

Can't

This is the complaint of thousands at this season. They have no appetite; food does not relish. They need the toning up of the stomach and digestive organs, which a course of Hood's Sarsaparilla will give them. It also purifies and enriches the blood, cures that distress after eating and internal misery only a dyspeptic can know, creates an appetite, overcomes that tired feeling and builds up and sustains the whole physical system. It so promptly and efficiently relieves dyspeptic symptoms and cures nervous headaches, that it seems to have almost "a magic touch."

NEWS OF ALASKA

Scores of Returning Prospectors Talk.

THE GOLD BOOM A FRAUD

Few Miners up Their Can Make a Living.

Since Messrs. Taylor, Mothorn and Harkins of this city have returned from Alaska with bad reports of that over-boomed country many other similar statements of the country are coming to light. A late copy of the Seattle Times tells of the arrival there of thirteen passengers by the steamship Willapa, who are part of a party of 82 returning prospectors that reached Sitka, Alaska, from Cook Inlet. The men left the much vaunted placers on Cook Inlet on the 11th of June and reached Tyonic by the steam schooner L. J. Perry, where they were picked up by the steamer Dora, that plies from Juneau and Sitka to the westward.

Charles Hicks, who runs the foundry and machine shop on the water front, is one of the prospectors who came in this morning. He went to the diggings because he was attracted to them by the immense advertising they got from last year's prospectors, who came back and gave such glowing accounts. Mr. Hicks says there is no gold up there. There are just a few claims that may pay, but these are washings of an old glacier that shows up about Mill's creek. "There is no gold in the country, and just say that for me," said Hicks today. "There will be a good chance, too, I think, for somebody to send a relief ship up there later on. Some men are in there who will not get out unless they are brought out. There is no lack of provisions and the men will not starve, but they did not go there to stay over winter and they are not prepared to stand the cold. All took provisions, but there are many who have no money to get away on, and these are the ones who will suffer."

"I see that Wakefield has gone up there. We saw him at Sitka. We warned him if he went in there he would have to look out, because there are a lot of men there who are worked up against him. There was strong talk at one time of lynching Ducey of San Francisco. He and Wakefield were largely instrumental in getting the men in there."

"Wakefield, we found out up there, only brought out \$100 last year and there was nothing to induce the extravagant gold stories which took the men in there. Ducey, I think skipped out of there. He, it was said by the men, induced great numbers to go in, telling them they did not need money—only provisions—they could dig the money out of the ground. So there are many men now there who are unable to get away."

"I place the great outlay that was paid out by the men going in there at \$150,000 and scarcely any return will be got back. There never was a better body of men together than those who went to the inlet. They set to work and worked hard, and if there was any gold there they would have discovered it. The country has

been given a good prospecting for two or three hundred miles around the inlet and there's nothing there. I took up three claims on Canyon creek, prospecting about 35 days in all. I'll sell those three claims for two bits today.

"There is not a man of those who went there this spring who has a claim worth a cent. The men braved all kinds of dangers and prospected every water course. The Shushitna, Shuwitna, Kaneal, Indian river, Chilkaru, Kauic, Seattle creek and all other creeks were prospected as thoroughly as men could without success. The men worked for bedrock, and thousands of holes were sunk at enormous labor and privation and nobody struck it. I spent one entire day washing sand and secured but five colors. None of the men can possibly make the costs of the trip. For the gold is not in the country. One might just as well go out here anywhere and prospect. Many of the men thawed out their prospect holes with fire built in them to get the frost out of the ground, so anxious were they to get to bed rock. When we got to the diggings we found the country staked off everywhere, many claims being marked with stakes driven down into snow that was probably on the face of the earth. There was one party there from the Bay of Fundy, who said the famous tide rips of that bay were nothing to those of the Cook Inlet. There were miners at the inlet, from up there who will never be heard from again. The men scoured the country in all directions and threaded every water course. Many have been drowned in the treacherous waters of the inlet, the worst 40 feet deep."

Your Boy Won't Live a Month.
Se Mr. Gilman Brown, of 34 Mill street, Gardner, Mass., was told by the doctors. His son had lung trouble, following typhoid malaria, and he spent \$375 with doctors, who finally gave him up, saying: "Your boy won't live a month." He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work as perfectly well man. He says he owes his present good health to use of Dr. King's New Discovery, and knows it to be the best in the world for lung trouble. Trial bottle free at Fred. A. Legg's drug store.

The dealer who says, "I have no Hoe Cake soap," practically admit that he does not sell first quality goods. If he says he has something "just as good" you will know at once that he is trying to sell you an inferior article. There is more clothing destroyed by poor soap than by actual wear, as the free alkali rots the cloth. Hoe Cake contains neither free alkali nor worthless fillings.

A WOMANLY WOMAN
Is there anything more wholesome, more beautiful, more completely pleasing is even tempered, intelligent, strong and healthy. Health really tells the whole story. Health means strong nerves and strong body, and they go far toward bringing good looks and amiability.
A woman worn and wearied by the dragging weakness peculiar to her sex, cannot be expected to find rest in any duty or amusement. Life is all one dead monotonous gloom to her. On her face is written the story of weakness and pain. The cheeks lack fullness, the eyes lack sparkle, the hair lacks luster.
Doctors have learned to locate nine-tenths of womanly sickness in the organs that ought above all others to be strong and healthy.
Sensitive women shudder at the thought of consulting a physician on such matters. A natural feeling of modesty makes them dread the examination, and subsequent stereotyped treatment by "local applications" on which most doctors insist.
Much more often than not, this is unnecessary. It should not be submitted to except as a last resort.
Dr. Pierce's Favorite Prescription has cured thousands of severe cases of "female weakness." It works in a natural, sensible way. It begins by subduing the inflammation that is always present. Then it strengthens and invigorates the whole body, particularly the organs distinctly feminine. It promotes regularity, cures inflammation and ulceration, and stops the debilitating drain caused by them. Of all dealers.

The spot where Custer fell

is within plain view of the Burlington route's track. The monument that marks his last resting place is little, if any, more than a mile distant. You get a good view of it as the train whirrs eastward over the solidest, the smoothest, the best track ever built west of Chicago. A pretty booklet, giving a brief account of the battle in which Custer lost his life will be mailed to any one who will ask for it. Write for a copy. READ! READ! READ!

The people are charged with ignorance by the gold press. This is a false charge. Whatever the cause of free coinage of gold and silver 16 to 1 is more discussed and best understood it is most popular and strongest with the people.

Sixty Days for 50 Cents.

If you can't talk or write for silver read and mark articles and send them to your neighbors and friends—sixty hot shots for 50c. Cheapest political ammunition in the country. Send a silver quarter or half dollar and try it. The people must be educated and it is your duty to help do this work for humanity.

WE DON'T WANT GOLD

alone, but we want both gold and silver. There is not gold enough in our country to pay one-twentieth of the debts owing in this country. If you want repudiation advocate the single gold standard. It means contraction of our currency, destruction of values, and repudiation. Investigate and you will be convinced.
