CHARGED WITH LARCENY.

One, Zonig, is Arrested But Promptly Discharged From Custody.

Just before the Salem local departed for Portland this morning Chief of Police A. C. Dilley took into custody a well-dressed gentleman, having the appearance of a traveling man, just as he was boarding the train.

Upon inquiry it was learned that the man had been stopping at the Allie boarding house, on Front street, and during his short stay in our city had become enamored after the young lady.

Zonig claims the affair was a trumped-up charge, in order that he might be placed in a bad light before the public. He has the appearance of being an honest, industrious fellow, and was not a little surprised when arrested at the depot this morning.

MAKES THE WEAK STRONG.

The Foremost Athletic Trainer in America Recommends Paine's Celery Compound.

John Graham is the foremost man in American athletics.

It was he who managed the successful team from this country that attracted world-wide attention in the recent Olympic games at Athens.

Formerly trained for Columbia college, then for Princeton and finally for Harvard university, Mr. Graham had much to do with raising the standard of collegiate sports.

Three of his proteges, White, Brewer and McCarthy have just won the New England championship at the mile, quarter-mile and five-mile run. He has trained Weeks of Brown university, one of the best college sprinters in the country.

Many another student of what makes men and women strong has used and has recommended Paine's celery compound as the best known remedy for those who are weak and dispirited, the overworked and enfeebled persons who are most concerned in the general lowering of interest in outdoor exercise and indoor attention to the proper rules of health.

Kola Neis, of the hop firm of Faber & Neis, of Albany, was in the city, today. Mr. Neis expects to leave, on Monday, on a two month's tour of the principal cities, of the Eastern states. He will not return before May 1.

Rev. J. C. Baker, who will preach at the First Baptist church tomorrow was pastor of the Salem church from 1877 to 1882, when he resigned to take the position of Baptist missionary for the northwest, which position he held for four years residing at Salem about ten years in all. He was also founder of the Pacific Baptist at Portland, which he edited for some years.

The Musical Event

of next week will be the second annual closing concert of the Salem Choral society, under the direction of Professor Werschikul. The society will present a varied program of choruses from the old masters, on which they have been at work for a number of weeks.

A hand concert was given Saturday evening in the chapel by the school band. Rev. Burdette preached a good sermon to the pupils Sunday afternoon.

Miss Florence Wells, one of the assistant teachers has been on the sick list for several days.

THE COLD WEATHER.—The weather of the past week has been especially harmful to growing grain and hinders largely in the sowing of later crops.

WEATHER FORECAST.—Sunday rain and warmer temperature.

Dartmouth college, who after years of patient investigation and study, assisted by all that was best in the progress of medical science at home and abroad, first discovered the wonderful formula of Paine's celery compound.

There was no doubt of the interest that would be awakened at once by the announcement of any discovery by Prof. Phelps. The physicians, and forthwith this remarkable Paine's celery compound was personally used and professionally prescribed by them.

In a number of cases where every other remedy has been tried and failed, Paine's celery compound has attained the wildest results, making the weak strong, purifying the blood, rebuilding the worn-out nervous system, curing chronic sickness, proving a never-failing and permanent relief for rheumatism, neuralgia, kidney diseases and disorders of the liver, all due to the impairment of the person's nervous system, the consequent impoverishment of the blood and breaking down in consequence of some particular organ.

CHEMAWA.

Gymnastic exercises are given the pupils daily, in the new gymnasium by Disciplinary D. E. Brewer.

Mr. Boles, of Juneau, Alaska, visited his children at the school Saturday. He was pleased with their condition and progress.

Farming will commence at the school as soon as the weather will permit. We hope the farmer will be as successful in producing good crops this year as they were last, and especially the "Murphies."

The lecture which was delivered at the school by Col. Hofer on "The Love of Home," was highly appreciated and we hope others, who are interested in our school will follow his good example.

THE COLD WEATHER.—The weather of the past week has been especially harmful to growing grain and hinders largely in the sowing of later crops.

When Mr. Graham, writing Jan. 18, 1897, said: "I have used Paine's celery compound to my benefit, and I have no doubt that any person undergoing great physical and mental strain would find it of great service."

When so prominent a student of bodily health who has no equal, unless perhaps, one mentions Dr. Sargent of Harvard, with whose methods Mr. Graham became well acquainted at Harvard—when Mr. Graham says bluntly that after his experience he believes others would find Paine's celery compound of great service what man and woman out of perfect health can afford to neglect his well considered and expert advice!

There is no doubt that Paine's celery compound cleans the blood of eczema, salt rheum and such humors, not only in the spring, that is so favorable a time, but at any time during the year, so thoroughly that nothing further is ever heard of them.

Paine's celery compound has been tested, tried, scrutinized and heartily approved by so many impartial physicians and men and women whose word in any matter would not be questioned for a moment, that one must be stubborn-minded indeed who prefers to mope around half sick instead of verifying these positive, straightforward statements.

Laugh and the World Laughs With You.

The statement that any woman can stand on the stage before a vast audience, unaided by any device whatever, excepting the irresistible infectiousness of her own laugh and cause the audience to burst into roars of the most hilarious laughter, seems almost incredible, yet this is precisely what Fanny Rice accomplishes during the second act at every performance "At the French Ball," and after she gets the audience laughing, she stands there laughing back at them for having laughed at her. Her exit after this scene, together with her wonderfully artistic interpretation of the funny tipsy scene in the last act, that prompted Mr. Joseph Jefferson to declare her to be without an equal on the American stage.

On THE RIVER.—As a result of the continued cold weather the river is slowly falling, but when the temperature moderates somewhat, a raise of several feet is predicted.

REDUCED.—Eggs have gone down in price and cakes have been correspondingly reduced at Strong's bakery.

THE BEST.—Meals are always served at Strong's Restaurant.
