

MANAGER CHICAGO JOURNAL.

Col. F. G. Pierce Was Made a Well Man by Paine's Celery Compound.

At the door of every newspaper office might be posted the general order—Rush!

The busiest concerns in the busiest streets are sluggards compared with these newsgathering hives where human fingers and brains are matched to keep up with machinery.

The brunt of this fatiguing mental strain, unavoidable in getting out one of the big city dailies, for example, the Chicago Evening Journal, falls on its business manager—in the case of this oldest daily in Illinois, Colonel Frederick C. Pierce.

Colonel Pierce is one of the busiest men in Chicago, a city of early and late workers. Brain workers in every profession will thank Colonel Pierce for the following statement recently made by him:

"For several years I have been troubled with sick headache caused by constipation; otherwise I have always been in perfect health, and never sick but for two weeks in my life. This sick headache has been

very annoying. I have taken a number of different medicines which have been used and recommended by others, but not until I took Paine's celery compound did I find any relief.

"This season I took one bottle and was not troubled with headache for at least six months. Since that time I have kept the medicine in the office and used it occasionally, and have not been troubled with headache since.

"I have recommended it to a number of my friends, who have been benefited as I have. For a person who is disposed to constipation, it is unquestionably one of the best medicines that there is on the market today.

Yours respectfully,
F. C. PIERCE,
Business Manager Chicago Evening Journal."

A black cloud is no surer indication of an approaching storm than persistent headaches are of dangerous debility.

There is one specific that can permanently cure headache unless it goes

to the seat of the trouble. That great nerve and brain restorer, Paine's celery compound, does get rid of them and leaves no chance for their return because the deep-seated cause—the weakened nervous system at last is supplied with the food it has so sadly felt the need of.

The best physicians in every city in this country prescribe Paine's celery compound, where a rapid building up of the system is imperative. As an invigorator in cases of nervous exhaustion, sleeplessness and a poor state of the blood it is the mainstay of the ablest practitioners throughout the United States.

A mere glance at the faces of weak, nervous, run down persons after they have begun to use this greatest of all remedies, shows how rapid is the nourishing effect of Paine's celery compound.

There are thousands upon thousands well today because they used Paine's celery compound.

ANNOUNCEMENT.

I hereby announce myself as a candidate for the office of COUNTY ASSESSOR subject to the will of the county Republican convention.

J. A. VAN EATON.

THE SOONER THE BETTER.

The sooner the United States arrives at a point where she is unable to sell any more bonds in Europe, the sooner she will have to carry on her business on a paying basis. As long as she can borrow money in Europe, she will continue to borrow it, and when old money bags become huffy, and insolent in his demands and interrogations, then she will hustle around, cut down expenses, increase the revenues, and get her business on a paying basis. The wealthiest and most productive nation in the world has no occasion to be uneasy over the attitude of Rothschilds & Sons.

All government bonds sold in future should be payable, principal and interest to American citizens only. We should protect Americans of unborn generations against heaping up any more interest burdens.

We do not want a foreign war except to sell produce. If they are bound to fight we will sell them beef and flour.

Give us a people's special, or none governor.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida street, San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at Fred P. Legg's drugstore. Regular size 50c and \$1.

THE APPROPRIATION BILL.

Secretary of State Klineaid is receiving unjust blame for the items in the last general appropriation bill. It is but justice to that gentleman to say that he had nothing to do with getting up the bill.

Just how that bill was got up, and what influences were brought to bear to prevent its proper revision and overhauling in the interests of economy would be an interesting story.

The JOURNAL would like to live in Oregon long enough to see an appropriation bill got up by the legislature itself and not by interested parties.

THE CAPITAL JOURNAL (rep.) is after the Portland ring as any honest man should go after a lot of pirates. Hofer was a member of the legislature and he knows just where the money went, and because he exposed them on the floor of the house, he was ostracized by his party as being a traitor. The scales have now turned and the balance is in his favor. He is taking advantage of the situation and before the extra session talk is ended the JOURNAL will let the cat out of the wallet, and Joe Simon, Dawson & Co. will get their eyes scratched out by the unbagged cat.—Albany Imprint.

Old People.

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey nor other intoxicant but acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding Nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old People find it just exactly what they need. Price 50c and \$1 per bottle at Fred A. Legg's drug store.

It would cost more to light and heat the new city hall than rent costs now. Do we want it?

Children Cry for Pitcher's Castoria.

An exchange says: The mileage allowed to the members of the last legislature was \$5,942.40. This of course included the junketing trips of various committees. It is doubtful if an extra session would affect a saving of this amount to the state, however it is claimed that all the senators and representatives can, at 4 cents a mile, be conveyed to the capital, which would cost only \$1,597.84. But it is not safe to figure on that basis when contemplating an extra session. Nearly all the members rode free if they wanted to.

Governor Lord will not call a special session of the legislature unless the demand for it comes from the people. The kind of a special session the people demand and the only kind they want or will have would be poison to the Portland ring. If they thought there was danger of a people's special session they would oppose it.

Salem school board: If you have a first-class principal at a good salary, a first-class professionally equipped primary teacher at a good salary and \$30 teachers at \$30 a month, good.

It will cost more to finish off the city hall and furnish it than it has to build it. Board it up, until there is money to go ahead with.

Give us a people's special session or none at all, Governor. That is the last thing on earth the Portland machine wants.

Lower the school tax; pay principals a good salary. Quit paying \$20 to \$30 a month teachers \$40 to \$60.

And now it is the Evening Spirit and the Morning Democrat.

Children Cry for Pitcher's Castoria.

GOLD AND SILVER.

A bill has been introduced in congress for "the free and gratuitous coinage of gold and silver at the ratio of 1:35." It provides that the treasury may issue, for gold or silver deposited, certificates redeemable on demand in either gold or silver but not specifying whether gold or silver was deposited, and that both the silver and gold coins and certificates issued shall be legal tender for all debts public and private. The bill provides that it shall become operative only when England, France and Germany shall have passed similar laws for the unlimited coinage of gold and silver bullion at the ratio of 1:35.

John Sherman and other so-called gold-bug senators endorse the free coinage of both gold and silver by international agreement at a fixed ratio. But can international agreement be secured, and if it can be, can the price of silver be raised to the above ratio by the fiat of the governments in the monetary compact? There is no doubt that gold maintains its high price in comparison with silver largely through the fiat of law, and that silver has sunk to a low value because of the lack of this support. During the centuries that it circulated on equal footing with gold it never reached its present price in gold, in any part of the world. Silver can be mined cheaply, but so can gold as recent statistics show. If silver had been bolstered up in Europe and America by legal enactments, and not gold, the latter would now be considerably cheaper, at least, in comparison with silver. The negative way of rehabilitating silver, recommended by Thomas Jefferson, would be to withdraw legal support from gold, and to allow both metals, coined in pieces of certain weight and fineness, to circulate at their market rate. This measure would raise the price of silver and would convert all money or metal circulating medium into ounces of gold or silver, and if the market value of these were fluctuating, there would be no medium of exchange of uniform value with which to measure merchant transactions. It is true that heretofore before 1873, the legal ratio between gold and silver was maintained with difficulty. But any and all such measures will avail us little unless they are so devised that they relieve the national treasury from the necessity of maintaining a gold reserve to sustain the face value of paper money and silver coinage. The financial question is involved and many sided. It is "loaded." How dangerous, therefore, financial experiments are was too well demonstrated by John Sherman's silver bullion swindle, which has taken and is still taking millions of gold out of the treasury.—Oregon City Courier

The "popular loan" bonds are going to the bankers at 1:12. Under the present policy of payments in gold only, they will constantly advance in price. The holders will drive them higher and higher by making gold scarcer.

There are thousands upon thousands well today because they used Paine's celery compound.

50,000 men, women and children wanted to buy the stock of furniture, carpets, matings, etc., of J. A. Rotan for the next 60 days at cost or less, to make room for spring goods.

I mean what I say, am also going to add a large line of wall paper and moulding to my stock.

J. A. ROTAN.

GOLDEN MEDICAL DISCOVERY

Many years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., compounded a medicine of vegetable ingredients which had an especial effect upon the stomach and liver, rousing the organs to beautiful activity as well as purifying and enriching the blood. By such means the stomach and the nerves are supplied with pure blood; they will not do duty without it any more than a locomotive can run without coal. You can not get a lasting cure for Dyspepsia, or Indigestion, by taking artificially digested foods or peppin—the stomach must do its own work in its own way. Do not put your nerves to sleep with so-called celery mixtures, it is better to go to the seat of the difficulty and feed the nerve cells on the food they require. Dyspepsia, Indigestion, Biliousness and Nervous Affections, such as sleeplessness and weak, nervous feelings are completely cured by the "Discovery." It puts on healthy flesh, brings refreshing sleep and invigorates the whole system.

Mrs. E. HENNE, of No. 46 North Haled St., Chicago, Ill., writes: "I regard my improvement as simply wonderful."

Now, after two months I am entirely relieved of my disease. My appetite is excellent; bowels regular and sleep much improved.
