SOME FOREIGN AFFAIRS

The Sultan is Striving to Restore Order.

THE CRUISE THOUGHT TO BE PASSED

There Will Be No Armed Intervention By the Powers.

CONSTANTINOPLE, Nov. 21.—As intimated in these dispatches the attitude of the ports of the sultan has undergone a decided change since the other fleets began to join the British fleet in a naval demonstration in Salonica Bay.

BERLIN, Nov. 21.—Nothing further has been received from Sofia, Bulgaria, in any way tending to confirm the dispatch from that city yesterday which announced that a report had been received from Constantinople that the sultan of Turkey had been poisoned.

LONDON, Nov. 21.—A Standard dispatch from Constantinople says the losses to the American missions at Kharput will reach \$10,000. The Persian Kurds, according to another dispatch to the Standard, are in open revolt against the municipal government of the town of Almaton, in Asiatic Turkey.

The most stringent orders have been issued to the different valls, coupled with appeals asking them to save the honor of sultan and preserve the Islamic faith by an obedience of instructions, but all of these efforts have proved futile.

The Constantinople correspondent of the Standard announces that the Austrian colony there has organized a system of defense. LONDON, Nov. 21.—A dispatch to the Times from Constantinople announces the commencement of a panic among the Armenians have declared their intention of closing their shops.

AGAINST THE GOVERNMENT. BOSTON, Nov. 21.—A letter received here from a reliable correspondent in Constantinople contains the following on the situation there: "The Turks are more sensible than before, as they now realize that the action of the Armenians is not against themselves, but against a system of government which all detest."

to keep up the feeling of anger against them. The Turkish patriotic party is openly declaring that the sultan is the cause of all the troubles that afflict the country.

"In the region of Baghejik and Adshaner, the efforts of the military commander of Nicomedia to stir up the Mohammedan population to acts of violence against the Christian villages have produced great terror."

"In Aintab the people have been brought to desperation by the ferocity with which the taxes are being collected. The governor-general of Aleppo is a rasal whose disregard of the treaties as to the rights of Americans led Minister Terrell to demand his removal."

"Bloodshed must follow if the Armenians are to be forced on into open rebellion in that region. The Trebizond massacre seems to have been even more terrible than was at first reported. The Turkish loss was probably two men killed by Armenians defending their own lives. The Armenian loss is now carried up to 20,000 in city and villages."

The Armenian Matters. [Copyrighted by Associated Press.] CONSTANTINOPLE, Nov. 21.—Matters political do not look as bright today as yesterday. Once more Bahri Pasha is the disturbing element. This notorious official made himself so conspicuous by cruelty to the Armenians and by the mal-administration of his district when governor of Van, that the British ambassador insisted upon his removal, which was done. Now, however, Bahri Pasha has been appointed military commander of the Aleppo district. The bad impression this has produced can hardly be exaggerated, for diplomats feel that it will be almost impossible to prevent his pursuing the same tactics at Aleppo that he did at Van.

Sherman On Carlisle. NEW YORK, Nov. 21.—Senator Sherman, speaking of Carlisle's speech, at the chamber of Commerce last night said:

"The basic error of the speech was the secretary's idea that legal tender could be done away with entirely. It could not be done. The great mistake was in the way the Democratic administration had tampered with the gold reserve. It should have issued short bonds of five years' duration which the people here would have taken up quickly at 3 per cent, and with this paid the expense of the government, instead of trenching on the gold reserve. Short bonds, of course, would have been paid for in legal tender. Instead of doing this, the administration had permitted some domestic and foreign banks to clear \$11,000,000 by selling the bonds for gold at 4 per cent. Carlisle's plan of last night is impracticable. There are 3,000 national banks, and it would not do in order to have currency to take the gold of the treasury and scatter it around in these banks to redeem money that had been issued by these banks."

He said he did not know whether the Republicans would be able to organize the senate. When it came to the issue in regard to money he thought the east would be against the west. As long as Cleveland was president he said there would be no silver legislation because he favored sound money."

The Brownsville Murder. BROWNVILLE, Nov. 21.—Lloyd Montgomery, the 18-year old son of John Montgomery, who was murdered Tuesday last, today, through his attorney, B. S. Martin, waived a preliminary examination and was taken to Albany by Deputy Sheriff Willson this morning. Attorney Martin states that the grand jury will convene next Monday to investigate the charge of murder against Montgomery.

Knights of Labor. WASHINGTON, Nov. 21.—Knights of Labor general assembly today gave a formal recognition of financial indebtedness of the order to the Couer de Aleso miners' trust fund. At the time of the trouble in the mines, the relief fund which was contributed, it is said, was used for meeting the expenses of the order, instead of going to Idaho assembly No. 13. The decision, admitting the justice of the claim closes a long controversy and the money will now be paid the local assembly as fast as circumstances will permit.
