GOLD STANDARD DEMOCRATS.

Salem Men Who Will Vote for Palmer and Buckner.

The state electoral ticket of the national Democrats was placed on record with the secretary of state yesterday. The names were filed by petition according to the law providing for such cases. The petition contained 341 names of sound-money Democrats taken throughout the state. The electors are: Lewis B. Cox, of Portland; Alexander H. Holmes, of McCoy; Frank A. Seuffer, and Curtis J. Trenchard, of Astoria.

Following are the names of the Salem Democrats who signed the petition:

- G. W. Gray, W. H. Byrd, D. B. Steeves, John H. Albert, C. O. Huelat, E. H. Flagg, F. Levy, A. H. Coshov, P. H. Sroat, Leo Willis, E. C. Herren, J. D. Shaw, Chas. A. Park, Jos. H. Albert, A. C. Hopf, W. T. Gray, J. J. Dalrymple, G. A. Rockwell, Geo. B. Gray, J. J. Shaw, H. E. Albert, Hamilton Beatty, A. Bush, H. H. Thompson, G. L. L. Basket, Thos. G. Albert.

It is estimated the gold Democrats will poll 300 votes in Marion county.

More Rumors Afloat

During the past few days several additional rumors concerning the removal of the Salem Local and other possible changes of the Southern Pacific schedule for Salem, have reached the ears of the JOURNAL reporter. It is rumored that at the Portland exposition the Salem Local will be removed and the time of the California overland will be changed to accommodate the Salem traveling public. By the reported new schedule to be adopted, the north bound overland will reach Salem about 8 a. m. daily instead of 6 a. m. as at present while the south bound overland will arrive here about 9 p. m. two hours earlier than present. This will be quite an accommodation to Salem people since it would give them about 9 hours in Portland, when at the present time, going via Salem Local, they only have 6 hours. However at present no change will likely be made since the new schedule adopted by the Company on the 1st inst. did not in the least effect the trains passing through Salem.

"Didn't Understand the Works."

A good joke is being told on a janitor of one of Salem's public schools. Only a few days since in working about the radiators he accidentally loosened the faucet that supplied the various pipes with heated water and for a time there seemed to be a second flood threatened. The school house basement reminded the observer quite forcibly of an artificial lake. In the meantime a plumber had been summoned from the city but found the huge boiler about empty. The trouble was at once remedied and the janitor is now more thoroughly acquainted with "them heating machines."

Returned to Her Home.

It is reported that some time Wednesday afternoon an unruly daughter of one of South Salem's citizens left home quite unceremoniously, taking about \$5 not her own. Failing to return that night her parents were considerably worried and instituted a search for the girl but failed to ascertain her whereabouts. The father boarded the northbound overland Thursday morning and returned home with his daughter on the late train last night. It is hoped the girl may appreciate the comforts of a home more in the future and not embark on a second such foolish expedition.

"We are for gold and a king." Gold standard Democrats.

It is too near election to believe anything Dame Rumor tells. Get out Mr. Voter.

Judge A. S. Bennett is going to give to specific contract law its true interpretation at Salem Monday night.

Chief Clerk James H. Richardson, of the R. M. S., located at Portland, has been removed for cause. He was a Democrat.

Cassius M. Idleman, (\$3,000), W. S. Dunniway, (\$2,500), total \$18.00 per day at public expense, out lecturing for sound money.

Of course, the gold standard Democrats don't want any kind of money to be money but gold, and will pay out nothing but gold.

At least four of the Albertses of Salem, who are gold standard men from principle, are reported as counted sure to vote for McKinley.

Hon. J. J. Whitney, of Albany, at the Armory Saturday night; in spite of the fact that the Statesman says Bryan is crazy, it is thought Bryan men will still be found to turn out.

Gold Standard Democrats: "We don't intend to vote for our electors; we intend to vote for McKinley; but we expect to find some people who will vote for the gold standard Democratic electors out of principle."

The rumor is growing that the S. P. Co. has bought the O. C. & E. that was formerly the Oregon Pacific. The officials of the S. P. have been making several trips up to the mountain terminus.

J. H. Fletcher's paper says:

There is a report afloat that the exposition at Portland is to be run in the interest of goldbugism, and already things begin to smack of McKinley. If that be so, we call upon every free silver man in Oregon to give the thing a wide berth.

Hon. Zero Snow, of Portland, attorney for several mighty corporations, but specially retained for the candidate from Ohio of all the trusts and syndicates, to help save Oregon for gold and a king, was in town yesterday and was immediately met at the train by Banker Albert. The gentlemen kept as far from the vulgar herd as possible, and soon all the gold Democrats of Salem were enrolled for the gold standard electors. The gold standard is not enough to suit the tastes of the vast crowd of gold-worshippers. Their ticket must be made up for them by the managers of the biggest corporations, and it is more than probable that if an emblem were allowed by law, a crown of gold would be at the head of their electoral ticket. The close combination between the American bankers who want the British gold standard and the corporations that are run by the German and English stockholders, is so sweet and angelic that hitherto high-minded Americans, who thought our country could have a financial system of its own, are asked to get down on their knees and beg permission to be allowed to vote for gold and a king and at the same time be permitted to kiss the great toe of St. Albert and St. Snow and the rest of the saints of interested politics, while all the rest of the shoddy aristocracy and Mark Hanna worshippers will stand in a respectful attitude and await an opportunity to lay their heads on the block!

A FAST RUN.—When the Salem local left the depot yesterday morning, Engineer Hannigan's watch indicated a delinquency from schedule time, of exactly 21 minutes. An additional loss in time of 5 minutes, was made at Oregon City, but the "local cannon ball" rolled into the Portland depot promptly on time. In the efficient hands of Engineer Hannigan and Fireman Drennan, the train will be operated as near schedule time, as possible.

HURRAH FOR WHEAT!—The schedule of prices at the Salem Flouring mills this morning indicated a raise of 3 per bushel for wheat and today 53 cents was paid for the "golden grain." Grain continues to come in slowly. This will be a welcome bit of information to farmers who have been storing their wheat in anticipation of a raise in the price thereof.

On Saturday there is always a crowd in town—men of all parties, their wives and daughters. A majority of them patronize Strong's restaurant, for the reasons that they get the most and the best for their money.

State Printer W. H. Leeds returned home this morning on the overland.
