Convention,

The following is the full and complete platform as adopted by the due proportion of the expense of the National Democratic convention:

We, the Democrats of the United States in national convention assemb led, do reaffirm our allegiance to those great essential principles of justice and liberty upon which our institu-tions are founded, and which the Democratic party has advocated from Jefferson's time to our own—freedom of speech, freedom of the press, freedom of conscience, the preservation of personal rights, the equality of all citizens before the law, and the faithful observance of constitutional limi-

buring all these years the Demo-cratic party has resisted the tendency of selfish interests to the centraliz-ation of governmental power, and steadfastly maintained the integrity of the dual scheme of government established by the founders of this republic of republic republic of republics. Under its guidance and teachings the great principle of local self-government has found its best expression in the mainfound its best expression in the maintenance of the rights of the states and in its assertion of the necessity of confining the general government to the exercise of powers granted by the constitution of the United States.

RELIGIOUS FREEDOM.

The constitution of the United States of the United States of the Constitution of the United States of the United State

States guarantees to every citizen the rights of civil and religious liberty. The democratic party has always been the exponent of political liberty and religious freedom and it renews its obligations and reafirms its devotion to these fundamental principles of the constitution.

Recognizing that the money ques-tion is paramount to all others at this time, we invite attention to the fact that the constitution names silver and gold together as the money meta's of the United States, and that the first coinage law passed by congress under the constitution made the silver dollar the money unit, and admitted gold to free coicage at a ratio based upon the silver dollar unit.

We declare that the act of 1873 denonetizing silver without the knowledge or approval of the American peo-ple has resulted in the appreciation of gold, and a corresponding fall in the price of commodities produced by the peeple; a heavy increase in the burden of taxation and of all debts, public and private; the enrichment of the money lending class at home and abroad, the prostration of industry,

and impoverishment of the people. We are unalterably opposed to monometallism, which has locked fast the prosperity of an industrial people in paralysis of hard times, Gold mono-metallism is a British policy, and its adoption has brought other nations into financial servitude to London. It is not only un-American, but anti-American, and it can be fastened on the United States only by the stifling of that spirit and love of liberty James Fedler of the Catlin saw mill, which proclaimed our political inde-in Cowlitz county, Wash., has se-pendence in 1776 and won in the war of the revolution.

24x24, 100 feet long.

We demand the free and unlimited coinage of both silver and gold at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be a full legal tender, equally with gold, for all debts, public and private, and we favor such legislation as will prevent for the future the demonetization of any kind of legal tender money by

Me denounce as disturbing to business the Republican threat to restore the McKinley law, which has twice been condemned by the people in national elections, and which, enacted under the false plea of protection to home industry, proved a prolific breeder of trusts and monopolies, enriched the few by the expense of the riched the few by the expense of the many, restricted trade, and deprived the producers of the great American staples of access to their natural marsure for and improve the Mississippi river for the interior and other great waterways of the read other great waterways of the read of the producers of the great for the interior and other great waterways of the read of the great for the interior and other great waterways of the read of the great for the great for the interior and the great for the great for

We hold that the most efficient way of protecting American labor is to prevent the importation of foreign pauper labor to compete with it in the home market, and that the value of the home market to our American farmers and artisans is greatly reduced by a vicious monetary system which depresses the prices of their products below the cost of production, and thus deprives them of the means of purchasing the products of our home manufactories, and, as labor creates the wealth of the country, we demand the passage of such laws as may be

necessary to protect it in all its rights. We are in favor of the arbitration of differences between employers engaged in interstare commerce and helr employes, and recommend such egislation as is necessary to carry out

this principle.

The absorption of wealth by the few, the consolidation of our leading railroad systems, and the formation of trust and pools require a sticter control by the federal government of those arteries of commerce. We de-mand the enlargement of the powers of the interstate commerce commission and such and such restrictions and and guarantees in in the control of railroads as will protect the people from robbery and oppression,

We denounce the profligate waste of the money wrung from the people by oppressive taxation and the lavish appropriations of recent Republican congresses, which have kept taxes high while the labor that pays them is unemployed, and the products of the people's toil are depressed in price till they no longer repay the cost of production.

We demand a return to that simolicity and economy which benefits a Democratic government and a reduc-tion in the number of useless offices, the salaries of which drain the sub-

stance of the people.

FEDERAL INTERFERENCE,

We denounce arbitrary interferences by federal authorities in local affairs is a violation of the constitution of the United States and a crime against free institutions, and we especially object to government by injunction as a new and highly dangerous form of oppression, by which federal judges in contempt of the laws of the states and rights of citizens, become at once legislators, judges, and executioners, and we approve the bill passed at the last session of the United States senate, and now pending in the house of representatives, relative to contempts in federal courts and providing for trials by jury in certain cases of con-

We favor the admission of the territories of New Mexico, Arizona and Oklahoma into the United States, and we favor the early admission of all the territories having the neces sary population and resources to entitle them to statehood, and while they remain territories, we hold that the officials appointed to administer the government of any territory together with the District of Columbia and Alaska, should be bona fide residents of the territory or district in which the duties are to be performed. The Democratic party believes in home rule and that all public lands of the United States should be appro-priated to the establishment of free homes for American citizens. We recommend that the territory of Alaska be granted a delegate in congress, and that the general land and timber laws of the United States be extended to said territory.
