THE ECONOMY PLANK.

Adopted by the Last Republican State Who Want a special Session of the Leg-Convention. The plank reads as follows:

"In our state of affairs we demand closest scrutiny and economy in expenditures. We condemn the prodigality and excess of past legislatures, and call upon the next legislative assembly to keep all appropriations within the limits of the most economical administration consistent with efficiency. The officers of the administrative department of the state have become too expensive, and their ex-

panses must be reduced. When the constitution fixes the salary, only the constitutional salary should be paid, without additional emoluments. The practice of employing unnecessary clerks and of paying fees in excess of just payment for services needed or randered, has become an abuse that must be cut off, and we pledge the Republican party to the prosecution and accomplishment of this reform District attorneys and other officials should be paid fixed salaries, since payment of fees encourages litigation and entails upon the taxpayers heavy
