A MODEL PLATFORM.

Adopted by the Democrats In National

Convention. The following is the full and complete platform as adopted by the National Democratic convention:

We, the Democrats of the United States in national convention assembled, do reaffirm our allegiance to those great essential principles of justice and liberty upon which our institutions are founded, and which the Democratic party has advocated from Jefferson's time to our own—freedom of speech, freedom of the press, freedom of conscience, the preservation of personal rights, the equality of all citizens before the law, and the faithful observance of constitutional limitations.

During all these years the Demo-cratic party has resisted the tendency of selfish interests to the centralization of governmental power, and steadfastly maintained the integrity of the dual scheme of government established by the founders of this republic of republics. Under its guidance and teachings the great principle of local self-government has found its best expression in the maintenance of the rights of the states and in its assertion of the necessity of confining the general government to the exercise of powers granted by the constitution of the United States.

RELIGIOUS FREEDOM. constitution of the United States guarantees to every citizen the rights of civil and religious liberty. The democratic party has always been the exponent of political liberty and religious freedom and it renews its obligations and reafirms its devotion to these fundamental principles of the constitution.

Recognizing that the money question is paramount to all others at this time, we invite attention to the fact that the constitution names silver and gold together as the money metals of the United States, and that the first comage law passed by congress under the constitution made the silver dollar the money unit, and admitted gold to free coicage at a ratio based upon the silver dollar unit.

We declare that the act of 1873 demonetizing silver without the knowledge or approval of the American people has resulted in the appreciation by federal auth

It is not only un-American, but anti-American, and it can be fastened on the United States only by the stifling of that spirit and love of liberty dulged by the government of the Uni-which proclaimed our political inde-ted States in favor of any of its debtpendence in 1776 and won in the war of the revolution.

PREE COINAGE. We demand the free and unlimited coinage of both silver and gold at the present legal ratio of 16 to 1, without waiting for the aid or consent of any waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be a full legal tender, equally with gold, for all debts, public and private, and we favor such legislation as will prevent for the future the demonetization of any kind of legal tender money by private contract.

BONDS We are opposed to the policy and practice of surrendering to the hold-ers of the obligations, of the United States, the option reserved by law to the government of redeeming such obligations in either silver coin or gold

We are opposed to the issuing of in-terest-bearing bonds of the United States in time of peace, and condemn the trafficking with banking syndi-cates which, in exchange for bonds gold monometallism.

ISSUE OF MONEY.

Congress alone has the power to coin and issue money, and Prerident Jackson declared that this power could not be delegated to corporations or individuals. We therefore de-nounce the issuance of notes intended to circulate as money by national banks as in derogation of the constitution, and we demand that all paper which is made a legal tender for public and private debts or which is receivable for duties to the United States shall be be issued by the goverament of the United States and shall be redeemable in coin,

TARIFF. We hold that tariff duties should be levied for purpose of revenue, such du-ties to be so adjusted as to operate equally throughout the country and not discriminate between class or sec-

tion, and that taxation should be cituited by the needs of the govern-ment honestly and economically ad-

riched the few by the expense of the many, restricted trade, and deprived the producers of the great American staples of access to their natural mar-

cept such as are necessary to meet the deficit in revenue caused by the adverse decision of the supreme court on the income tax. But for this decision the income tax. But for this decision by the supreme court there would be no deficit in the revenue under the law passed by a Democratic congress in strict pursuance of the uniform decisions of that court for 100 years, that court having in that decision sustained constitutional objections to its enactment which had preciously been overruled by the ablest judges who have ever sat on the bench. We declare that it is the duty of congress to clare that it is the duty of congress to use all the constitutional power which remains after that decision, or which may come from its reversal by the court as it may be reafter be consti-tuted, so that the burdens of taxation may be equally and impartially laid, to the end that wealth may bear its due proportion of the expense of the

of protecting American labor is to prevent the importation of foreign pauper labor to compete with it in the home market, and that the value of the home market to our American farmers and artisans is greatly reduced by a vicious monetary system which depresses the prices of their products below the cost of production, and thus deprives them of the means of purchasing the products of our home manufactories, and, as labor creates the wealth of the country, we demand the passage of such laws as may be

gaged in interstare commerce and their employes, and recommend such legislation as is necessary to carry out this principle.

TAXATION.

We denounce the profligate waste of the money wrung from the people by oppressive taxation and the lavish appropriations of recent Republican congresses, which have kept taxes high while the labor that pays them is unemployed, and the products of the people's toil are depressed in price till they no longer repay the cost of production.

We demand a return to that simplicity and economy which benefits a Democratic government and a reduction in the number of useless offices, the salaries of which drain the substance of the people.

FEDERAL INTERFERENCE.

We favor the admission of the territories of New Mexico, Arizona and Oklahoma into the United States, and we favor the early admission of all the territories having the necessary population and resources to entitle them to statehood, and while the officials appointed to administer the government of any territory together with the District of Columbia and Alaska, should be bona fide residents of the territory or district in which the duties are to be performed. Dr. Pierce's Favorite Prescription is of purely vegetable composition and is perfectly harmless in any condition of the system. It exerts a wonderful soothing, healing and strengthening power over woman's delicate organism.
