

PRESIDENTIAL TICKET.

For Independent American Bimetallism and People's Government.

For President, WILLIAM FENNINGS BRYAN. For Vice-President, THOMAS WATSON, of Georgia.

THE OCTOBER MAGAZINES.

A new arrival is the "Journal of Metaphysics," by Harriet W. Dresser, 19 Bagden street, Boston. The editor expresses his purpose as an educational one, being to teach others "persistently and hopefully to think one's self out of ignorance, out of falsity and disease into the realm of freedom, health, strength and many-sided development."

The Bookman for this month has ten departments, all judiciously edited and affording a full sweep of the book world up to date, as the vulgar phrase hath it. The print is beautiful. The matter fresh as a morning garden bouquet, and the illustrations excellent. A person desiring to be well informed about matters literary cannot well be without. Doad, Mend & Co., Fifth Avenue and Twenty-First street, New York.

The Midland, of Des Moines, Ia., begins Grant's Life in the West and his Mississippi Valley campaigns, by Col. John W. Emerson. The papers are enriched with reproductions of pictures showing St. Louis and the Western country in the forties and the fifties. "How Oregon was saved to the Union," by William W. Phelps, is a sketch of the great services of Marcus W. Whitman. It points in the minor key were useful or necessary, the one "When the Tide is Low," by Lizzie Clark Hardy, were certainly worth printing. The variety in this number is excellent, and the Midland must cause every Iowan a thrill of pride.

"The Philistine" of East Aurora, N. Y., is not an aspirant for popular favor, yet for downright fun and intellectual enjoyment, it is what Sir Isaac Newton would call specific caloric. "An Ombrous Baby" in this number by Stephen Crane is matter to cause anyone with a particle of grey stuff in his cranium an intellectual sweat.

The Kindergarten magazine and Journal of the New Education of Chicago, is what might be termed a William T. Harris number. The leading article is from the pen of the national commissioner of education, and there is also an editorial review by the editor, Miss Amalie Hofer, entitled "Recognition for National Commissioner of Education." In the world of politics where education seldom receives the first consideration, our country is to be congratulated on having a man of culture and ideas at the head of its school interests. What is more to be rejoiced over is the fact that Dr. Harris does not hesitate to apply his culture and his ideas in the administration of his high office as far as his political environment will allow. This fact is not brought out in the K. G. magazine review but is known to all who have come in contact with practical politics. No teacher can be in touch with the great national movement in pedagogics and the humanization of the noblest of professions without being a reader of the Journal of the New Education.

A Worthy Cause. By reference to our advertising columns it will be seen that Dr. Gregory DeKantner, the well known Russian traveler, has consented to give for the first time, to a Salem audience, his stereo-electrical entertainment, embracing views of the Coronation of the czar of Russia, as well as many views of local interest, including some political cartoons indicative of the questions now before the people, he has consented to give this new entertainment for the benefit of the Salem hospital, an institution that in which every citizen of Salem is interested. Save Wednesday evening next for attendance at the opera house and contribute your mite to the support of the hospital.

Condensed Testimony. Chas. B. Hood, Broker Manufacturer's Agent, Columbus, Ohio, certifies that Dr. King's New Discovery is equal as a cough remedy. J. D. Brown, prop. St. James Hotel, Ft. Wayne, Ind., testifies that he was cured of a cough of two years standing, caused by la grippe, by Dr. King's New Discovery. B. F. Merrill, Baldwinville, Mass., says that he has used and recommended it and never knew it to fail and would rather have it than any doctor, because it always cures. Mrs. Hemming, 222 E. 25th St., Chicago, always keeps it at hand and has no fear of croup, because it instantly relieves. Free trials bottles. Fred A. Legg's drug store.

INTERVIEW OF J. H. MITCHELL.

Given at the Marlborough Hotel, N. Y. April 20, 1896. "I am afraid the Democratic party will make concessions to the silver in the platform adopted at the next national convention. If it does, despite all past mistakes, it will sweep the country. If neither party give silver the recognition it deserves a new party will spring up that will sweep the country like wildfire. I think the result of the Denver conference will be to make the Republican party realize fully the gravity of the situation, and may lead to its adopting a more liberal policy toward silver at the next Republican national convention."

University Political Clubs.

A goodly representation of the "Students' McKinley and Hobart Club" met at the city council chambers and perfected arrangements for participating in the big Republican "blow out" on Friday, the 24th inst. A general arrangement committee was appointed consisting of C. J. Atwood, J. H. Bennett, J. H. Van Winkle, G. C. Miller and R. W. Davis. The club now has a membership of 93, including students of both sexes.

The "Students' Bryan Free Silver club" held another meeting Thursday afternoon where a permanent organization was effected with the following officers: President, C. K. Brandenburger; vice-president, J. G. Gailson; secretary, J. W. Cochran. The temporary committee on membership was made permanent and instructed to begin work at once towards enrolling students both ladies and gentlemen. The club expects to have an enrollment that will compare favorably with that of the opposition. The club adjourned subject to call of the president.

DETROIT.

The Hon. J. H. Kruse, of Portland, spoke here last night for Bryan and free silver to the largest and most enthusiastic house, that there has been in the present campaign. After the house had adjourned some one called out, "let's have a Bryan free silver club boys," and it was seconded with cheers, upon which they elected R. N. Hoover for president and Tom Watson for secretary, and got 37 to sign the club in less than a half hour, beating the gold standard club that has been organized for four weeks. If the sentiment all over the United States was as evident as it is in Breitenbush precinct, there would be no need of a campaign to elect Bryan.

In Memoriam.

On Tuesday, October 8, 1896, sorrowing relatives and friends laid to rest in the Aumsville cemetery, the remains of Allie Eastburn. Her death is deeply felt, not only by parents, but by her friends and schoolmates. She was a bright little girl, of gentle disposition, naturally unselfish and truthful. Her greatest delight was to make her playmates happy.

Fold the little hands so waxen O'er the pulseless, darling breast; For our little Allie is sleeping In death's long and dreamless rest.

Press the gold-fringed eyelids gently; O'er the sunny trusting eyes; Eyes that closed on earth forever Open up in paradise.

Vain we question why it happened How it can be for the best, Asking why those feet so early On their journey needed rest.

Yet who would wish to call our Allie From her home of light above? Who would ask that God had left her Here to cheer us with her love.

Even with our love to guide her In the path of good and right— Would she still have entered heaven With a soul so pure and white? —BY A FRIEND.

STILL ANOTHER.—O. Brown, aged 10 years, of Prineville, Crook county, was yesterday placed in the reform school.

Full many a gem of purest ray serene The dark unfathomed caves of ocean bear, And many a flower is made to blush unseen, And waste its sweetness on the desert air.

—Grey's Elegy in a Churchyard. Such is not the case with "Oxyvita." It is here among you. Anyone may be released of their untold ills, by using this inestimable boon to man and womankind. A. B. Slin, resident agent, Chatwin House, Salem.
