TUESDAY, SEPT. 8, 1896.

PRESIDENTIAL TICKET.

For Independent American Bimetallism and People's Government.

For President, **WILLIAM JENNINGS BRYAN**, of Nebraska.
For Vice-President, **THOMAS WATSON**, of Georgia.

UNION PRESIDENTIAL ELECTORS,
N. L. BUTLER, Polk County, Democratic.
M. M. OLMSTED, Baker County, Peoples.
HARRY WATKINS, Yamhill Co., Peoples.
E. HOFER, Marion Co., Silver Republican.

ELDER BARKLEY'S MEETINGS.

Hon. H. L. Barkley will speak as follows: Oregon City, September 10; Albany, September 11; Eugene, September 12; Corvallis, September 14; Toledo, September 15; Lebanon, September 16; McMinnville, September 17; Jefferson, September 18; Grant's Pass, September 22; Clatskanie, September 24; Kalama, Wash., September 26.

Use money and organize, Mark Hanna cries.

Will Mark Hanna's agents organize the hop pickers—at 25 cents a box?

Farmer Geer's heart would have bled at Salem Saturday if he had been present to hear Mayor Penneyer dish up "roast banker."

The Oregonian begins to cry down the state fair races very early this year. The date set is certainly out of the way of the Portland exposition.

Rev. Father Nugent, who is going to support McKinley agrees with Rev. Geo. W. Grannis on politics if he don't on the public school question.

Lark Bilyeu and his fellow workers are organizing Lane county by precincts for Bryan. Each county must be organized to fight its own battle.

Add our country to the gold standard nations by your vote for McKinley this fall and make gold dearer, silver cheaper and the conditions of life harder for all humanity.

The senatorial bee is said to be buzzing in the brain of Lord, Ford, Tongue, Dolph, to say nothing of gentlemen with two and three syllables in their names.

CASTORIA is an every wrapper.

Don't shed any tears over John H. Mitchell: if he can't go to the senate again, he is promised a cabinet place, and if McKinley fails, the Southern Pacific will take care of him.

Organize and enroll the people into Bryan clubs. Hold meetings at the country school houses and circulate literature. Do you want your liberties buried under the British gold standard?

The idea of a lot of old state house rats, Republican crumb-pickers and aristocrats organizing a "Working-man's club!" There isn't a one of them ever intends to do a lick of work if McKinley is elected.

Of course, the silver people have too much sense to put up a banner over the Arkansas election. It has much significance from the fact that the Populists made no canvass and that there is not the usual cry of fraud.

The Bryan campaign committee at Portland is organized at last. But the people are not depending on any machine or barrel in this campaign. The people are going to help themselves, and do not depend on any bosses or managers, any more than Bryan does.

The Japanese are planting a big colony in Mexico to raise coffee, cotton and other products for the markets of the world on a silver basis. Cheap labor and demonetized silver makes a competition that will drive the American farmer to the poor house. Remedy: Restore silver.

The Salem club of aristocrats and office-holders, that lies awake nights sleepless out of solicitude as to how the laboring man shall vote, is going to dress the working man up in uniforms for campaign parades. The Bryan men will vote in their old clothes, dusty shoes, and a clear conscience.

WEAK MEN
CURED AS IF BY MAGIC.

Victims of Lost Manhood should read at once for a book that explains how full manly vigor is easily, quickly and permanently restored. No man suffering from weakness can afford to ignore this timely advice. Book tells how full strength, vigor and tone are imparted to every portion of the body. FARMERS AND THE GOLD QUESTION.

Some weeks ago the New York Herald, gold standard organ, under the heading "Big Crops—Low Prices," printed the following significant editorial:

"The government's report on the condition of the cotton crop indicates a yield of 9,000,000 bales of 500 pounds each. This would be only 900,000 bales less than the big product of 1894, but compared with last year would show an increase of 2,300,000 bales which in the New York market at present prices would represent a value of \$81,000,000. Cotton, however, is the only product that is selling as high as at this time last year. Wheat is 7 cents a bushel, or 13 per cent., lower, and the government report indicates a decrease of 7 per cent. in the yield. There is an indicated harvest of 2,154,000,000 bushels of corn, which is a fraction of 1 per cent. more than last year's; but the price in this market today is just one-third less than it was a year ago. Oats promise the same yield as last year, but the price of these also is a third lower. The value of this year's yield of these three cereals, estimated at present prices in this market, would be \$435,000,000 less than if they could be sold at the prices current a year ago. There is every prospect of very satisfactory harvests, but prices are certainly very low."

Is it a wonder that farmers want bimetallism, when they get \$435,000,000 less for their oats, corn and wheat in 1896 than in 1895? But the gold standard banker and broker element and their clients are the gainers that much. How long the producing element will permit the goldites to grind their faces remains to be seen. Today the farmers in the Grande Ronde Valley are selling their wheat at 30 to 32 cents a bushel. Will the Oregonian and Statesman answer the facts stated in the New York Herald, their gold standard yoke-fellow, if they can? Today's quotations of corn in Chicago are 20 cents a bushel! This is a great reward for the husbandman's toil!

A few more facts, and they are facts, and neither the Oregonian or any other gold standard editor can dispute them, for they are taken from the Chicago daily market reports:

In 1879 wheat sold at \$1.08-10 a bushel, in 1895, at 50.9 cents. In 1879 the farmer realized 37.5 cents per bushel for corn, 65.6 cents for rye and 33.1 cents for oats. In 1895 he received but 26.4 cents for corn, 44 cents for rye, 19.9 cents for oats. In 1879 903 bushels of wheat would have paid a \$1,000 of interest on our indebtedness or redeemed a thousand dollar bond. In 1895 it would have taken 1,965 bushels. And of corn it would have taken 3,788 bushels in 1879, of rye 2,273 bushels to cancel an indebtedness of a \$1,000 when it took but 1,524 in 1879 and of oats 5,025 in place of 3,021.

Look at it another way: an average field of 884 acres planted equally with corn, wheat, rye and oats produced crops in 1879 of the value of \$1,000 or sufficient to redeem a \$1,000 of our indebtedness. In 1895 it would take the entire product of a field of 1534 acres to raise the same \$1,000 and redeem the same bond that the expenditure of labor and energy spent on a field of 884 acres would have sufficed to raise in 1879. And if we look at it from the standpoint of a planter we find that to pay a \$1,000 bond in 1894-5 it would have taken the product of 914 acres of cotton, whereas, in 1878-79, 52 acres would have sufficed.

These facts are taken from official sources. No man can truthfully deny them. Nor can he deny that the Willamette farmer got 80 to 90 cents a bushel for his wheat in 1881. What does he get now? About 40 cents. We are not surprised that the farmer is for bimetallism.

Now THE JOURNAL will ask the gold standard orators to tell the people how the farmers of our country can employ labor at cash wages, or buy manufactured goods at the stores freely, unless they can get better prices for their farm products?

It is publicly stated that a loan of \$2,500 made out of the state school fund on a farm in Eastern Oregon was recently foreclosed and sold out for \$700. The state's attorney asks a fee of \$500, other expenses \$300. The state loses interest, principal and is \$100 in the hole besides!

WHAT AILS JACK WEBB?

Jack Webb, a railroad brakeman at Huntington, Ore., writes the Oregonian:

"I receive now as a passenger brakeman \$67.50 per calendar month. Under free coinage (with silver dollars worth 100 cents) I would still receive \$67.50 per month. But it would only buy \$33.75 worth of goods, because everything would cost double what it does now."

What does Jack Webb want? Don't he know it would be better for him if he had to pay twice as much for a sack of flour and all other products in proportion? Don't he know the Republicans promise the farmers 20 cents a pound for wool if McKinley is elected?

What ails Jack Webb? The farmer gets so little for his products he can't employ labor or buy manufactured products. The laboring men are driven from the country to the cities and not half can be employed there.

What do the watered-stock manipulators and bond-speculators care for Jack Webb? If the corporation can get a cheaper man, Jack Webb goes, and they will get cheaper men unless the farmer can employ labor. See.

MR. DOWNING OF STATE STREET Desires to Call Some One a Liar in Print.

EDITOR JOURNAL—Referring to an article in Friday evening's issue with reference to a meeting held at the Riekey school house for discussion of political issues, said article being signed "One Who Was There," will you kindly allow me space to say that the only element of truth in said article is contained in the statement that such meeting was held and was attended by the Populists and silver Republicans named, Mr. Geer,—by challenge for discussion—and a number of gentlemen for Salem. That any of the visitors were disorderly or discourteous to any one of the speakers is emphatically denied. The object of this article is to publicly brand, "One Who Was There" as a malicious liar and the name of the person making the charge of falsehood against him is

H. C. DOWNING,
No. 82 State street.

THE JOURNAL presents the Union electoral ticket which will be opposed to the McKinley gold standard electors in Oregon this fall. Bryan newspapers are requested to print it. It is headed by a Union soldier, and all four electors are regularly nominated by the Democratic and People's party committees. The editor of THE JOURNAL was put on as a silver Republican by the Democratic and Populist committees and must have a petition signed by 250 voters. Please call and sign the same at this office.

Mr. C. W. Wheeler, of Waitsburg, editor of the Times, has been sued for libel to the amount of \$15,000, the charge being made that the Rev. Mr. Tickner was a villifier of women and children.

A Bryan club was formed at Goshen with a large list of members.

"If Eric is in robust health, and has slept well, and is at the top of his condition at his departure from Greenland, his ships will reach Newfoundland. But, take out Eric and put in a stranger man—Bjorn or Thorin and the ships will just as much as a wreck reach Labrador and New England."

Emerson was right. The stronger man is the fatter his chest is, the louder his heart and brain and lungs are, the further he will sail on the ocean, the higher he will sail in his balloon, and the deeper he will dive into the intricacies of his business or profession. A man's glory is his strength. The world has small use for weaklings, and it must be said, sickly people have little use for the world. But, sickness is generally an unnecessary evil. It is almost a crime against nature to be ill. If you are ill and feel repentant, anxious to undo the mischief, take Dr. Pierce's Golden Medical Discovery. Don't be despondent because your grandfather died of consumption or bronchitis, or some other equally frightful throat or lung trouble. There is no need of hereditary consumption. Purify your blood with "Golden Medical Discovery," then take more of it to thoroughly strengthen and build up your whole body through the purity and strength of your blood.

There is nothing miraculous about the "Discovery." It is a compound of curatives skillfully blended. It will cure 95 per cent of all cases of consumption if it is honestly used.

Would you know yourself? Send at once-cent stamps to cover cost of mailing only, and get Dr. Pierce's Common Sense Medical Adviser. In the reading of this book of 1000 pages is a medical education. It is a complete family doctor book, written in plain language that everybody can understand, and profusely illustrated. Address, **WORLD'S DISPENSARY, MEDICAL ASSOCIATION, 663 Main St., Buffalo, N. Not only the secret societies, the patriotic orders, but even some of churches are being Mark Hannaized; Systematic appeals go forth from pulpit politicians: "Stand by the church." They not only talk politics on Sunday, kneel down to the golden calf, but are polling their free silver members to make money scarcer, when only the richest metropolitan churches can pay their preacher's salary.

The dirty work of making the poor old Union soldier veterans sign Mark Hanna's rolls, under threat of losing their pensions, is only surpassed by the newest order, which is to organize the war widows and make their sons too toe the Mark (Hanna) for the gold standard. Not even a widow is safe from these political ravishers.
