THE JUSTICE COURT CASE. Wm. H. Egan Is Discharged—The Case Dismissed.

The case against Wm. H. Egan charged with assault with a dangerous weapon on the person of M. P. Massey, was not concluded until a late hour yesterday afternoon. It was nearly 6 o'clock when the counsel on either side had made his closing argument. Justice Johnson then announced no decision would be rendered until 7:30 last evening when he discharged the prisoner and ordered that the case be dismissed. The evidence produced in the testimony was not sufficient to justify the defendant being bound over to the grand jury, which body would doubtless fail to find a "true bill" against the accused.

P. H. D'Arcy and W. J. D'Arcy represented Mr. Egan while District Attorney S. L. Hayden and John H. McNary appeared for the state.

A Good Clean-Up. For ten days past Marshal Dilley has been hard at work with four men and two trucks, cleaning up and hauling off the filth from the alleys and back yards of the city. Under orders from the council Mr. Dilley has proceeded as rapidly as he could, and now not only the alleys, but the back yards as well, in the blocks between Ferry and Center streets, from Front to Liberty, have been thoroughly cleaned. The work was at first delayed for want of a place to throw debris, but the men were finally permitted to throw it into the low end of Ben Forster's lot, on North Commercial street. Several hundred loads have been taken off, and for the first time in many years, some of the alleys and back yards have been purified. Let the good work go on. There is greater glory to be earned by keeping our city clean—materially as well as politically—than in almost any of the other official walks of life. Mr. Dilley and his crew are entitled to the thanks of a long-suffering community.

IN POLICE COURT CIRCLES.

Insell Bound Over to the Grand Jury—Some "Scraps."

Business in police court circles has been unusually quiet the past month, but since Thursday evening there has been quite a "boom" in that department of our city government.

The deck-hand arrested Thursday night for attempting to rescue his "pal" Robert Gatcheson, from Officers Gamble and Gibson, was arraigned before Recorder Edes late last evening charged with "attempting to rescue a prisoner from an officer." He gave his name as Harry Insell. He waived examination and was bound over to await the action of the grand jury.

In default of a bond the man languishes in the county jail. Insell was found early Friday morning in a Commercial street saloon by Chief Dilley who at once arrested him and escorted him to the city jail. The other deck-hand who attacked the officers having Gatcheson under arrest, managed to evade the officers and left town unknown to our efficient policemen.

The trial of R. Gatcheson, the deck-hand who was placed in the jail about midnight Thursday, was to have been held at 9 o'clock this morning but since the principal witnesses are night policemen Gibson and Gamble, the trial was postponed until 2 o'clock this afternoon. Gatcheson is charged with assault and battery on the person of Officer "Doc" Gibson.

Gatcheson came to the conclusion today that he had better not stand trial and accordingly notified Chief Dilley of his decision. He was brought before Recorder Edes, plead guilty and received a sentence of 60 days.

During the races at the fair-grounds Friday afternoon, a "knockout" occurred between a man named Williams and Perry Manzey in the latter came out second best. It seems the trouble was caused by the attentions paid Manzey by Mrs. Williams. The men were separated before either had sustained any bodily injury. No arrests were made.

Another scrap occurred in a Commercial street saloon about 6 o'clock last evening between John Sykes, of Polk county, and Frank Starr, of this city. It appears Sykes began the trouble and Starr used a walking cane with telling effect over the person of his antagonist. Both men were released on bail to appear for trial at 1 o'clock this afternoon.

About 10 o'clock this morning Sykes appeared before Recorder Edes and plead guilty to the charge. He was fined \$10 and costs which he paid and he was discharged. The case against Starr on a similar charge will be tried Monday. In the meantime Starr enjoys his freedom having furnished a bond for his appearance in court.

James Kent, the deck-hand who escaped from Salem Thursday night, arrived in the city this morning and at once proceeded to the office of Recorder Edes. He waived examination to the charge that had been filed against him and was bound over to grand jury. It is likely he will furnish bail

INSTALLATION OF OFFICERS.—A large party of Salem Odd Fellows will go to Turner this evening, and witness the installation of officers of Fidelity Lodge, No. 36 of that city. It is likely the Stayton and Jefferson lodges will also send large delegations. District Deputy Grand Master W. J. Culver of this city, will conduct the installation of the new officers.

Among those going from Salem are: A. O. Condit, Judge Geo. H. Burnett, H. A. Johnson, Jr. Claud Gatch, J. W. Roland, A. C. Dilley, J. G. Wright, Ed. N. Edes, A. T. Wain, E. E. Cooper, D. J. Coffey, T. O. Barker, W. T. Williamson, Jas. Lewis, G. Steiner, Ed. Keene, I. W. Miller, S. N. Nye, A. M. Clough, A. A. Lee, E. White, Phil Fretz, J. H. McNary and W. J. Culver.

Y. P. S. C. E. SOCIAL.—The Christian Endeavor society of the First Presbyterian church gave another of their delightful socials at the home of Mr. and Mrs. W. E. Calkins on South Commercial street, last evening. The grounds were beautifully lighted by many Chinese lanterns. There was only a small crowd but the small attendance in no way placed a limit to the enjoyment of those present. Games, converse, etc., on the lawn was followed by delicious ice cream and cake. At their departure the young folks expressed a desire that it might be their pleasure to participate in an early repetition of "such a good time."

TRUSTY ESCAPES.—J. Lewis Jones, another "trusty" escaped Thursday night. He was working with a squad at the reform school and disappeared from the sleeping shanty during the night. Jones was serving a one year sentence for larceny committed in Union county.

WOMEN AND THEIR WORK.

WOMEN AND ROSE BUDDING.

From now on for two weeks at least is the budding time of roses, while the second sap is up, and the bark peals back readily. The art of budding is quite simple when a complete understanding is had of handling the bud at the proper stage of ripeness or maturity. The other day I was surprised to know that a Salem lady had been quite successful in budding her own roses, and that with the exception of one or two out of a dozen, all grew and were strong and vigorous. There is no reason why other women cannot be quite as successful in this work.

Women are naturally quick, careful and delicate, and can handle the pruning knife with more deftness than a man. There is no doubt that a few women in each city could earn a livelihood by caring for the roses of private families, besides budding for many others.

The process of keeping suckers down and pruning, is a work of itself,

and unless we thoroughly understand the habits and growth of roses, budding is of little profit. However, to people who have but little yard room, the process of budding is a convenience, as any number of varieties may be budded into one bush; however, care must be exercised in colors, so that the whole bush will not have a rag-bag effect. For instance, the William Allen Richardson will kill all other roses for color, except a white, where it is quite peaceful. Climbing roses are always budded into hardy climbing roses of vigorous growth and stalks. The cost of an outfit is small, but it is a most pleasant as well as healthful occupation for all women, regardless of the money proposition.

THE SUMMER GIRL. The summer girl this year, is the up-to-date summer girl. She rides the bicycle of course. She gets up at daybreak wheels off, say forty miles, more or less, then back home to breakfast. I wonder if she gets it herself or lets her mother do that? Is the up-to-date-girl the one who always keeps the vases full of fresh roses and other flowers, tidies the rooms, closes the house at the right time to keep out the intense heat, or does she still swing in the hammock and complain, of this awful hot weather? I wonder if this girl ever takes any pride in helping her mother put up the little delicacies of fruit and jellies, or does she wonder how her mother can stand it to work all day in the hot kitchen? She must be the sweet girl that always know just where to find grandma's "specks" and father's fresh daily. Neither does she scold because the children come in with dirty faces and ruffled clothes, but finds it great fun to join in a "general scrubbing up." Because times are hard, and the money problem is not yet solved, she does not mind going without her usual number of summer gowns, but contents herself with a few shirt waists and a dark skirt, the good old standby sailor hat, and a cheerful smile. She certainly is the girl that never thinks of herself, whom boys, girls, old folks, and little folks all love. She surely will be the new woman.

IN THE KITCHEN. Buy new covers and rubbers for your

fruit jars, and keep your cans free from mould while empty, and you will invariably be successful in keeping fruit.

Old can covers and rubbers may be used with the cracked jars, for jams and jellies.

A small brush should be used in cleaning the dasher of ice cream cans, and prevent the cream and other particles from corroding and becoming poisonous.

Frozen fruits are a refreshing change in summer desserts. Try them. The best French cooks utilize all cold vegetables in salads and soups.

If you are to be on your feet and over the stove all day, try changing your shoes once or twice a day for a pair of old worn and soft ones, and see how it rests you.

Housekeepers who are troubled with jellies moulding can prevent it by melting a small quantity of paraffine, and after the jelly has set pour over the wax until a thin layer has completely covered the jelly. Then cover with paper as before. This is a practical method, as the wax can be used year after year if kept clean when removed from the cups.

The back breadths of cotton working dresses can be used in making kitchen aprons by cutting off the gored edges and sewing into neat bands.

Notice to Contractors. School bids will be received by the undersigned, at the office of the clerk of the district until Thursday evening, July 30, 1896, for repairing the four furnaces at the East Salem school house. The furnaces must be taken to pieces, and every defective part replaced with new material, in accordance with the scale on file at the office of the clerk, and the furnaces are to be examined by the committee before they are bricked up. The committee reserve the right to reject any or all bids.

No EXCURSION.—Since 100 tickets for the proposed excursion between Salem and Newport, were not sold there will be no excursion tomorrow.

BRIDGE REPAIRED.—The Cottage street bridge across North Mill Creek has been thoroughly repaired and that thoroughfare is now open for travel. C. F. Royal did the work.

Wanted—All girls to know that "Hog Cake" will not make their hands red like common soap. Save the wrappers. They are worth a cent apiece. 191f

There's more clothing destroyed by poor soap than by actual wear. "Hog Cake" soap contains no free alkali and will not injure the finest lace. Try it and notice the difference in quality. John Hughes.
