

Catarrh

Has troubled me for 11 years. I have taken four bottles of Hood's Sarsaparilla and am perfectly cured. I think Hood's Sarsaparilla has no equal, and believe that many who are in poor health and have become discouraged, would be restored to good health if they would only give

Hood's Sarsaparilla

a fair trial. Wm. J. BERNHART, Astoria, Ore.
cure all liver ailments, biliousness, headache, etc.

THE DAIRY

WINTER DAIRYING IN DAKOTA.
It Pays Even When the Thermometer is Below Zero.

The barn was not an expensive one, but would hold 100 head of stock and was cut into a bank with a slope so that the drainage was perfect. I got down what the dairyman told us during the afternoon while he was caring for his stock. Every cow seemed to know her owner as a friend—no haste, no rude noise, startled her. "Last summer," said the farmer, "I raised some corn fodder, millet and oat and pea hay, with some carrots and sugar beets for a change of food. I contract early for my bran and buy it cheap. My cows all come in fresh in September and October, going dry through flytime. I begin feeding them at once to keep up their flow of milk while butter is high. I never sell for less than 25 cents, and often 40 cents per pound."

"I put my cows up nights as soon as frost comes and feed millet, hay and bran. Now, during the cold of winter I get up at half past 5 in the morning, go to the barn and give the cows their grain feed, consisting of bran, ground oats and peas in the proportion of eight quarts of bran, four of oats and one of peas, or often change to one of new process oatmeal. Then at 6 o'clock we milk, running the milk through a hand separator, feeding my calves and pigs the new sweet skim milk. Then I give a good feed of corn fodder and let my cows alone till noon, when I water them. They finish up all the fodder or millet in their mangers and lie down to chew their ends till half past 4, when I again feed them a smaller grain ration supplemented with four quarts of chopped roots, and at half past 5 go to milking, finishing in one hour."

"Myself, boy and hired hand do the milking. I treat the milk as in the morning and then fill the mangers with millet or oat and pea hay, first cleaning out every bit of rubbish left in their mangers, using it for bedding. I neglected to say I clean their stables every morning, hauling the offal and litter out on the field and scattering from each load."

He was asked if his cows ought not to be fed oftener. "No," said he, "cows, with their quadruple stomachs, need much longer to digest their food. Neither do I rouse them up at 8 or 4 o'clock in the morning. I find from observation those hours are their very best for sleeping. Neither do I let them out through the winter unless it is on some especially bright, sunny day. Then I find they are ready to return to their stalls for their evening meal."

"But do you not find your feed pretty expensive?"

"No, not very. I feed about 40 pounds per day of rough stuff. One-half is cheap straw, costing nothing but the hauling, as I thrash the oats and peas out to use for grain. I figure that my grain feed and roots cost me 20 cents per day; hay, 5 cents—a total of 25 cents per day. My skim milk and manure more than pay all care and other expenses. I feed extra heavy, for this is a cold climate, and I want much milk for my calves. My cows average me 500 pounds of butter per year, besides a fine calf. They are all high grade Holsteins, crossed up from the best dairy cows I could find. I clear \$75 on each cow yearly. My pigs, calves, chickens, etc., pay all expenses, so I can lay up for my work about \$2,000 per year. Besides my farm is getting better yearly from the large amount of manure spread each winter."—W. P. Wade is American Agriculturist.

TURF PHILOSOPHY.

It is awful hard to own a balky horse and be a Christian at the same time.

To jog or not to jog—that is the question. Well, you know how it is yourself.

Theory is good, but practice beats it when it comes to mile heats, best three in five.

A horse, like a person, is handicapped to a certain extent throughout life by an inappropriate name.

The farmer breeder who cuts short the food supply of his colts is taking money from his own pockets.

LUNA AND LUNACY.

A short time before Dr. Charcot died he said in a letter that semicentists idea for more than 50 years ridiculed the idea that the full of the moon was a danger for mad people. Better informed men are coming back to that old notion, said Dr. Charcot, as the result of increased learning on the subject of earth tides, similar to the oscillation of sea tides.

HARD TIMES FACTS.

GOOD READING FOR THE FAMILY CIRCLE.

Every reader of THE JOURNAL should look up the list of premiums given absolutely free with this paper. The WEEKLY JOURNAL at \$1 a year is the cheapest paper on the Pacific coast, yet with it we give yearly subscriptions to any of the following valuable publications, each known to the world as a standard in its field:

The Toledo Blade,
The Queen of Fashions,
Womankind,
The Farm News,
The Child Garden.

These valuable publications are each worth a \$1 a year, yet we give you your choice, one year free, for a \$1.50 subscription to THE JOURNAL, either the DAILY for six months or the WEEKLY for eighteen months. See the list, and don't neglect to profit by it.

Don't be deceived into paying for so-called premiums offered with high priced papers at a slight advance. Remember THE JOURNAL is the cheapest newspaper on the Pacific coast, and it gives you high grade premiums without additional charge.

The Difference Slight.

"What's this?" demanded the guest, pointing to one of the side dishes the waiter had brought.

"Sausages, sir," answered the waiter. "I didn't order any."

"I thought you did, sir."

"I ordered sauce. Can't you tell the difference between sauce and sausages?"

"Yes, sir," said the waiter, gathering up the rejected dish with untroubled dignity. "Between sauce and sausages there is merely a difference of age."

Wish coffee, sir?—Chicago Tribune.

How to Cure Colic in Horses.

A sure and speedy cure for colic in horses is made of 3 ounces spirits of turpentine and an ounce of laudanum. Put this mixture into a bottle containing half a pint of warm water and pour it down the animal's throat. This is said to be an excellent remedy also for human beings, the dose for an adult being one to two teaspoonsful, according to the exigencies of the case. For children or invalids the dose should be reduced. Take in warm water.

London Gets It Too.

He was an applicant for a position as tram car conductor. "What are your qualifications for the place?" asked the superintendent.

"I used to work in a sardine packing establishment."—Exchange.

Appropriate For the Occasion.

"You may think you're smart," said the tragedian as the audience pelted him with late lamented hen fruit, "but I think you're making some pretty bad breaks."—Elmira Gazette.

Our Actors.

It is a remarkable fact that most of the so called Irish comedians in this country are Americans, and most of the English actors are Irish.—New Orleans Picayune.

It is estimated that an average of more than 2,000 vessels and 12,000 lives are lost in the various seas and oceans every year, the value of ships and cargoes being roughly averaged at about \$100,000,000.

The diamond is not among the earliest gems known to man. It has not been found in the ruins of Nineveh, in the Etruscan sepulchers nor in the tombs of the Phoenicians.

At the close of this season Evans and Hoey will dissolve partnership. Mr. Evans will retire, and Mr. Hoey will thereafter star in a new farce comedy written by Edward Paulton.

TAKE STEPS

At times, if you are a sufferer from that scourge of humanity known as consumption, and you can be cured. There is the evidence of hundreds of living witnesses to the fact that, in all its early stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully 95 per cent, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering coughs with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty cod-liver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried in vain.

The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a book of 160 pages which will be mailed to you, on receipt of address and six cents in stamps. You can then write to those who have been cured and profit by their experience.
