

# HE HELPED MAKE CHICAGO.

L. A. Gilbert, the Great Land Man, Cured of Rheumatism by Paine's Celery Compound.

The most striking personality in Chicago, and the oldest real estate dealer, is Mr. L. A. Gilbert. Mr. Gilbert is now over 60 years of age; in the 50's he was in the Rockies gold hunting. Since 1868 he has handled more property in Chicago and is known to more home-owners than any other man in the business.

Mr. Gilbert suffered at one time from rheumatism and sleeplessness. He made trips to Hot Springs, and tried other methods of treatment without avail. To satisfy a friend who had taken Paine's celery compound for similar troubles, and knew what it could do, Mr. Gilbert tried it and but a very short time elapsed before he was entirely freed from both these troubles. Mr. Gilbert himself says:

Gentlemen—I have suffered with rheumatism and sleeplessness for years, caused by exposure while prospecting in the mountains years ago. For years I had to take electric bath and take trips to Hot Springs in order to get a little sleep and relief from pain. To cap the climax I have been suffering from indigestion and pains in the heart region. Paine's celery compound was recommended to me by friends who knew what they

were talking about, and I took it. From the start I noticed improvement, and am now in the best of health, and able to get around as lively as any youngster I know. Yours truly,

L. A. GILBERT.  
The most rational way of getting rid of rheumatism, neuralgia and insomnia and getting back sound health is to husband every mite of strength and to set about a radical, all-round restoring of the tired system with Paine's celery compound.

It is your business to furnish the body with nervous energy, as fast and abundantly as you can, and to get a richer, purer blood supply. There is no way in which this restorative process can be so swiftly brought about as by using Paine's celery compound.

There is nothing known to physicians of the most extensive practice equal to Paine's celery compound for purifying the blood and making strong, healthy nerves. Unremittent work at last brings down the vitality of the strongest men and women. Everyone has felt that ambitionless, listless feeling. There are many persons who manage to keep about their business because they are not sick abed, who are nevertheless sadly "out of health." Paine's celery compound

exactly fits the cases of these uneasy, sleepless, sorrow-faced men and women. They are on the perilous edge of some organic disease. Paine's celery compound will drag them back and plant their feet squarely on firm ground. By regulating the nervous system and compelling the vitiated blood to gain a larger proportion of red corpuscles, all the organs of the body whose business it is to repair and rebuild the tissues are aroused. Paine's celery compound does not fail to increase the appetite, to augment the powers of assimilation, to increase the weight of the body, to purify the blood, and stop the progress of structural changes, when liver and kidney diseases have fastened themselves upon the system.

There is not a single city without some perfectly attested cure of liver or kidney disease, chronic constipation, salt rheum, plugging eczema or general poor health, by the use of Paine's celery compound. Impaired strength and unstrung nerves, made known by numbness of the limbs, nervousness and a dissatisfied state of the mind—all these weaknesses become things of the past after taking that best of health givers—Paine's celery compound.

## ANNOUNCEMENT.

I hereby announce myself as a candidate for the office of COUNTY ASSESSOR subject to the will of the county Republican convention.

J. A. VAN EATON.

## "TOO MANY REPUBLICANS."

"The paradoxical saying that there can be too much of a good thing was never exemplified to better purpose than at the last session of the Oregon legislature. The body contained so many nominal Republicans that those who were really desirous of carrying out the party's pledges were unable to affect that object. The party was actually embarrassed by the very richness of its numerical possession."

In the absence of Harvey Scott in Mexico his hired man of Democratic antecedents keeps hurling the above rot at the people. The Oregonian is daily afflicted with a case of gripes—"too many Republicans!"

By all that's good then tell us, what is the use of organizing more Republican clubs and holding state league conventions?

Nominal Republicans defeated the efforts to substitute salaries for fees in Multnomah county offices, and to give the city of Portland an economical charter. To say that these Republicans were superstitious would be to state the case very mildly.

## MANLY VIGOR

ONCE MORE in harmony with the world's 2000 completely cured men are singing, "Lucky indeed for the greatest, grandest and most successful cure for neural weakness and lack of vigor known to medical science. An account of this wonderful discovery in book form, with references and proofs, will be sent, in full, to any person who will send for it. Failure to respond, unless you enclose a check for \$1.00, will be held as a refusal to be sent. Failure to respond, unless you enclose a check for \$1.00, will be held as a refusal to be sent. Failure to respond, unless you enclose a check for \$1.00, will be held as a refusal to be sent.

ERIE MEDICAL CO., BUFFALO, N. Y.

## INTOLERANT ROT.

The Salem Statesman apologizes for a loyal East Salem Republican being a silver man. It says in his behalf: "He wants the silver bullion coined, but is not a free silverite and does not want delegates instructed." "He wants the silver bullion coined, but is not a free silverite."

Nobody wants delegates instructed. There is no division among Republicans on this question. The party will restore the revenues, stop the gold bond business and establish a finance system on a sound basis.

The intolerant spirit of a few newspapers owned by bankers is suicidal rot. They propose to turn down Mitchell, Hermann and every man who is a friend of silver in any way. This disposition if it succeeds will drive thousands of men out of the Republican party forever.

## WHAT AILED THE CAT.

Will some of the readers of the Guard inform us why it is a cat cannot live in a flouring mill? The mill in this city started about four months ago. An effort has been made to keep a cat about the place to keep the building free from mice, but another one has died, until last week the seventh one passed to the world beyond. They have all been well fed on milk, meat, etc., but there is something about the place which proves fatal to them.—Eugene Guard.

The house cat is a domestic animal, and while it will support itself outdoors, if it can have buildings to get into or hide under when pursued, it cannot live indoors unless it is in a domicile. A flouring mill is not a domicile. But if it has a cozy office, or some furnished rooms that a cat can have access to and feel homelike, a cat will live at a flouring mill. Both cats and dogs and all domestic animals have far more intelligence and sagacity than they are given credit for. Like babies and little children, they suffer a great deal by having their intelligence under-estimated.

The best evidence that Hon. H. G. Guild, of Sheridan, made a true, honest and conscientious member of the last legislature is the type of men who are trying to blacken him in the eyes of his many friends and endorsers and plant brokers and money-loans in his shoes. We are not informed whether or not he desires to be returned, but we believe that those who are informed as to how he stood like a rock on the side of the people, while all the power of the organized gang of looters, both in the house and in the lobby, was brought to bear on him, would and will be willing to have him represent them again. He is a "tried stone."

□The people of Oregon will never get reforms in their state and county governments by any fusion schemes, except a fusion of the people against corruptionists.

□The Astoria Harbor has been empty the first time in many years.

## WE GIVE AWAY

A Sample Package (4 to 7 doses) of

## Dr. Pierce's Pleasant Pellets
