CUBA IN CONGRESS.

Senate Will Adopt the House Resolution.

ENGLISH PRESS OPINION.

Italians Whipped Again in Abyssinia.

THE GOVERNMENT DENOUNCED

Important Developments in Our Foreign Affairs.

WASHINGTON, March 3.—The next steps likely in congress on the Cuban resolutions depend upon whether the house will correct the error made by its clerk in transmitting the resolutions to the senate as independent resolutions, instead of as a substitute. If the resolutions are not recalled the senate committee on foreign relations will probably tomorrow amend the house resolutions by reporting those already agreed to in the senate as a substitute. This will necessitate the consideration in the senate, with possibly motions to concur in the house resolution, or amend them. The senate committee has shown a disposition to avoid discussion and get resolutions into conference by waiting for the house to correct its error.

ADVERSE ENGLISH OPINION.
LONDON, March 3.—The Westminster Gazette says the action of the United States congress regarding Cuba is destroying all respect for it abroad. The St. James Gazette says outside the United States Americans will find no support for their unlimited policy of aggression. The London Globe says: "The situation is perilous." The Pall Mall Gazette says: "Great Britain is but remotely concerned."

ITALIANS IN ABYSSINIA.
ROME, March 3.—It is reported here today that General Baratieri, commander of the Italian forces in Africa, suffered another severe reverse at the hands of the Rhosses. Half of the Italian artillery and ammunition and provisions were lost. Other advices report 3000 Italian soldiers killed, and among them Generals Albertone and Darbonmida.

This evening it is rumored that General Baratieri, when he became aware of the full extent of the disaster, shot himself.
At the ministry of war this was discredited. As the evening wore on and the worst news of the Italian defeat was confirmed, the inhabitants gave way to rage against the government, bands of young men began parading the streets, shouting "Down with Crispi!" but were promptly dispersed.

Benzine Explosion.
DANBURY, Conn., March 3.—A fire was caused by the explosion of benzine in the hat factory of Sieman & Mable this morning. It spread rapidly and did damage amounting to fully \$200,000. One fireman was killed and ten children are reported killed.

Cleveland in New York.
WASHINGTON, March 3.—President Cleveland, accompanied by Private Secretary Thurber, left Washington this morning for New York, on the Pennsylvania road. He will preside at the annual meeting of the board of home missions tonight.

Ben Harrison Will Marry.
NEW YORK, March 3.—Ex-President Harrison said to a Commercial-Advertiser reporter today that his marriage with Mrs. Dimmick will take place April 6, in St. Thomas church, this city, Rev. Dr. John Wesley Brown officiating.

Mrs. Stanford Wins.
WASHINGTON, March 3.—The United States supreme court today decided the Stanford case in favor of Mrs. Stanford. Justice Harlan delivered the opinion. He held that individual stockholders were not liable for the government debt of the Central Pacific Railway company. He said that the congressional acts of 1862-64-65, regarding the Pacific railroads, must all be regarded as one law, as the object was a constitutional one, a continuous line of congress employing the different railroad companies only as an instrument of surety, was given in the government mortgage of property of the railroad companies. It is asked, he said, that it would not be too much to say, if in building the Northern Pacific for instance, each stockholder had been made liable, the purpose of congress to secure a national highway would have been materially retarded, and it was plain that no obligation was sent to be put on one company that was not put on the others. Any other construction would be inconsistent. The decision of the court below was therefore affirmed.

Ministers Negotiating.
WASHINGTON, March 3.—The British ambassador, Sir Julian Pauncefote and the Venezuelan Minister, Senor Andredo, have entered into direct negotiation for the settlement of the Yuruan incident, which involved a British police official in the territory in dispute, Venezuela and Great Britain charged with hauling down the British flag, and the subsequent demands for indemnity upon the part of Great Britain.

More About Receiverships.
SEATTLE, March 3.—The formal application of the Farmers' Loan & Trust company for the removal of Andrew F. Burleigh and the appointment of Messrs. McHenry and Bigelow, in accordance with the decision of four justices of the United States supreme court, was presented to Judge Gilbert and Judge Hanford in the federal court this morning. The court will give its decision in the matter tomorrow morning.

Manderson a Candidate.
OMAHA, March 3.—Ex-United States Senator Manderson has formally announced his candidacy for the Republican presidential nomination.

Some Candidates.
Salem correspondence of Oregonian: Ament the primaries to be held the 20th inst., and the convention the 24th comes the discussion of possible candidates by Marion county Republicans. Not a single county office will go a-begging for candidates this year. The following list contains most of those who, to date, have either announced, or whose friends have recommended them as suitable candidates for county office:

County judge—Seth Hammer, Sam Richardson, M. W. Hunt, Joe Baker, and James Bachelor, of Salem; G. P. Terrell, of Mehama; William Grimm, of Hubbard; E. T. Judd, of Aumsville; W. C. Hubbard the present incumbent of Fairfield.

Assessor—Phil Fritz, W. T. Rigdon, J. A. Van Eaton, Hilton Connor, Charles Cannon and B. B. Gesner, of Salem; H. W. Smith and William Hilleary, of Turner; Lemuel Hobson of Stayton; Benton Patton of Macleay; J. A. Hobart, of Silverton; C. P. Strain of Abiqua.

Sheriff—Frank Wrightman, of Sublimity; D. H. Looney, of Jefferson; Thomas Simms, of Salem; Mr. Hammond, of Silverton.

Treasurer—Jap Minto, J. H. McCormick, and Dick Carey, of Salem; John Porter, of Ale.

School superintendent—E. A. Anderson and Miss Etta Lewis, of Salem; D. W. Yoder, of Woodburn; George Jones, of Turner; A. L. Briggs, of Stayton.

There is as yet heard no contention for the nomination for the offices of clerk and recorder, and in accordance with custom, it is likely Clerk L. V. Ehlen and Recorder Frank Waters will be named to succeed themselves. Silverton, it is said, will furnish a candidate to enter the contest with B. B. Herrick for the nomination for county surveyor. Marion county also has two sons whose names are becoming household words as congressional candidates, namely T. T. Geer and Tilton Ford.

WIDE SPREAD STORM

And It Will Continue for Several Days.

BELOW ZERO IN MONTANA

San Francisco Having Snow, Hail and Thunder.

CHICAGO, March 3.—Forecast Officer Cox said today: "There were three storm centers in the country this morning, one off the Massachusetts coast, another over northern California, and a third over the western gulf coast. Rain is falling in Oklahoma, Arkansas, Tennessee and Texas, turning to snow in Kansas, Missouri, Nebraska, Iowa, Minnesota, Dakota and Western Illinois. The weather continues very cold in the east and northwest, the temperature having fallen still further in the Rocky Mountain region the past 24 hours. At Hayre, Montana, the temperature is 32 degrees below zero, and 19 below at Helena and Lander, Wyoming. There is a prospect of very cold weather in the western states for several days."

MAIL IN FRISCO.
SAN FRANCISCO, March 3.—A thunder and hail storm, with snow and freezing temperature, are reported throughout the Pacific slope. Several inches of snow fell in San Francisco this morning and the hills are covered. Cloudy weather and heavy precipitation will probably prevent frosts, although the temperature is now near the freezing point, and clearing weather may cause a dangerous condition.

Mrs. Cody's Body Found.
TACOMA, March 3.—The body of Mrs. A. O. Cody, who has been missing for a month, and for whom the whole coast has been searching, was found yesterday morning in the brush near North Ninth street.
The body was found in a kneeling position, with a bullet hole in the right temple, and a revolver in her right hand. Her husband gave up the search Friday, and started for his home in Chicago.

Election at Woodburn.
WOODBURN, March 3.—The annual school meeting for district No 103 was held Monday, J. M. Poorman was elected director to succeed himself, and W. E. Finzer clerk.

Marion Tax Roll.
Marion county's tax roll for the year 1896 was placed in the hands of the sheriff this morning by County Clerk Ehlen, and collections will soon begin.
The roll was completed yesterday afternoon by Deputies John Gleay, Wm. Bushey and Will Babcock, after about six weeks' work in its extension. Last year the roll was not turned over for collection until April 1.

The grand total for collection is \$163,275, of which \$122,426.39 are to be received as state, county and state school, and \$18,605.22 are for the cities, while \$3,785 come for polls and the balance goes to the several districts.

The following is the list of the cities and school districts, the total amount of taxable property in each and the tax to be collected:

COLLEGE ATHLETICS.

What the Intercollegiate Association Did at Its Portland Meeting.

Delegates from the colleges and universities of the Willamette valley, to the number of twenty, assembled in the Imperial hotel in Portland Saturday morning, in annual session. Considerable routine business was transacted, after which officers for the ensuing year were elected as follows: President, Joe De Forrest, Portland; vice-president, Mr. Kelly, of Corvallis; secretary, Mr. Bradley, Forest Grove; treasurer, E. P. Shattuck, Eugene.

The proposition of organizing a baseball league among the colleges did not receive the necessary attention it deserved. The Monmouth normal school and Willamette university favored the proposition, but the other colleges did not wish to enter into the league. The matter was dropped for the present, but will probably be revived at the next meeting of the association, which will be held at Portland on the evening of June 5, the day before field day.

It was also decided to award a \$100 cup to the college that secured the greatest number of points to its credit on field day. A committee consisting of I. H. Van Winkle, of Willamette university; Mr. Bryson, of Eugene, and D. E. Baker, of Forest Grove, was appointed to secure the cup.

H. G. Hibbard and I. H. Van Winkle, of the Willamette delegation, returned home last evening.

Will Build the Sewer.
The State Capitol building board today appointed W. B. Barr, C. E., of Albany, engineer and superintendent in charge of constructing the state sewer from the insane asylum, penitentiary and state house to the Willamette river. Mr. Barr was educated at the Harvard school of engineering and was highly recommended as a competent man for the position.

ASYLUM REPORT.—Supt. Paine made his monthly report to the state insane asylum board today. It shows that during the month of February 17 were discharged, 4 died, 39 were received. Total number February 29th, 743 males, 317 females, 1,060. Total January 31st, 1,083.

Too Cold.—Many an Oregonian was chilled through and through today, and many were warned through and through by one of those immense 15 cent dinners at Kenworthy & George's.

SEVERE WEATHER.—Yes, but the Lockwood messengers are fixed to brave the storm. Ring blue boxes or Telephone 40.

LADIES' DAY.—The Elite bowling alley was open for the ladies this afternoon.

ABSOLUTELY PURE

No Open River.
The Dalles papers are not at all pleased that the canal and locks at the Cascades are not completed. Their issues of Saturday contain the utterances:

The Chronicle—March 1 will be here but no boat from Portland will come with it. Despite the repeated declarations of Mr. Day that the locks would be sufficiently completed by this date to admit of the passage of a boat, those who were trusting enough to believe what was told them, are disappointed.

The people of Eastern Oregon have been fooled repeatedly regarding the completion of the locks, and it looks as if the greatest piece of deception is yet to come. Of what value is scientific engineering if such a blunder could be made, as it is said has been made, in not providing for walls of masonry between the lock gates of the canal. The locks have been a money-making institution for everyone connected with them, except the people whose money has been appropriated for their construction, and the faith of the people has been shattered.

The locks should have been finished years ago. According to Mr. Day's positive statement a boat should pass through tomorrow, but the latter's promise is proven false, and the prospect for the speedy operation of the locks is exceedingly dull. It is no time to smooth matters or speak honeyed words. The people of Eastern Oregon have kept up their trust and swallowed everything that was told them. It looks as if there had been a deliberate design to rob the people of their promised fruit. The delay of a year in the locks operation is dangerous. It means that leaving the work in an uncompleted condition will cause injury, to repair which more money will be needed.

The whole thing is bristling with design, and if the people of Eastern Oregon and our friends at Astoria submit without a ringing protest they are unworthy of the efforts which, in some quarters, have been made in their behalf. We do not want to be incendiary, neither can we be oblivious to facts that stare us in the face.

The Time-Mountaineer—Although the first day of March is here the opening of the canal and locks at the Cascades will not be celebrated by the patriotic people of The Dalles, although they have looked forward to this time as the date on which they would celebrate the important event of the opening of the great Columbia river to free navigation. They have been promised time and again by the contractors that the work would be completed on March 1, 1896, but their promise has not been kept. Whose fault it is, whether it is the contractors' or the engineers' we are not prepared to say; but it is the fault of somebody; and now, since the time for completing the locks has expired and they are not opened for traffic, and will not be for some time to come, the people who are interested want to know the cause. Will Messrs. Day and the government engineer in charge of the work explain.
