

Sample Ballot.

Following is the official ballot for Marion county, Oregon, November 3, 1896:

VOTE FOR FOUR.

Mark between the number and name of each candidate voted for.

For president of the United States..... W. J. Bryan, of Nebraska.
For vice-president of the United States..... T. E. Watson, of Georgia.

FOR PRESIDENTIAL ELECTORS.

1. N. L. Butler, of Monmouth, Polk county.....	2. W. H. Spauld, of Harrisburg, Linn county.....
3. H. Hofer, of Salem, Marion county.....	4. Harry Watkins, of McMinnville, Yamhill county.....

The X before the name above shows how a voter should mark his ticket in order to cast his ballot for Wm. J. Bryan for president. Beware of the ticket labeled "National Democratic." It is the McKinley-Hamm sideshow. In the Marion county ticket, the Bryan electors will be the third group names on the ticket, and should be marked as above.

STATE NEWS.

Albany Ladies Bryan club now numbers over 500.

H. Lampton, a former Albany man, recently received an appointment to the Portland police force.

Brownsville has a ladies' Bryan club with the following officers: President, Mrs. J. J. Brown; vice-president, Mrs. Annie Blythe; secretary, Mrs. A. P. Chandler; treasurer, Mrs. F. M. Howell.

In an open letter to an Oregon City paper, Mr. Rinearsen declares for Bryan and free silver in no uncertain terms. The Rinearsens are pioneers in Clackamas county, and their influence will result in much good to the silver cause.

The town of Wasco bids fair to be supplied with artesian water. P. L. Metzger has a well at the Wasco house in which an abundant and inexhaustible supply of water was found. The water rises to within 25 feet of the surface and is pure and cold.

E. T. Slayton, of Prineville, says in the campaign progresses in Crook county the supposed majority of 300 that was to be recorded for McKinley has dwindled down so that the conservative republicans concede that Bryan will carry the county. His majority in Crook is now estimated at from 150 to 200.

Corvallis Times: The government having the finishing touches put on boat just built for river "snagging," and she is to start to work about the first of the month. The Faciomah will start out from Portland but whether she will work upon the Willamette or not is as yet a matter of conjecture.

Messrs. Kelley, Cannon and Elkins, three of Albany's rising young attorneys made their maiden political speeches at the Jones school house three miles beyond Millers, Saturday evening. The house was full. An old resident who was present says there were only thirteen McKinley men present, including the speakers; three of whom reside in the vicinity and seven at Jefferson. Three cheers were given for McKinley by the thirteen and three cheers for Bryan by nearly fifty.

Let every voter in the union forces at the grand clean up next Tuesday see that the ticket is properly counted. Don't allow a doubtful character to attempt to vote. Every man should believe in an honest ballot and a fair count.

Hurray for the single gold standard Chairman!

Put out your flag Saturday.

Nervous

People find just the help they so much need, in Hood's Sarsaparilla. It furnishes the desired strength by purifying, vitalizing and enriching the blood, and thus builds up the nervous system, tones the stomach and regulates the whole system. Read this:

"I want to praise Hood's Sarsaparilla. My health ran down, and I had the grip. After that, my heart and nervous system were badly affected, so that I could not do my own work. Our physician gave me some help, but did not cure. I decided to try Hood's Sarsaparilla. Soon I could do all my own housework. I have taken Hood's Pills with Hood's Sarsaparilla, and they have done me much good. I will not be without them. I have taken 12 bottles of Hood's Sarsaparilla, and through the blessing of God, it has cured me. I worked as hard as ever the past summer, and I am thankful to say I am well. Hood's Pills when taken with Hood's Sarsaparilla help very much." Mrs. M. M. MESSINGHAM, Freehold, Penn.

A MODEL PLATFORM.

Adopted by the Democrats in National Convention.

The following is the full and complete platform as adopted by the National Democratic convention:

"We, the Democrats of the United States in national convention assembled, do reaffirm our allegiance to those great essential principles of justice and liberty upon which our institutions are founded, and which the Democratic party has advocated from Jefferson's time to our own—Freedom of speech, freedom of the press, freedom of conscience, the preservation of personal rights, the equality of all citizens before the law, and the faithful observance of constitutional limitations.

During all these years the Democratic party has resisted the tendency of selfish interests to the centralization of governmental power, and steadfastly maintained the integrity of the dual scheme of government established by the founders of this republic of republics. Under its guidance and teachings the great principle of local self-government has found its best expression in the maintenance of the rights of the states and in its assertion of the necessity of confining the general government to the exercise of powers granted by the constitution of the United States.

RELIGIOUS FREEDOM.

The constitution of the United States guarantees to every citizen the rights of civil and religious liberty. The democratic party has always been the exponent of political liberty and religious freedom and it renews its obligations and reaffirms its devotion to these fundamental principles of the constitution.

FINANCE.

Recognizing that the money question is paramount to all others at this time, we invite attention to the fact that the government has hoarded silver and gold together as the money metals of the United States, and that the first coinage law passed by congress under the constitution made the silver dollar the money unit, and admitted gold to free coinage at a ratio based upon the silver dollar unit.

We declare that the act of 1873 demonetizing silver without the knowledge or approval of the American people has resulted in the appreciation of gold, and a corresponding fall in the price of commodities produced by the people; a heavy increase in the burden of taxation and of all debts, public and private; the enrichment of the money lending class at home and abroad, the prostration of industry, and impoverishment of the people.

We are unalterably opposed to monometallism, which has locked fast the prosperity of an industrial people in paralysis of hard times. Gold monometallism is a British policy, and its adoption has brought other nations into financial servitude to London. It is not only un-American, but anti-American, and it can be fastened on the United States only by the stifling of that spirit and love of liberty which proclaimed our political independence in 1776 and won in the war of the revolution.

FREE COINAGE.

We demand the free and unlimited coinage of both silver and gold at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be a full legal tender, equally with gold, for all debts, public and private, and we favor such legislation as will prevent for the future the demonetization of any kind of legal tender money by private contract.

BONDS.

We are opposed to the policy and practice of surrendering to the holders of the obligations of the United States, the option reserved by law to the government of redeeming such obligations in either silver coin or gold coin.

We are opposed to the issuing of interest-bearing bonds of the United States in time of peace, and condemn the trafficking with banking syndicates which, in exchange for bonds and at an enormous profit to themselves, supply the federal treasury with gold to maintain the policy of gold monometallism.

INTERFERENCE OF MONEY.

Congress shall have the power to coin and issue money, and President

Jackson declared that this power could not be delegated to corporations or individuals. We therefore denounce the issuance of notes intended to circulate as money by national banks as in derogation of the constitution, and we demand that all paper which is made a legal tender for public and private debts or which is receivable for duties to the United States shall be issued by the government of the United States and shall be receivable as coin.

TARIFFS.

We hold that tariff duties should be levied for purpose of revenue, such duties to be so adjusted as to operate equally throughout the country and no discrimination between class or section, and that taxation should be limited by the needs of the government honestly and economically administered.

We denounce as disturbing to business the Republican threat to restore the McKinley law, which has twice been condemned by the people in national elections, and which, enacted under the false plea of protection to home industry, proved a prolific breeder of trusts and monopolies, enriched the few by the expense of the many, restricted trade and deprived the producers of the great American staples of access to their natural markets.

INCOME TAX.

Until the money question is settled we are opposed to any agitation for further changes in our tariff laws, except such as are necessary to meet the deficit in revenue caused by the adverse decision of the supreme court on the income tax. But for this decision by the supreme court there would be no deficit in the revenue under the law passed by a Democratic congress in strict pursuance of the uniform decisions of that court for 100 years, that court having in that decision sustained constitutional operations in its own right, and having precisely been overruled by the ablest judges who have ever sat on the bench. We declare that it is the duty of congress to rescind the constitutional power which remains after that decision, or which may come from its reversal by the court as it may hereafter be constituted, so that the duties of taxation may be levied and impartially laid, to the end that wealth may bear its due proportion of the expense of the government.

LABOR.

We hold that the most efficient way of protecting American labor is to prevent the importation of foreign labor to compete with it in the home market, and that the value of the home market to our American farmers and artisans is greatly reduced by a vicious monetary system which depresses the prices of their products below the cost of production, and thus deprives them of the means of purchasing the products of our home manufactures, and, as labor creates the wealth of the country, we demand the passage of such laws as may be necessary to protect it in all its rights.

We are in favor of the arbitration of differences between employers engaged in interstate commerce and their employees, and recommend such legislation as is necessary to carry out this principle.

The absorption of wealth by the few, the consolidation of our leading railroad systems, and the formation of trust and pools require a sterner control by the federal government of those arteries of commerce. We demand the enlargement of the powers of the interstate commerce commission and such such restriction of tax and other duties as will protect the people from robbery and oppression.

TAXATION.

We denounce the profligate waste of the money wrung from the people by oppressive taxation and the lavish appropriations of recent Republican congresses, which have kept taxes high while the labor that pays them is unemployed, and the products of the people's toil are depressed in price till they no longer repay the cost of production.

We demand a return to that simplicity and economy which benefits a Democratic government and a reduction in the number of useless offices, the salaries of which drain the substance of the people.

FEDERAL INTERFERENCE.

□ We denounce arbitrary interferences by federal authorities in local affairs as a violation of the constitution of the United States and a crime against

free institutions, and we especially object to government by injunction as a new and highly dangerous form of oppression, by which federal judges and the courts, become at once legislators, judges, and executioners, and we approve the bill passed at the last session of the United States senate, and now pending in the house of representatives, relative to contempt of trials by jury in certain cases of contempt.

ANTI-FUNDING.

No discrimination should be indulged by the government of the United States in favor of any of its debtors. We approve of the refusal of the Pacific railroad funding bill, and denounce the efforts of the present Republican congress to enact a similar measure.

PENSIONS.

Recognizing the just claims of deserving union soldiers we heartily endorse the rule of the present commissioner of pensions that no names shall be arbitrarily dropped from the pension roll, and the fact of enlistment and service should be deemed conclusive evidence against disease and disability before enlistment.

TERRITORIES.

We favor the admission of the territories of New Mexico, Arizona and Oklahoma into the United States, and we favor the early admission of all the territories having the necessary population and resources to entitle them to statehood, and while they remain territories, we hold that the officials appointed to administer the government of any territory together with the District of Columbia and Alaska, should be bona fide residents of the territory or district in which the duties are to be performed. The Democratic party believes in home rule and that all public lands and timberlands of the United States should be appropriated to the establishment of free homes for American citizens. We recommend that the territory of Alaska be granted a delegate in congress, and that the general land and timber laws of the United States be extended to that territory.

MONROE DOCTRINE.

The Monroe doctrine is originally declared, and as interpreted by succeeding presidents, is a permanent part of the foreign policy of the United States, and must at all times be maintained.

CUBA.

We extend our sympathy to the people of Cuba in their heroic struggle for liberty and independence.

THIRD TERM.

We are opposed to life tenure in the public service. We favor appointments based upon merit, fixed term of office, and such an administration of the civil service laws as will afford equal opportunities to all citizens of ascertained fitness. We declare it to be the unwritten law of this republic established by custom and usage of one hundred years and sanctioned by the examples of the greatest and wisest of those who founded and have maintained our government, that no man should be eligible for a third term in the presidential office.

WATERWAYS.

The federal government should care for and improve the Mississippi river and other great waterways of the republic, so as to secure for the interior states easy and cheap transportation to tidewater. When any waterway of the republic is of sufficient importance to demand aid of the govern-

ment such aid should be extended upon a definite plan of continuous work until permanent improvement is secured.

Conceding in the justice of our cause and the necessity of its success at the polls, we submit the foregoing declarations of principles and purposes to the considerable judgment of the American people. We invite the support of all citizens who approve them and who desire to have them made effective through legislation for the relief of the people and the restoration of the country's prosperity.
