Extended Over Half the Entire Country.

DOING A GREAT DEAL OF DAMAGE

Other Accidental and Criminal News of the Day.

CHICAGO, Ill., Nov. 27.—Returns from the storm of Monday night show it did a vast amount of damage in other parts of the country. Houses were blown down or unroofed by the gale at many points, in Ohio, Indiana, Illinois, Michigan, Kentucky. The storm was felt over nearly half the country. Thousands of derricks were blown down in the Findlay district, loss \$70,000. Farm houses, out-buildings, and fences of the surrounding country were damaged to the amount of \$80,000. In Hartford City, Ind., five hundred derricks were blown down, loss \$100,000. At Elmwood several buildings of the Pittsburg Plate Glass Works were demolished. Two men were injured. Loss \$15,000. The Standard Oil Company loses \$150,000 by destruction of thousands of derricks and other property at Bowling Green. Several business houses at Fort Wayne, Ind., were unroofed.

Railroad Traffic Delayed.

KANSAS CITY, Mo., Nov. 27.—The recent storm at Kansas City is ended. It reached its climax when the mercury fell to 19 degrees above zero, nearly 10 degrees lower than the lowest point yesterday. The wind, however, had spent its force nearly 12 hours before. The storm seriously affected the train schedules in this city this morning, and most of the trains from the East and West pulled into the Union depot behind time.

Blow at Cleveland.

CLEVELAND, O., Nov. 27.—The greatest gale that ever struck this city, according to the records of the weather bureau, commenced blowing from the south shortly after midnight. At 5 A. M. the wind had risen to the velocity of 72 miles an hour. Several houses were blown down. Many buildings were uprooted and signs blown down in all parts of the city. The water in the river and harbor is at the lowest point recorded in several years.

The Storm on the Lakes.

CHICAGO, Nov. 27.—On Lake Michigan the gale was very severe and the sea is running very high. Comparatively few vessels are out at this time of the year, and it is not expected that there will be much loss of life, if any. No vessels left the harbor last night. The lives of at least 50 men were in imminent peril on board of vessels blown aground in Lake Michigan off Glencoe. The vessels are the steamer J. Emery Owen, Captain Marion Penny, and the barge Michigan and barge Nicholson.

A Suicide.

MILWAUKEE, Nov. 27.—Peter McGeech, one of Milwaukee's oldest and best known citizens, shot and fatally injured himself at home today. His wife had brought suit for divorce, and it is supposed that brooding over this led him to take his life. His connection with a famous land deal several years ago made his name a familiar one all over the country.

U. P. Solicitor.

OMAHA, Nov. 27.—Judge William R. Kelley was today officially appointed general solicitor for the Union Pacific railway company, to succeed John M. Thurston, who resigned to take a seat in the U. S. senate. Judge Kelley has been assistant general solicitor of the Union Pacific.

WOOLEN MILL SUBSIDY.

Progress Made Toward Raising the Needed Stock.

The committee appointed at the city council meeting Monday night, consisting of E. P. McCormack, I. L. Patton, E. C. Cross, A. Klein and E. Hofer spent a good share of the business part of the day interviewing prominent citizens and business men and enlisting their aid and encouragement for the \$25,000 woolen mill stock. They met with some success. Only a partial canvass was made and the feeling is cordial and unanimously in favor of subscribing that amount of free money in the community.

One gentleman says he prefers to take a thousand dollar stock in preference to putting that much money into a house, where it will be dead capital. He prefers a good dividend to sinking his cash where he will never see it again. Capt. M. W. Hunt, the attorney, encourages the committee by saying he was making a sale of some land which if completed, he confidently hoped to be able to take \$1000 stock at the Monday evening meeting. He said he considered it better stock than bank stock.

The committee are meeting with many offers of bonus money. There are a number who prefer to give cash outright to taking stock. The committee have secured a number of good speakers for Monday night's meeting who will back up their talk with cash. They will not only talk for the subsidy but will become stockholders. The feeling is very good and the committee are putting in a great deal of time and will issue a circular to the public Friday, showing that as an investment in woolen mill stock is superior to investing money in land, houses or any other kind of property.

The question is, can the business men and capitalists, of Salem, by pulling together secure \$25,000 of stock and bonus together. THE JOURNAL advises all to take stock, but the bonus will only make the stock all the more valuable.

SALEM SOCIAL CLUB.—A gentleman who is something of a gourmandizer, suggests that the Salem Social Club be called the "mushroom club." Oregon is noted for the fine quality of those edibles grown here. This year there have been two crops and following these rains there will be another crop. The mushroom is a much neglected article of food and the promotion of its culture is certainly a laudable object to name a club after.

ADDITIONAL OPINIONS.

A Salem Physician Talks With The Journal Reporter.

A Salem physician who is in a position to know, stated in a conversation with THE JOURNAL reporter yesterday that the food given the children at Chemawa is and has for some time been insufficient and unsuitable, and that he had often heard the boys discussing the subject in a dissatisfied manner. He also said that only by dint of persistent effort was it able to have provided for the inmates of the school hospital suitable nourishment, such as milk, eggs and butter, and other food such as is generally allowed the sick.

From another it was gathered that among the employes at the school Mr. Rakestraw was considered arbitrary and arrogant in the extreme, and that while he had had no open difference with him he considered him a disagreeable and despotic man.
