of Hood's Sarsaparilla, because Hood's Sarsaparilla is the best blood purifier that medical science has ever produced. This is the secret of its wonderful cures of eczema, salt rheum, nervousness, sleeplessness, rheumatism, and all other diseases which originate in the blood.
