The fac-simile

A man can't be as sick as a woman. As a man's organization is simpler and stronger, it follows that his ailments are less complicated. He is not subject to the chances and changes, physiologically, that come to the average woman. If a woman is in good health there is no more healthful employment than house-work. Generally speaking, there is no hap-pier woman in the world than the one who is well and busy all day long "making home" for dear ones who depend upon her. But how different when every breath is pain, every step torture! This state of health, in nine cases out of ten comes from derangements of the delicate, feminine or-gans of generation. The family doctor in-guires first concerning these. He most usually insists upon an "examination." From this the modest woman naturally shrinks. She is right. Excepting in very unusual cases of "female weakness." ex-aminations are unnecessary. Dr. Pierce's Pavorite Prescription is a simple, natural remedy for these ills. It cures gradually, safely, permanently. Here is one testi-monial out of thousands: "I was ill four years with 'female weakness." I 4-14-10d.
