A MODEL PLATFORM.

Adopted by the Democrats In National Convention,

The following is the full and com-National Democratic convention:

We, the Democrats of the United States in national convention assembled, do reaffirm our allegiance to those great essential principles of justice and liberty upon which our institu-tions are founded, and which the Democratic party has advocated from Jefferson's time to our own—freedom of speech, freedom of the press, freedom of conscience, the preservation of personal rights, the equality of all citizens before the law, and the faithful observance of constitutional limi-

tations.

During all these years the Democratic party has resisted the tendency of selfish interests to the centralization of governmental power, and steadfastly maintained the integrity of the dual scheme of government established by the founders of this republic of republics. Under its guidance and teachings the great principle of local self-government has found its best expression in the maintenance of the rights of the states. tenance of the rights of the states and in its assertion of the necessity of confining the general government to the exercise of powers granted by the constitution of the United States.

RELIGIOUS FREEDOM.

The constitution of the United States guarantees to every citizen the rights of civil and religious liberty. The democratic party has always been the exponent of political liberty and religious freedom and it renews its obligations and reafirms its devotion to these fundamental principles of to these fundamental principles of the constitution.

FINANCE.

Recognizing that the money question is paramount to all others at this time, we invite attention to the fact that the constitution names silver and gold together as the money metals of the United States, and that the first coinage law passed by congress under the constitution made the silver dollar the money unit, and admitted gold to free coinage at a ratio based upon the silver dollar unit. based upon the silver dollar unit. We declare that the act of 1873 de-

monetizing silver without the knowledge or approval of the American peo-ple has resulted in the appreciation the peeple; a heavy increase in the and impoverishment of the people

We are unalterably opposed to mon-ometallism, which has locked fast the prosperity of an industrial people in paralysis of hard times, Gold mono-metallism is a British policy, and its adoption has brought other nations into financial servitude to London. It is not only un-American, but anti-American, and it can be fastened on the United States only by the stifling of that spirit and love of liberty which proclaimed our political independence in 1776 and won in the war of the revolution.

We demand the free and unlimited coinage of both silver and gold at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be a full legal tender, equally with gold, for all debts, public and private, and we favor such legislation as will prevent for the future the demonetization of any kind of legal tender money by private contract.

BONDS. We are opposed to the policy and practice of surrendering to the holders of the obligations, of the United States, the option reserved by law to the government of redeeming such obigations in either silver coin or gold

We are opposed to the issuing of in terest-bearing bonds of the United States in time of peace, and condemn the trafficking with banking syndi-cates which, in exchange for bonds and at an enormous profit to them-selves, supply the federal treasury with gold to maintain the policy of gold monometallism.

ISSUE OF MONEY.

Congress alone has the power to coin and issue money, and Prerident Jackson declared that this power Jackson declared that this power could not be delegated to corporations or individuals. We therefore de-nounce the issuance of notes intended to circulate as money by national banks as in derogation of the consti-tution, and we demand that all paper which is made a legal tender for public and private debts or which is receivable for duties to the United States shall be be issued by the government of the United States and shall be redeemable in coin.

TARIFF. We hold that tariff duties should be levied for purpose of revenue, such du-ties to be so adjusted as to operate equally throughout the country and not discriminate between class or sec-

riched the few by the expense of the many, restricted trade, and deprived

the income tax. But for this decision by the supreme court there would be no deficit in the revenue under the law passed by a Democratic congress in strict pursuance of the uniform decisions of that court for 100 years, that court having in that decision sustained constitutional objections to its enactment which had preciously been overruled by the ablest judges who have ever sat on the bench. We declare that it is the duty of congress to use all the constitutional power which remains after that decision, or which may come from its reversal by the court as it may hereafter be constituted, so that the burdens of taxation may be equally and impartially laid, to the end that wealth may bear its plete platform as adopted by the due proportion of the expense of the government.

We hold that the most efficient way of protecting American labor is to prevent the importation of foreign pauper labor to compete with it in the home market, and that the value of the home market to our American farmers and artisans is greatly reduced by a vicious monetary system which depresses the prices of their products below the cost of production, and thus deprives them of the means of purchasing the products of our home manufactories, and, as labor creates the wealth of the country, we demand the passage of such laws as may be necessary to protect it in all its rights. necessary to protect it in all its rights.

We are in favor of the arbitration of differences between employers en-gaged in interstare commerce and their employes, and recommend such legislation as is necessary to carry out this principle.

The absorption of wealth by the few, the consolidation of our leading railroad systems, and the formation of trust and pools require a sticter control by the federal government of those arteries of commerce. We de-mand the enlargement of the powers of the interstate commerce commiss-

TAXATION.

We denounce the profligate waste of the money wrung from the people by oppressive taxation and the lavish appropriations of recent Republican congresses, which have kept taxes high while the labor that pays them is unemployed, and the products of the people's toil are depressed in price till they no longer repay the cost of

production.

We demand a return to that simplicity and economy which benefits a Democratic government and a reduction in the number of useless offices, the salaries of which drain the sub-

stance of the people.
FEDERAL INTERFERENCE. We denounce arbitrary interferences by federal authorities in local affairs of gold, and a corresponding fall in as a violation of the constitution of the price of commodities produced by the United States and a crime against free institutions, and we especially burden of taxation and of all debts, public and private; the enrichment of the money lending class at home and abroad, the prostration of industry, in contempt of the laws of the states and rights of citizens, become at once legislators, judges, and executioners and we approve the bill passed at the last session of the United States sen-ate, and now pending in the house of representatives, relative to contempts in federal courts and providing for trials by jury in certain cases of con-

tempt. ANTI-FUNDING. discrimination should be in lulged by the government of the United States in favor of any of its debt-

A well selected text is half of the ser mon. Given a good text and a preacher who is in carnest, and the result is sure to be good. The text of this article is a plain simple statement that proves itself in the reader's own mind without argu-ment. The text is "Good health is bet

ment. The text is "Good health is bet ter than great riches."

Without health nothing really mattern very much. A hacking cough takes all the beauty out of a landscape or a sunset. Brysipelas or ecrema will spoil the enjoyment of sprightly conversation, of a beautiful concert, of a wonderful painting. The biggest bank account in the world won't pay a man for his health, but a very small amount of money will make him healthy and keep him healthy.

Most all bodily troubles start in the digestive or respiratory organs. It is here that improper living first makes as opening for disease. The development differs as constitutions and temperament differ. The causes are almost identical To get at the root of the matter is simple To get at the root of the matter is simple

enough if you start right.

Dr. Pierce's Golden Medical Discovery is a medicine for the whole body. It works through the digestive organs on all the others. It cares the first thing it comes to and

after that, the next. It puts health in place of disease in the stomach, and from place of disease in the stomach, and from the vantage ground thus gained, it reaches every fiber of the body and drives disease before it—indigestion, liver troubles, kidney complaint, biliousness, skin and scalp diseases, salt-rhaum, tetter, eczema, and all the troubles caused by impure blood.

tion, and that tagation should be limited by the needs of the govern-ment honestly and economically adninistrated.

ministrated.

We denounce as disturbing to hasiness the Republican threat to restore the McKinley law, which has twice been condemned by the people in national elections, and which, enacted under the false plea of protection to home industry, proved a prolific breeder of trusts and monopolies, entireled the row by the expense of the the producers of the great American staples of access to their natural mar-

THOOME TAX. Until the money question is settled we are opposed to any agitation for further changes in our tariff laws, except such as are necessary to meet the delicit in revenue caused by the ad-verse decision of the supreme court on

ion and such and such restrictions and and guarantees in in the control of railroads as will protect the people disability before enlistment.

Confiding in the justice of our cause and the necessity of its success at the polls, we submit the foregoing declarand who desire to have effective through legislation for the relief of the people and the restoration of the country's prosperity.
