

FROM MAINE TO TEXAS.

The Tide of Public Opinion is all Favorable to Paine's Celery Compound.

Congressman Bell, of Colorado, One of Those Recently Restored to Health by Paine's Celery Compound.

There is just now no lack of news from the western states. Public opinion in Colorado and Iowa is promptly and accurately heard of from any New England state. From all over the west come reports that Paine's celery compound occupies practically a clear field in the cure of diseases arising from a tired or otherwise impaired nervous system. No other remedy was ever used by so many men of sound and reliable judgment. No remedy but Paine's celery compound has ever been recommended by so conspicuously fair-minded a body of men and women. The half-hearted experimental efforts of scores and scores of sarsaparillas, tonics, and so-called nervines, with which the market is constantly recruited, are in startling contrast with the confident—because thoroughly scientific—way in which Paine's celery compound sets about restoring health and vigor to the worn out body. Why will people be silly enough to jeopardize their lives and lessen their chances of getting well by taking anything else? There is no help so sure and so immediate as one gets from the use of Paine's celery compound. Detailed information of innumerable cases of rheumatism, neuralgia and dyspepsia, completely cured, has established this great invigorator as the most valuable remedy those run down in health can make use of. Women whose stock of nervous energy was well nigh exhausted have been restored to a joyful, contented state of body and mind by this same great nerve and brain restorative. Paine's celery compound is the greatest achievement in modern medicine. It banishes weakness and pain as surely as its famous contemporary, the electric light, dispels darkness. Paine's celery compound frees the body of vicious humors that cause kidney and liver-complaints. Only a great remedy based on a deep knowledge of these diseases could do the work that Paine's celery compound is now doing. Better nutrition for the nerves, an awakened appetite, purified blood and complete assimilation—these follow the conscientious use of Paine's celery compound as surely as day follows night. If you are alarmed by a throbbing of the heart, an irritable stomach, or general debility, be fair with yourself, use the best means there is, examine what Paine's celery compound is doing. It has cured an astonishing number of men and women of Bright's disease, rheumatism, neuralgia, heart and liver trouble. No sufferer can pass lightly over the remarkable record that Paine's celery compound has to show to every sick and ailing person. Among the thousands of testimonials received this year is one recently sent by Congressman John C. Bell, of Colorado, who says he has used three bottles of this best of all remedies for dyspepsia and rheumatism, with the most satisfactory results. Among the testimonials received since January there have been no less than sixteen from congressmen from different states.

MYSTERIOUS MURDER

Two Men Killed and Buried in the Sand.

TWO BANK ROBBERS CAUGHT.

A Nebraska Bank Entirely Ruined By Dynamite.

BOISE, Ida., Oct. 10.—A mysterious double murder is reported in Bruneau valley, Owyhee county. Owing to the isolation of the scene of the tragedy the only details obtainable are as follows:

Two unknown men riding gray horses coming from Little valley to Bruneau, Wyhee county, stopped and had breakfast at Wycoahoney. Shortly after their departure a cattleman came to Bruneau and said that he had found blood stains along the side of the road. A party was made up and proceeded to the scene. Following the trail, a human body was found, face downward buried in the sand. There was a bullet-hole behind the left ear and a shot in the neck. Around the neck was a rope, showing how he had been dragged to his burial place.

W. M. Milligan hove in sight as the man was being dragged across the road. In order to avoid identification the murderer killed Milligan and buried him ten yards from his first victim. A posse is scouring the country for the murderer.

Robbers Caught.

EMMETTSBURG, Ia., Oct. 10.—One man is held at Haylock, another at Superior, supposed to be the Sheldahl bank robbers. Martin county officers traced one to a point six miles west of Emmetsburg, who possibly was the one now held at Haylock.

The Case of the Castles.

LONDON, Oct. 10.—Startling evidence, the Associated Press was heard, will be offered by the police when the case against the Castles is called Tuesday. It is practically certain the public prosecutor will oppose the release of the prisoners on bail.

Demolished.

BRAINERD, Neb., Oct. 10.—The Brainerd bank was practically demolished by burglars, who attacked the safe with dynamite. Cashier Smith engaged in a battle with the burglars and drove them away. No money was lost.

Arrested for Embezzlement.

CORNING, Ia., Oct. 10.—C. L. Cole, cashier of the national bank of this city, has been arrested by a United States marshal on a charge of embezzlement. The bank was forced to sell its business to the First National bank. The deficit is \$16,000.

Work of Incendiaries.

CORNING, Ia., Oct. 10.—Corning was visited yesterday morning by the most disastrous fire in its history. Three hundred thousand dollars worth of property was destroyed. An unknown man was burned to death in a box car. The city was generally pillaged by robbers, who undoubtedly set the fire.

COLD DAMP DUNGEONS.

Unhealthful Quarters Given American Prisoners.

HAVANA, Oct. 10.—Weyler is fooling Lee. The order prohibiting the American consul general from visiting the military prison keeps him from personally investigating the condition of Americans imprisoned there. He has to rely upon what Weyler tells him. In their last interview General Lee complained of the unsanitary condition of the cells American prisoners were in. Weyler replied boldly: "Oh, I have attended to this matter. They have been removed to cells Nos. 41 and 42."

General Lee retired flattered at his supposed success, not knowing the Americans have always occupied cells Nos. 41 and 42. Those cells, by the way, are gloomy and so damp that water oozes from the ceilings and trickles down the walls, wetting the floor, which never dries. In one of these wretched cells are Melton, the American newspaper

man, and George Aguirre, locked up with a man suffering from smallpox. The disagreement between Weyler and Lee continues, the arrested Americans suffering the consequences.

BURNING OF GUAYAQUIL.

Thirty-Five Thousand Persons Rendered Homeless. GUAYAQUIL, Ecuador, Oct. 10.—Three-fourths of this city was reduced to ashes by the fire which began Monday at midnight and raged for 24 hours, sweeping everything in its path. It is estimated that the financial loss to the city will run far up into the millions. Some report it as over \$50,000,000. Many lives were lost—just how many it is impossible to say as yet, and 35,000 persons are homeless.

Two thousand houses, including every bank in the city, of which there are five, the Bank of Ecuador, the Commercial, the Agricultural, the Territorial and the Hepotecario were burned. The custom house, theater and many public buildings were swept away by the flames. This includes everything from Aguirre street to Las Penas, the entire business portion of the city. Practically all the grocery and provision stores were destroyed, and thousands of residents homeless and hungry swarm the streets and neighboring woods.

It is impossible, from the present food supply near and in Guayaquil, to supply the sufferers, and until assistance reaches here from other cities in Ecuador the suffering will be intense. Coming as it did at midnight the fire destroyed many lives before those who were asleep could be warned of the impending danger. Scores are missing, and though it is impossible to estimate the number of dead now, the figures will of necessity be large.

Among the 35,000 homeless ones who fill the streets, the suffering is great. Not only is the food supply extremely low, but the fresh water supply has been exhausted, largely by the efforts of the firemen to extinguish the flames. Now that the fire is out the air is filled with a stifling dust of cinders and ashes which adds greatly to the suffering from thirst. The fire started in a small dry goods store. It is believed that this store was fired by incendiaries. The police have made several arrests so far, and the people are so wrought up that numerous threats to lynch or burn the prisoners at the stake have been made.

Accidental Death.

FOREST GROVE, Or., Oct. 10.—This morning Coroner C. L. Large was called to investigate the cause of the death of Carl Victor Hansen, who lived with his father, J. P. Hansen, about two miles west of this place, on the David Stewart farm. The deceased left home yesterday morning, to hunt some pheasants, and was away about one hour when his mother heard the report of a gun. About one hour afterwards the hunter's dog came home, but seemed anxious to return. The dog led the way to where the boy was found dead. He had either stumbled over the dog or in some way fell so that his gun was discharged, the ball passing through his head from right to left. The deceased was about 15 years old, and a cripple.

BWARE OF THE MONKEY.—Warren W. Davis has learned by experience that it is not wise to "monkey" with a monkey. A few days since Mr. Davis in passing through W. R. Anderson's saloon thoughtlessly thrust the fingers of his right hand between the slats of a cage which contained "Chippie." Old Bill Anderson's well known monkey. The monkey at once seized Mr. Davis' hand severely lacerating the two smallest fingers the first joint, almost removing the nails. Mr. Davis still carries his hand bandaged and will continue to do so for some time.

IN CONFERENCE TODAY

The Democratic Leaders at Chicago.

THE CAMPAIGN IN ILLINOIS.

Red Hot Work From Now Until Election.

CHICAGO, Oct. 10.—A conference of the Democratic leaders was held today in Chairman Jones' office to make final arrangements for the campaign in Illinois. Among those present were Senator Teller, Congressman Hartman, Montana; Towne, Minnesota, and Governor Altgeld. It has been definitely determined that all former Republican silver leaders will stump the state during the closing week of the campaign. Teller is in feeble health and will speak only when health permits. The Republicans are no less active. It is estimated that 50 to 100 meetings will be held every night.

BRYAN AT FARGO.

FARGO, N. D., Oct. 10.—At five o'clock this morning Bryan got up to address a number of early rising enthusiasts, in Bearskin coats. Then he went back to bed and slept to eight o'clock, when Fargo was reached. Bryan breakfasted here with Senator Roach and the reception committee at Hotel Metropole. At 10:15, in baseball park, he delivered a speech one-half hour long.

AT CANTON.

CANTON, Oct. 10.—At noon the streets of Canton are crowded with delegations. The sidewalks were filled with men and women. Railroad men say it will be impossible to get all the crowds waiting, at the connecting railroad points into Canton. With all the great demonstrations seen almost daily at Canton, nothing has yet approached the scenes of today. The railroad men at noon report 200 car loads here or on the way. There are bands of music everywhere.

If he says he has something "just as good" you will know at once that he is trying to sell you an inferior article. There is more clothing destroyed by poor soap than by actual wear, as the free alkali rots the cloth. Hoe Cake contains neither free alkali nor worthless filling.

PROMINENT CONVERT

Recently a Democrat for McKinley.

IS NOW FOR FREE SILVER

Most Talented and Influential Priest in Iowa.

DES MONDES, Ia., Oct. 10.—Rev. Father Nugent of the Church of the Visitation, East Tenth and Walnut streets, is for silver. He is one of the best known orators in the country and Tuesday night will announce his reason for his faith in a political lecture at the tabernacle.

His position on the question has been kept a secret by the silver committees until this time. They think the gold standard men have reached the highest of their local campaign; that they have made their best efforts to get every man in line for McKinley they can, and now the silver men propose to start a reaction. Preparations have been made for a big meeting. Rev. Father Nugent's ability as a student, thinker and orator are well known and the big building will undoubtedly be packed. Father Nugent has but recently returned from a tour of the west and has had every facility to study the question.

Rev. E. A. Cantrell of the Christian church will preside at the meeting. The list of vice-presidents, many of whom it is announced are prominent church men, is being prepared.

[Rev. J. F. Nugent was recently in Salem and was interviewed as a lifelong Democrat who was now supporting McKinley on account of Protection being more important than the money question. He then confessed that he did not fully understand the financial issue but was investigating it.]

Benton County's Sheriff.

CORVALLIS, Or., Oct. 10.—The report of James H. Wilson, appointed to examine the books of Benton county, has caused much comment on the streets. The report shows an apparent shortage in the sheriff's office of more than \$9,300, \$8900 of this amount during the incumbency of ex-Sheriff Osburn. The remainder is in the accounts of ex-Sheriff Mackey. Mr. Mackey is now in British Columbia and Mr. Osburn left for Montana, so no explanation is offered for shortage.

In the county court Mr. Osburn was given until the next session to explain or make good the deficiency. Mr. Osburn is expected home and his friends have an expert to discover flaws in Mr. Wilson's report.

Turned States Evidence.

LA GRANDE, Or., Oct. 10.—Two more arrests have been made of persons alleged to have been engaged in the robbery of the bank in Joseph, Wallawa county, October 1. Today John Martin and Ben Owenby were examined before a justice in Enterprise and held in \$2000 bonds to appear before the next grand jury. James Tucker, the robber that was wounded at the time of the robbery, has turned state's evidence, and it was through him that the arrests were made.
