THAT FOOTBALL GAME.

Eugene Guard's Summary of the Contest.

THE STREET CARS MADE MONEY.

The Willamette's Should Have Changed Tactics Earlier.

Eugene Guard, Nov. 29: The two teams lined up for the game with De Forrest, of Portland, as umpire, Terrall of Corvallis as referee and E. McAllister, of this city, as linesman. The U. of O.'s secured the kick-off and sent the pigskin flying down toward Willamette's goal. The fight was then on in real earnest, and every inch of the ground was stubbornly contested. The two elevens surged back and forth across the field, but the ball was on Willamette's ground most of the time, and the U. of O. "howlers" kept up a continual uproar, as by one successful play after another, the home team forced the pigskin through Willamette's line and toward the goal. The result of the game was decided in the minds of the spectators, soon after the beginning of the first half. The U. of O.'s soon proved themselves to be the superior team. Willamette was weak in the center and the U. of O.'s would continually smash through at that point. Several times they had the ball well down toward Willamette's goal when the latter would obtain it and by a successful punt send it back into the field. The U. of O.'s would then by a series of center and end plays, work it back toward Willamette's goal. About the middle of the first half F. Templeton, U. of O.'s right half, secured the ball and scored a touchdown. H. Templeton, full-back, kicked a goal, scoring six points for the home team. On the second kickoff the teams alternated back and forth across the field, neither team being able to gain much and when time was called the ball was a short distance down in the U. of O.'s field.

In the beginning of the second half the U. of O.'s forced the ball well down into Willamette's field and kept it there most of the time. The latter bravely contested every inch of the ground and would occasionally gain back some of the ground they had lost by a successful punt. Savage, Willamette's left half, made some good runs and saved the team from a worse defeat. But Shattuck, the big left guard, Coleman, Edmunson and Templeton were too much for the visitors and they had to succumb to defeat. Toward the latter part of the last half the U. of O.'s had the ball within two yards of Willamette's goal line, when they lost it on a down. A technically arose and the decision was given in favor of Willamette, thus causing the home team to lose a touchdown which they had fairly won. The Willamettes were now becoming desperate, and the U. of O.'s were considerably disgusted with the decision which lost to them a touchdown and continued the game with less spirit. Willamette strained every nerve and gradually forced the ball back by a series of excellent plays to the center of the field, but could not score, and when the time was called the final score stood 6 to 0 in favor of the home team.

Hood's is Wonderful.

No less than wonderful are the cures accomplished by Hood's Sarsaparilla, even after other preparations and physicians' prescriptions have failed. The reason, however, is simple. When the blood is enriched and purified disease disappears and good health returns, and Hood's Sarsaparilla is the one true blood purifier.

Most Remarkable Remedy in the World.

One True Medicine for Lost Nervous Strength.

Cures Effected by Paine's Celery Compound.

What Scientific Research Has Accomplished.

Proved by Success Where All Else Has Failed.

There is one true specific for diseases arising from a debilitated nervous system, and that is the Paine's celery compound so generally prescribed by physicians. It is probably the most remarkable remedy that the scientific research of this country has produced.

Prof. Edward E. Phelps, M. D., L. D., of Dartmouth College, first prescribed what is now known the world over as Paine's celery compound, a positive cure for dyspepsia, biliousness, liver complaint, neuralgia, rheumatism, and kidney troubles. For the latter, Paine's celery compound has succeeded again and again where everything else has failed.

Washington correspondents have recently given it a great deal of attention since the most wonderful cure effected in the case of Commodore Howell. The medical journals of the country have given more space in the last few years to the many remarkable cases where the use of Paine's celery compound has made people well than to any other one subject.
