

The Official Ballot

The Four Sets of Presidential Electors in Oregon.

The official Australian ballot for Oregon, to be voted on Tuesday, Nov. 2, is printed below.

The McKinley and Hobart electors also claim to be Bimetallists, to be brought about by international agreement with European nations.

The gold standard (National) Democratic electors also claim to be Democratic.

Good Blood

Hood's Sarsaparilla

It is essential to health. Every nook and corner of the system is reached by the blood, and on its quality the condition of every organ depends. Good blood means strong nerves, good digestion, robust health. Impure blood means scrofula, dyspepsia, rheumatism, catarrh or other diseases. The surest way to have good blood is to take Hood's Sarsaparilla. This medicine purifies, vitalizes, and enriches the blood, and sends the elements of health and strength to every nerve, organ and tissue. It creates a good appetite, gives refreshing sleep and cures that tired feeling. Remember, and cures that tired feeling. Remember, and cures that tired feeling.

Hood's Pills cure Liver Ills; easy to take, easy to operate. 25c.

A MODEL PLATFORM.

Adopted by the Democrats in National Convention.

The following is the full and complete platform as adopted by the National Democratic convention:

We, the Democrats of the United States in national convention assembled, do reaffirm our allegiance to those great essential principles of justice and liberty upon which our institutions are founded, and which the Democratic party has advocated from Jefferson's time to our own—freedom of speech, freedom of the press, freedom of conscience, the preservation of personal rights, the equality of all citizens before the law, and the faithful observance of constitutional limitations.

During all these years the Democratic party has resisted the tendency of selfish interests to the centralization of governmental power, and steadfastly maintained the integrity of the dual scheme of government established by the founders of this republic.

Under its guidance and teachings the great principle of local self-government has found its best expression in the maintenance of the rights of the states and in its assertion of the necessity of confining the general government to the exercise of powers granted by the constitution of the United States.

RELIGIOUS FREEDOM.

The constitution of the United States guarantees to every citizen the rights of civil and religious liberty. The Democratic party has always been the exponent of political liberty and religious freedom and it renews its obligations and reaffirms its devotion to these fundamental principles of the constitution.

FINANCE.

Recognizing that the money question is paramount to all others at this time, we invite attention to the fact that the constitution names silver and gold together as the money metals of the United States, and that the first coinage law passed by congress under the constitution made the silver dollar the money unit, and admitted gold to free coinage at a ratio based upon the silver dollar unit.

We declare that the act of 1873 demonetizing silver without the knowledge or approval of the American people is a heavy increase in the burden of taxation and of all debts, public and private; the enrichment of the money lending class at home and abroad; the prostration of industry and impoverishment of the people.

We are unalterably opposed to monometallism, which has locked fast the prosperity of an industrial people in paralysis of hard times. Gold monometallism is a British policy, and its adoption has brought other nations into financial servitude to London. It is not only un-American, but anti-American, and it can be fastened on the United States only by the stifling of that spirit and love of liberty which proclaimed our political independence in 1776 and won in the war of the revolution.

FREE COINAGE.

We demand the free and unlimited coinage of both silver and gold at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be a full legal tender, equally with gold, for all debts, public and private, and we favor such legislation as will prevent for the future the demonetization of any kind of legal tender money by private contract.

BONDS.

We are opposed to the policy and practice of surrendering to the holders of the obligations of the United States, the option reserved by law to the government of redeeming such obligations in either silver coin or gold coin.

We are opposed to the issuing of interest-bearing bonds of the United States in time of peace, and condemn the trafficking with banking syndicates which, in exchange for bonds and at an enormous profit to themselves, supply the federal treasury with gold to maintain the policy of gold monometallism.

ISSUE OF MONEY.

Congress alone has the power to coin and issue money, and President Jackson declared that this power could not be delegated to corporations or individuals. We therefore denounce the issuance of notes intended to circulate as money by national banks as in derogation of the constitution, and we demand that all paper which is made a legal tender for public and private debts or which is receivable for duties to the United States shall be issued by the physicians connected with this widely celebrated institution have made the treatment of the diseases hinted at above their specialty. Thousands have consulted them by letter and received advice and medicines which have resulted in permanent cures.

Patients from premature old age, or loss of power, will find much of interest in the book above mentioned.

tion, and that taxation should be limited by the needs of the government honestly and economically administered.

We denounce as disturbing to business the Republican threat to restore the McKinley law, which has twice been condemned by the people in national elections, and which, enacted under the false plea of protection to home industry, proved a prolific breeder of trusts and monopolies, enriched the few by the expense of impoverishing the many, restricted trade, and deprived the producers of the great American staples of access to their natural markets.

INCOME TAX.

Until the money question is settled we are opposed to any agitation for further changes in our tariff laws, except such as are necessary to meet the deficit in revenue caused by the adverse decision of the supreme court on the income tax. But for this decision by the supreme court there would be no deficit in the revenue under the law passed by a Democratic congress in strict pursuance of the uniform decisions of that court for 100 years, that congress having in that decision sustained constitutional objections to its enactment which had previously been overruled by the ablest judges who have ever sat on the bench. We declare that it is the duty of congress to use all the constitutional power which remains after that decision, or which may come from its reversal by the courts, to meet the deficit in revenue, so that the burdens of taxation may be equally and impartially laid, to the end that wealth may bear its due proportion of the expense of the government.

LABOR.

We hold that the most efficient way of protecting American labor is to prevent the importation of foreign pauper labor to compete with it in the home market, and that the value of the home market to our American farmers and artisans is greatly reduced by a vicious monetary system which depresses the prices of their products below the cost of production, and thus deprives them of the means of purchasing the products of our home manufacturers and, as labor creates the wealth of the country, we demand the passage of such laws as may be necessary to protect it in all its rights.

We are in favor of the arbitration of differences between employers engaged in interstate commerce and their employees, and recommend such legislation as is necessary to carry out this principle.

The absorption of wealth by the few, the consolidation of our leading railroad systems, and the formation of trust and pools require a stricter control by the federal government of those arteries of commerce. We demand the enlargement of the powers of the interstate commerce commission and such such restrictions and guarantees as will protect the people from robbery and oppression.

TAXATION.

We denounce the profligate waste of the money wrung from the people by oppressive taxation and the lavish appropriations of recent Republican congresses, which have kept taxes high while the labor that pays them is unemployed, and the products of the people's toil are depressed in price till they no longer repay the cost of production.

We demand a return to that simplicity and economy which benefits a Democratic government and a reduction in the number of useless offices, the salaries of which drain the substance of the people.

FEDERAL INTERFERENCE.

We denounce arbitrary interferences by federal authorities in local affairs as a violation of the constitution of the United States and a crime against free institutions, and we especially object to government by injunction, a new and highly dangerous form of oppression, by which federal judges in contempt of the laws of the states and rights of citizens, become at once legislators, judges, and executioners, and we approve the bill passed at the last session of the United States senate, and now pending in the house of representatives, which provides for trials by jury in certain cases of contempt.

ANTI-FUNDING.

No discrimination should be indulged by the government of the United States in favor of any of its debtors.

Other lines are longer than this, but none are shorter, and no other offers the above luxurious accommodations. These are sufficient reasons for the popularity of "The Milwaukee." THE COMPARTMENT SLEEPING CARS

In service on the Burlington Route between St. Paul and Chicago are a new thing comparatively. Only a few lines use them. The "First Western" road to do so was the Burlington Route.

For ladies traveling alone or with escort, nothing as the compartment sleeper has ever been invented. Each compartment has its own washstand and toilet convenience. There is plenty of room to dress. And absolute privacy—an impossibility in an ordinary sleeper is assured.

Dr. Miles' Nervine Restores Health.

A widely known Wisconsin publisher, who resides at Green Bay, writes March 6th, 1895, as follows:

"Five years ago I became so nervous that mental work was a burden. I could not rest at night on account of sleeplessness. My attention was called to Dr. Miles' Restorative Nervine, and I commenced to use it with the very best effect. Since then I have kept a bottle in my house and use it whenever my nerves become unstrung, with always the same good results. My son also takes it for nervousness with like never failing success. I have recommended it to many and it cures them. All who suffer from nerve troubles should try it. It is free from narcotics, perfectly harmless, and yet soothes and strengthens. Dr. Miles' Nervine is a benefactor to thousands."

Editor and proprietor of THE LEHMAN.
Dr. Miles' Nervine is sold on guarantee that money will be refunded.
