T. HOLVERSON'S.

MUSIC.

Summer School at Salem.

Prof. Winkler Branching Out With His Art.

Salem is everywhere known as an educational center, and it is gratifying to learn that this invaluable characteristic of the Capital city is being further developed and made known.

At his studio over the First National bank he will conduct a three week's summer school for music teachers and students. The course is calculated and arranged to be of especial benefit to those teachers and students who cannot spare the time or have not the opportunity of applying themselves during the regular school year to the study of music.

Pianoforte Playing—Leipzig conservatory method, private lessons, from two to five lessons per week. Voice Culture—Taught by Prof. Boyer, of Portland, from two to three lessons per week.

Musical Composition—From two to five lessons per week. Harmony—Including the theories of Oscar Paul, Reinecke, and Gustav Schreck, the greatest modern authorities. Class lessons every week day.

Piano Pedagogy—Lecture every day in the art of teaching, principles of touch, and technique, science of teaching, the different methods of educating technique and memory. Complete course of studies and compositions graded and analyzed for teaching.

Piano Reading Classes—For the more advanced students only. The four and eight hand arrangements of orchestral masterpieces by Haydn, Beethoven and Brahms will be studied. Classes will meet five times a week. No charge for students taking private lessons.

Lecture-Recitals—Will take place every Saturday at 11:30 a. m. For students only. No charge. Practice rooms with pianos will be at the disposal of students at small expense. All arrangements must be made by July 1st, as all classes should be formed early. For full particulars, terms, etc., address Prof. Emil L. Winkler, Salem.

Sinking Piers. The Capital Lumbering Co. is having piers sunk just opposite their mill at a point in the Willamette where at low water season the river registers fully 16 feet deep as a rule. These piers are driven to better manage the company's log boom but the steamboat officials assert that in all probability the piers will necessarily have to be removed, from the fact that the company is encroaching too much on the steamboat channel of the river, by placing them so far out in the channel.

Mr. and Mrs. I. D. Brown, of Jennings Montana, are the guests of Mr. and Mrs. E. M. Lafore.

What kind of do you want? Your grocer pays your money back in full if you don't like Schilling's Best.

For sale by Harritt & Lawrence.

STEEL BRIDGE TO BE REPAIRED.

Conference Held by Marion and Polk Counties and Salem City Council.

There is every indication at present that the long neglected big steel bridge that spans the Willamette at Salem, thus connecting Polk and Marion counties, is to be repaired. Being aware of the dangerous condition of the bridge, progressive residents of the two counties during the past month have prepared fifteen petitions which were circulated about the two counties and were liberally signed.

At 12 o'clock Friday afternoon the Polk county court met in conjunction with the Marion county court and a delegation from the Salem city council, at the court house when matters pertaining to the immediate repair of the big bridge were thoroughly discussed. There were present at the meeting County Judge W. Wells, and Commissioner Ross, of Polk county, County Judge G. P. Terrell and Commissioners Watson and Davis, of Marion county, and Mayor J. A. Richardson and Councilmen Parkhurst, Lamport and Lawrence, constituting the committee on streets and public property of the Salem city council.

The object of the meeting was stated by County Judge G. P. Terrell and proposed improvements were discussed by the county and city officials. All expressed themselves as being fully aware of need of taking steps towards preserving the structure. Each of the two counties and the city of Salem were willing to assume one-third of the expense in repairing the bridge.

It was finally decided that a thoroughly competent man be named by the Marion and Polk county courts and also one by the Salem city council who should constitute a committee whose business it should be to examine the bridge and submit a report to the courts, as to the improvements actually needed and to place an estimate on the same. The committee was instructed to report at the court house at 9 a. m. today and immediately proceed to perform the task assigned them. The gentlemen constituting the committee are Mr. Martin, from Polk county; John Gray, from Marion county; and W. D. Pugh from Salem.

The committee began its labors at 10 o'clock this morning. The work of examining the Polk county approach was first undertaken on which the committee is still working. The cribbing about the piers will next be examined and then considerable time will be devoted to a thorough examination of the superstructure. First one span and then another will be examined by the trio of experienced carpenters and bridge builders. The committee expects the work will consume at least two, or possibly three days. The work is progressing rather slowly but is being most thoroughly done.

An Object Lesson. J. Rex Byars, the popular prescription clerk in G. L. L. Baskett's Commercial street pharmacy, has arranged an object lesson in the south display window, that is to be commended to all cigarette smokers. In the center of the show window rests a human skull, while on either side thereof are found the bones of the arm and the leg. Clasped between the pony jaws is a half-smoked cigarette. A number of other poisonous cigarettes being scattered in profusion about the skull.

THE OREGON QUARTETTE CONCERT. A comparatively large audience was in attendance at the grand concert by the Oregon Concert Quartette at the First Christian church last evening. From the opening instrumental solo by Miss Gertrude Stanley of this city to the final number on the program, a piano quartette by Messrs. Perry, Laura Sharpe, Elizabeth Johnson, and Lulu Conover, the program was much enjoyed. The members of the quartette were much appreciated as were also the duets and trios. J. K. Parvin, of this city exhibited considerable skill as a cornetist in the selection he rendered, "Deep in the Mine" by Mr. Lundell; "When the Heart is Young" by Mr. Akers, and "Cuckoo Shall I Grow Old" by Miss Alderson, were all exceptionally well given. "The Boatman's Story," by Mallay, was very nicely sung by Prof. Z. M. Parvin.

Sealed Bids will be received at the postoffice in this city until Thursday 13th inst for the removal of the postoffice safe and other belongings of the office to the new site selected for the same. The removal of the same to be made on the 15th inst. B. F. BONHAM, P. M.

Rev. P. Bittner and family went to Portland Friday morning, where Rev. Bittner has been stationed as pastor of a German Evangelical church.

PALMER HOUSE MANAGER.

Mr. Willis Howe Warmly Endorses Paine's Celery Compound.

The Palmer House, Chicago, needs no introduction to readers in America or Europe. It is one of the largest hotels in the world, and is one of the great institutions of Chicago. Mr. Willis Howe, the well-known superintendent of the Palmer House, writes the following letter:

Wells, Richardson & Co., Burlington, Vt. GENTLEMEN:—It is with a feeling of sincere gratitude that I write you this letter. I was seriously sick with a fever, and after passing the dangerous stage began taking Paine's Celery Compound. At this writing I am in excellent health, and in fact never felt better. I attribute this to the use of Paine's Celery Compound. Hoping others will find that Paine's Celery Compound will make them as well as it did me, I am most gratefully yours.

Repeated and astonishing success in making people well has lifted Paine's Celery Compound to the admiration of the world as the surest and wisest means of invigorating a "rundown," nervous condition of the body. Since the discovery of this great

W. U. Gymnasium Exhibition. About 150 Salemites, a large percent of whom were university students, gathered at the W. U. gymnasium Friday evening, the occasion being the annual athletic exhibition. Last evening's performance surpassed all previous efforts. With one exception the program, as published, was presented in a manner reflecting great credit on Prof. F. E. Brown, as physical director as well as upon the performers themselves. The class and wand drills were especially good. The work on the horizontal and parallel bars by Prof. F. E. Brown and A. M. Grilley and C. J. Atwood indicated careful and thorough practice. The recitations by Miss Jessie Sattlemier and Miss Mabel Creighton were so well given the young educationists received generous encores which they kindly responded. Prof. Denton's violin solo, was as skillfully executed as ever and received an encore. Miss Jessie Holmes vocal selection received the kindly recognition at the hands of the audience that it deserved and the young vocalist responded with a second number.

A feature of the evening's performance from an athletic point of view, at least, was mass club swinging by Messrs. S. S. Achenbrenner, G. C. Miller, C. W. Livesay and B. B. Wilkins. Their performance was warmly applauded. In all the exhibition was a success and the highest expectations that had arisen in the minds of the audience were fully realized. The evening's entertainment concluded with an exciting game of basket ball by the young gentlemen.

AN INTERESTING TALK.—Prof. Emil L. Winkler has issued invitations to a few German friends to hear informal talk by Herr Constantin von Rengarten, the Russian traveler now in the city. This gentleman is traveling around the world and writes for a number of the leading European periodicals, in German and Russian. He is a close student of national life, and will, at the request of Prof. Winkler, give his German friends some points observed in his extensive travels.
