## SCHOOL REPORT.

Supt. Peeble's Well-Regulated Public Schools.

A Summary of Superintendent Peeble's regular monthly report to the school board for the month of school ending October 23, presents the following statistics relative to the enrollment, etc., etc.

Number of days taught for school month, 19. (A vacation of one day was granted during the state fair.)

Whole number of days' attendance, 24,569.

Whole number of days' absence, 9794.

Total cases of tardiness, 46.

Whole number of boys enrolled, 760.

Whole number girls enrolled, 725.

Total number of pupils enrolled, 1,485.

Total number of pupils registered with the school clerk as desiring to attend school to October 23, 1,549.

Average number belonging during the month, 1,349.

Average daily attendance, 1,200.

Number remaining in school October 23, 1,364.

Whole number neither absent nor tardy during the month, 791.

Cases of corporal punishment, 10.

Cases of suspension, 1.

Number of visitors, 149.

The school making best record for attendance and punctuality—the Lincoln school.

The school may now be said to be in good working order. Several important changes in the grammar grade classes have been made by the superintendent. Additional classes have been formed at the Lincoln school.

They are 6-a, 7-b and 7-a classes. This change was made in response to a petition of patrons and with the consent of the principal and the teachers of the Lincoln school. Much additional work is thus imposed upon the teachers of that school though the patrons, whose children are specially concerned in the matter, are greatly pleased with the superintendent's action.

Twelve or more pupils are saved an extra two-mile walk each day in order to reach a school building where class accommodations for them existed.

The entire 7-A class at North school was transferred to the East school. This action was done in order to relieve Mr. Garland of a class and at the same time gives the pupils concerned a better opportunity for the personal attention of the teacher. Mr. Garland has two classes numbering in all 40 or more pupils after this change made.

Some complaints have been made during the month of boys belonging to the schools, engaging in quarreling and fighting on the road home from school. The matter has received prompt attention. The school authorities reserve the right to administer corporal punishment or even to suspend pupils from school for such outrageous conduct. It is to be hoped no further complaints may be necessary on this score. Patrons are earnestly requested to cooperate with the teaching in maintaining good discipline.

LABOR EXCHANGE BALL.—There will be a grand ball given at the Labor Exchange hall. The best of music. An enjoyable time guaranteed. Tickets 50c. Refreshments and supper at reasonable prices. Everybody invited. Friday evening, Oct. 30.

## THE MARKETS.

The Money Market.

NEW YORK, Oct. 29.—The somewhat apathetic speculation in stocks today was enlivened by the extreme stringency of rates for call money. The first loan was made at 10 per cent. The rate then jumped to 15 per cent and at 2:45 p. m. was 100 per cent and in brisk demand. Business was only moderate, as the offerings of funds were extremely light. The immediate cause of the stringency was the calling of loans by some of the banks that wished to prepare themselves for the possible large demands tomorrow. Banks as a rule are reserving their surplus funds for the accommodation of their regular customers who are being supplied at six per cent.

California Wheat.

SAN FRANCISCO, Oct. 29.—Wheat began climbing upwards today, ascending nine points over the low point of yesterday. Brokers have great expectations of much higher prices until the eve of election day and there is much betting on a big rise up to Monday night. December wheat opened yesterday at \$1.30 per cental and closed at noon today at \$1.381. May opened yesterday at \$1.34 and closed at noon today at \$1.431.

Chicago Market.

CHICAGO, Oct. 29.—Wheat opened decidedly strong but nervous this morning. December advanced quickly from 71 1/2 to 72, the opening price, to 73 cents. The northwest receipts showed a considerable increase over last year. This started prices downward, December touching 72 1/2. Later cables showed further advance and the price quickly shot up again to 73 1/2. Reaction to 72 1/2.

London Market.

LONDON, Oct. 29.—At Baltic today, holders of wheat were asking 5d advance. The market was steadier. Twelve thousand quarters of California wheat, November delivery was sold 33s 3d.

New York, Oct. 29.—Silver, 65c; lead 2 60.
