BRYAN'S BATTLE.

It was a grand fight by a grand as was Lincoln in 1860. He made a square fight on principle. He cringed to no elements of wealth or power. He solicited no gold votes. He had arrayed against him all the ultra-conservative forces of society

In every large city a monster parade was held Saturday night before election, representing all the business, the capital, the corporations, and the officialism of the nation. On Sunday the pulpit was arrayed against Bryan and his cause as never before in American polities. The victory, if a vic tory, is dearly bought.

While Bryan had to contend with hostile forces of money and morality for revenue, he had to suffer inroadon his own forces from the differenceamong them on the tariff question as well as the money question. The ablest Democrats in the nation have been accustomed to waging a campaign on the tariff issue. Many able men believed that the tariff issue should have been pressed. Others belleved not. Bryan's opponents pressed the tariff issue or the money issue as it suited them. Bryan was handicapped by the money question which was not fully understood.

REPEATING IN OREGON.

There is little doubt but that systematic repeating was conducted in the Oregon election. No state has such loose election laws as Oregon. They are a disgrace to the state, from the rotten primaries of Portland to the running in of floaters and non-residents in every county precinct on election day.

Oregon is one state in the nation where a man can vote in any precinct he pleases. In no other state can a voter vote outside the precinct where he lives. In Oregon there is no registration or restriction upon the veter

The greatest need of Oregon is a tion it affords is to the boss, and an election law that fosters dishonesty and corruption at the polls.

BRYAN'S BRAVE FIGHT.

Whother Mr. Bryan is elected president or not, or whether he ever comes before the public again in a public capacity, he has rendered the nation greater service than any other man during the past quarter of a century. If defeated he will be a greater man than the president, and his cause will continue to be great in the hearts of the people. He has unselfishly and devotedly represented the interests of the great toiling masses, and even though he should remain a private citizen the common people of this great land will hold him in everlasting esteem for his services during this campaign.

OUR NEIGHBOR STATE.

In Washington the silver forces have won a decided victory. The people of that state are not a bit less intelligent than those of Oregon nor more inclined to anarchistic sentiments, and in the race of progress that state will quite hold itsown with Oregon. Yet in Washington with four larger cities and six large newspapers silver wins. In Washington Senator Squire, a Republican, united himself with the silver forces, while in Oregon Senator Mitchell, a silver senator, went gold and no doubt Senator Mitchell will get his reward. We congratulate the silver leaders of Washington on their yictory and the Spokesman-Review on its fight.

Of course THE JOURNAL will open its columns to doubling the space of all advertisers who enjoy the greater prosperity.

BUILD UP OREGON

The people have had quite enough of politics. It is now our duty to go forward and build up the moral, political and material interests of the Some Encouraging Words state. Let us unite for the days of prosperity that are promised and we belleve in a measure certain to be re-

man. He is as distinctly a new type hind in the past few years, when so many towns have. Our city has kept well up in the front rank of the procession of towns of its size and even made some progress. We have lost some population, perhaps, but we have lost no great material interest, except

a bank and an Insurance Company, Our Woolen Mills are again running, the Flouring Mills are prosperous, the Sawmills will now run steadily, the song of the hammer and saw will soon be heard in the land and the panks must let out their money, if both sides in this political campaign have not been liars.

Salem should urge her business men to press forward for three things that we believe are in sight, viz: the flax industry, a creamery and a sugar beet industry. These things are in reach, with wise co-operation, and will and can no doubt be undertaken.

RELIGION AND POLITICS.

The November "Christian Endeavor" reaches us too late for this campaign but it contains a strong plea on its "Christian Citizenship" page for the gold standard and the suppression of the Seventh Day Ad-

There is no doubt but that while the voters of our country were that both states are close; we have a strongly opposed to the gold standard, better chance to win each and may millions of them were appealed to as members of the churches to uphold the gold standard, as nearly all the religious papers were on that side.

Intense, excruciating pain, generally followed any severe exertion. Result Uncertain Until the Vote Counted.

[LAST NIGHT'S DISPATCHES.]

CHICAGO, Nov. 5 .- Senator Jones is sued the following statement late last

I have counted from the beginning, as the states' upon which we relied upon for Mr. Bryan's election, the Southern states at 156 votes, and the states west of the Missouri 56, making a total of 257. I had hoped that we would carry Indiana, Michigan and Minnesota. I believe we have carried every Southern state except Maryland and that we have carried all of the western states heretofore counted on which leaves us, not counting Delaware, which I have heretofore not calculated on,209 votes. One vote we certainly have in Defaware and probably three. But counting only one vote, which we have beyond doubt, it leaves necesary to choice fourteen votes; either Michigan or Indiana would give us these fourteen yotes. Reports received by us from both these states are encouraging and lead us to believe

gives out the following: "The na tional Democratic committee claims enough votes to give a majority in the electoral college, but the vote is very close in several of the states and until the entire vote is counted. In close contests, it is wise for both sides to watch the returns to guard against the possibility of mistake, inten-

tional or unintentional." BUTLER AND EDGERTON.

WASHINGTON, Nov. 5 .- Late last evening Chairman Butler, of the national Populist committee, is not ready to concede the election of Mc-Kinley, but says:

Every report from the back districts is in our favor. This especially is true in South Dakota, which we have car-ried and Kentucky, which looks more bringing beauty. A clear skin, bright eyes, red lips and the vivacity which bodily good feeling brings, will make favorable by later returns. Our best districts are in the country and we

County Commissioner's Proceedings. County Judge G. P. Terrell and Commissioners J. M. Watson and J. N. Davis sat yesterday as the November term of the Marion county commissioners' court, but on account of the excitement incident to the result of Tuesday's election, no business other than that of auditing a few bills was transacted. The court will settle down today and pass on the several petations which have been filed with the clerk:
