

ALL CHICAGO KNOWS HIM.

W. W. Watson, Leading Real Estate Man, Restored to Health by Paine's Celery Compound.

CHICAGO, March 25.—Mr. W. W. Watson's reputation throughout the West for unerring judgment in the valuation of land has made him foremost among the most conservative, careful class of investors in Chicago. Unlike many hard driven business men, the owner of "Alpine Heights," that splendid suburb of Chicago, has not neglected his health on account of his exacting business. The following unrequested statement from Mr. Watson shows how consistent with his life-long, careful, conscientious and successful business habits has been his attention to getting well. He states in the Times-Herald:

"Upon the recommendation of a friend, I used Paine's celery compound for headaches, constipation, indigestion and loss of sleep, and found it all it was recommended to be. I suffer no more from headaches, sleep soundly at night, and am now in perfect health. This is the only medicine that I have ever taken for these complaints, which has benefited me at all."

W. W. WATSON,
225 Dearborn street.

Busy men and women are apt to think there is always time to get well. The fact that only one person in a hundred dies of old age shows how recklessly men and women postpone attending to their health and allow it to go to pieces while they devote themselves heart and soul to affairs that are trifling in comparison. Wives and mothers have no greater duty than to see that those dear to them do not become so absorbed in the work of providing for the household as to lose their health and shorten their days.

No more thoughtful step could be taken during the spring days than now here than to urge such tired and often irritable home providers to take Paine's celery compound.

There are thousands of homes where

overwork has led to worrying, fretting and despondency, that need only Paine's celery compound to banish the unhealthy atmosphere and make things bright and cheerful again.

It is the only spring remedy universally prescribed by physicians. It makes people well by giving them a hearty appetite and a relish for their food. Hard-worked men and women, the nervous, weak and debilitated, get new strength, fresh nervous energy and a purer, more vigorous blood supply from Paine's celery compound.

The most valuable nerve and brain invigorator and restorer practically demonstrates the life-long conviction of its eminent discoverer, Professor Phelps, M. D., LL. D., of Dartmouth College. Professor Phelps was for a long time convinced that sound nutrition was the keystone of firm health, and that where there were signs of poorly nourished nerve tissues, and of thin, pale-colored blood, some means must be devised to supply these deficiencies briskly and rapidly. Professor Phelps prepared Paine's celery compound on this basis. It has proved an invigorator, strengthener and a great spring purifier, such as the world has never enjoyed before our day.

Tomorrow, or the next day, or the day after is not soon enough to look about getting rid of weakness or disease. Take Paine's celery compound today. There is no time equal to these early spring days for throwing off poor health. There are few persons who do not need to take a spring remedy. Many not downright sick, but tired or ailing, would be immensely benefited by taking Paine's celery compound, especially at this particularly favorable season of the year.

This great compound will banish that tired feeling, cleans the blood and regulate the nerves.

AFTER THE CONVENTION.

(BY A BYSTANDER)
And Tooze didn't howl!
It was no year at all for bankers.
The people are in it with a big P.
The Woodburn farmers fought well.
The picture peddling racket didn't work.

There's a good deal of life in that old coon, Barkley.
When Claud Gatch nominates a man, he stays nominated.

"Turn the kickers outside." Frank Davey's speech at Woodburn.
The ticket is a winner against the field. And the people will hurrah for it.

There is one silver sentiment left in the Republican party yet, gentlemen.
Warren Cranston goes home happy and will make better Dolph cheese than ever before.

It was a great victory for the people's side of the question in Marion county.
That black Republican leader from Woodburn is an old John Fremont woolly horse.

McKinley Mitchell is a true Republican—all McKinley wool and a yard wide Mitchell.
Carry the news to Harvey Scott that Elder Barkley has been renominated. And Craig, too.

The people never set a truer set of men to a county convention than that Woodburn delegation.
Judge Judd was too hard to pronounce. His Republicanism is a great deal harder, however.

The people cheered for the good work of the country boys—the noble boys with muddy boots.
"Is he honest," THE JOURNAL'S joke on the county judges became the bon mot of the convention.

Thos. Sims is entitled to a deputy ship under Frank Wrightman and Tom would make a good one.
Oh, but didn't the boys love Barkley, though? You never love a thing real hard until you have to.

The ghost party at the opera house today held several seances. It is the party with a ghost of a chance.
Professional office seeking don't pay, boys. Have a little string called principle attached to all your actions.

The Republican party is with the people on all vital issues. It never abandons the people, by the way.
After Wrightman was nominated it was practically impossible for Fretz to be nominated. Study it out.

The rubber-tube, inflated party with bicycle wheels in its head is rattling around in the opera house today.
There was never a crowd of town politicians sat down so softly but effectually as—well, no matter when.

Mitchell won't have to keep the Marion delegation in a dark room to keep them from sprouting for Dolph.
The A. P. A. legislative candidate got 62 votes. That is said to have been a test vote of their strength in the convention.

Elder Barkley beats the golden rule with his silver rule from the holy scriptures: "Esteem another better than yourself."
The little banker politicians are now saying the legislative ticket is made up of Populists. They will find them pretty good Populists.

"When I come around to assess you don't get your stock behind the straw-stalk," was Assessor Hobart's only speech to the convention.
The Statesman will please do some crowing over the man it has been calling Poobah Smith. It will only be a little bantam squeak at best.

Geo. W. Jones, of Turner, for school superintendent is young, but he has a head on him that is a credit to the old Jones stock and all the Joneses will vote for him.
Our dear friend, Johnny Porter, ran for county treasurer at the wrong time and with the wrong combination. John generally gets there, and is there right.

The nomination of Frank Wrightman was really the first and only enjoyable thing that happened to Croisan and Bingham. They had a right to have some pleasure.
Frank Wrightman is one of the boys—one of the best of boys—and those who fought him the hardest are now his warmest friends. He did not make a boy campaign of it by any means.

The city was well filled with Populists today, and they were an intelligent, well-appearing body of men. They seemed to have fallen heir to the respectability brought in by the Republicans yesterday.
Boss Ike Buckley very gracefully admits that he didn't get little Doc Smith's scalp. He wanted it ever so bad. But he doubled teams with John Knight and the both got away with Judge Hubbard's scalp.

Jap Minto had the moral courage to stand by his convictions, and the boys clustered around him like bees swarming in June, when the fight got hot. He is not one of those wishy-washy sort of politicians, and the people will stand by him.
That the most earnest supporter of the anti-Dolph movement in the last legislature and its most earnest supporter in the rank and file of the party in Marion county should have got the biggest vote in the convention for representative is matter for Mr Dolph to reflect about. But he never reflects.

Making Bill Waldo delegate at large to both state and district conventions was a wise and safe way to prevent the convention from expressing any choice in the matter. It was great work. No man loses so much time from playing croquet in the interest of the Republican party as Bill Waldo.

"They have been ramming all sorts of things down our throats—these Salem politicians—without even asking permission of the people of Woodburn. We have given the Salem politicians a bitter dose of their own medicine. We didn't ask their permission to nominate Barkley." The speaker was Geo. Whitney, the French prairie farmer.
