HER BACK ALMOST BROKEN How THE PAIN WAS CURED.

No Good was Accomplished by Operation.

(Fron the Evening News, Newark, N. J.) About eighteen years ago, when Mrs. Anna Dale, of 88 Bruce atreet, was a bright, merry school girl, she was taken ill and a physician who wascalled diagnosed the case as one of scarlet fever. Soon after the little private. sufferer was pronounced out of danger and it was only a short time after that when she was out of bed. But she was a very different girl from a physical standpoint. True, she was cured of the scarlet fever, but her back-how it did pain. Everything that could possibly afford her relief was tried with no lasting effect. As she grew older the pain seemed to increase, but she, like the Spartan boy of history kept her suffering to herself and was one day. married to Mr. Dale, a well-known Newark business man. Her sufferings however, were only intensified by he household duties, but she never com plained, and with one hand pressed lightly to her back she did her worl about her cozy home. Now she is re-warded for her patience. She sufferno more.

"Nothing ever did me a particle di good except Dr. Williams' Fink Filis for Pale People," said Mrs. Dale when asked by a reporter to what she attri buted her cure. "After sighteen years of suffering," she continued, "I feet like another person now that I am cured; thanks to Dr. Williams and his pills. I was 14 years old when I was 1 was 14 years old when I was pills. attacked with scarlet fever, and although I was soon over it my back ached frightfully from that time until Christmas, when I began to take Dr. Williams' Pills. Everything else that I had tried proved worthless and so you can imagine my joy when I at last found the thing that gave me relief. "Night aud day I suffered. It really

seemed as if I must succumb to the pain, and then to make matters worse. my head ached so badly that I could scarcely see, at times. Finally I went to St. Michael's hospital, at the corner of High street and Central avenue, and there the surgeons performed a difficult operation on my back but it did no good; it was like everything else. I was told at the hospital to return for an-other operation, but the first had left me so weak I could not go back. Then again I had become discuraged and my three children needed my attention and care at home. The pain became harder to stand and my back was almost broken, it seemed. I thought I would never know what it would be like to be well again when I was told to try Dr. Williams' Pills. With many doubts, a faint heart and an aching doubts, a faint heart and an aching back I went to get the pills, and little dreaming that they would proye the elixir of a new hife to me, I began to improve. Could it be possible that Dr. Williams' Pink Pills were doing what everything else had failed to accomp-lish? I saked myself the question many
