CONGRESSIONAL.

The Destitute Americans.

The Senate Votes Aid for Residents in Cuba.

WASHINGTON, May 18.—Cuba engrossed the attention of the senate. Public interest was shown by the great crowds which besieged the galleries throughout the day. Among the occupants of the diplomatic galleries were Sir Julian Pauncefote, the British ambassador, and Minister Hatch of Hawaii, and in the reserved gallery was General Daniel Sickles, ex-United States minister to Spain. Neither the Spanish legation in Washington nor the Cuban junta was represented so far as could be observed.

Two phases of the subject were presented. First came the question of the relief of the destitute and starving Americans in Cuba, and Morgan's resolution, which caused a spirited debate. The first question was quickly disposed of. The resolution declares that war exists in Cuba, and that strict neutrality should be maintained by the United States. Morgan stated that, unless some senator desired to speak, he would ask a ye and no vote on the pending motion, of Hale, to refer the resolution to the committee on foreign relations.

Hale suggested the absence of a quorum and a call after some delay brought forty-eight senators, just a quorum, to the senate. A vote was about to be taken when Wellington rose for his maiden speech, which proved to be a vigorous protest against the resolution and a plea for its reference to the committee on foreign relations.

IN THE HOUSE.

Action by the house, on McKinley's recommendation for relief for American citizens in Cuba, which was prevented by the rules under which the house is operating, doubtless will be taken at the next meeting of the house on Thursday. The committee on rules will present a rule fixing a time for debate, on the resolution adopted by the senate to appropriate \$50,000. Mr. Bailey, the Democratic leader, who endeavored to couple Senator Morgan's resolution organizing belligerency of the insurgents with the bill for an appropriation, proposes to secure a vote on the question by presenting a minority report from the committee on rules, which will make it in order to offer the substance of the Morgan resolution in an amendment.

Mr. Dingley said that a minority report could not be made to the house, unless it proposed matter germane to the general report. He doubted, he said, whether the proposition to recognize the insurgents as belligerents, could be considered germane to an appropriation for relief of American citizens. Mr. Dalzell, of the committee on rules took the same view of the matter.

It is unlikely that Speaker Reed will declare the minority report out of order. The Democrats, however, are determined to bring the house to vote on belligerency for Cuba.

Mr. Bailey said that the Republicans did not want to meet the question with a Republican president who would be put in a position of enforcing or disregarding the recommendation of congress. He added, when asked if a minority report would be in order, that the Democrats would be tempted to repeat the scenes of the fifty-first congress if the speaker refused to allow considerations reported to the senate a resolution carrying into effect the president's message in regard to Cuba. The resolution, which carried an appropriation of \$50,000 for the relief of the destitute Americans on the island, passed the senate without division.

It took exactly eighteen minutes for the reading of the message, presentation of the committee report, and final passage of the resolution. In the house, Mr. Hitt, of Illinois, asked immediate consideration for a resolution appropriating \$50,000 for the relief of destitute Americans in Cuba, but Bailey of Texas said he must object unless an amendment embodying Senator Morgan's resolution

for recognition of the insurgents be added. Mr. Dingley objected to the amendment, whereupon Bailey objected to the bill, and the Cuban question was sidetracked.

If Hitt's bill for the appropriation of \$50,000 for the relief of American citizens is called up again in the house, Bailey will offer Morgan's resolution for recognizing belligerency. If the committee on rules reports a special rule for consideration of the bill, which will prevent amendments, Bailey will present a minority report from the committee, which will permit amendments and insist on a vote on the minority report.

MORGAN'S RESOLUTION.
Senator Morgan says the president's message and the passage of the resolution will not effect the resolution presented by him, and it will be taken up. Other members of the committee on foreign relations say they now see no reason for changing their program with reference to the pending resolution.

CORBETT'S CASE.
The senate committee on privileges and elections will meet and take up the Oregon senatorial case. Mr. Corbett, who holds the commission of the governor, expects that the committee will make a favorable report of the question of seating him.

DIVIDEND DECLARED.
The controller of the currency has declared a 10 per cent dividend in favor of the creditors of the Baker City National bank.

RESOLUTION ADOPTED.
The senate adopted the resolution of Butler, calling on the president for information as to authority by which the proposed sale of the Union Pacific railroad had been agreed on between the executive and a combination of purchasers.

THE CHAPMAN RESOLUTION.
Senator Hoar reported from the judiciary committee in favor of taking no action on the Chapman resolution, as Chapman made no application for a pardon. Without debate the report was adopted, and the resolution went to the table.

RAILROAD LANDS.
Senator Pettigrew called up the resolution for the appointment of a commission of five senators, to investigate the issue of patents for lands to the Pacific railroads, and to the California and Oregon railroad.

TARIFF MATTERS.
Senator McEnery, of Louisiana, gave notice of an amendment he will offer to the tariff bill, striking out the senate amendments in the sugar schedules, and reinserting the house provisions in regard to sugar.

Senator Hale, gave notice of an amendment putting chicle on the free list.
Senator Butler gave notice of amendments to the rice paragraph in the tariff bill, increasing the duties so as to make the rates as follows: Clean rice, 2 cents per pound, uncleaned, 1 1/2 cents; rice flour, 1 cent; paddy, 1 cent.

A well selected text is half of the sermon. Given a good text and a preacher who is in earnest, and the result is sure to be good. The text of this article is a plain simple statement that proves itself in the reader's own mind without argument. The text is "Good health is better than great riches."

Without health nothing really matters very much. A hacking cough takes all the beauty out of a landscape or a sunset. Erysipelas or eczema will spoil the enjoyment of sprightly conversation, of a beautiful concert, of a wonderful painting. The biggest bank account in the world won't pay a man for his health, but a very small amount of money will make him healthy and keep him healthy. Most all bodily troubles start in the digestive or respiratory organs. It is here that improper living first makes an opening for disease. The development differs as constitutions and temperaments differ. The causes are almost identical. To get at the root of the matter is simple enough if you start right. Dr. Pierce's Golden Medical Discovery is a medicine for the whole body. It works through the digestive organs on all the others. It cures the first thing it comes to and after that, the next. It puts health in place of disease in the stomach, and from the vantage ground thus gained, it reaches every fiber of the body and drives disease before it—indigestion, liver troubles, kidney complaint, biliousness, skin and scalp diseases, salt-rheum, tetter, eczema, and all the troubles caused by impure blood.

SEE THAT THE FAC-SIMILE SIGNATURE OF CHARLES H. FITCHER IS ON THE WRAPPER OF EVERY BOTTLE OF CASTORIA

900 DROPS
Vegetable Preparation for Assimilating the Food and Regulating the Stomachs and Bowels of INFANTS - CHILDREN
