Four Men Now in Custody For Robbing the Grave of Banker Ladd Body Found.

PORTLAND, May 22.—The body of W. S. Ladd, which was taken from the grave a few nights ago has been recovered. It was found a short distance this side of Oregon City, where it was taken by the ghouls.

Four men residing in Oregon City under arrest.

The men arrested are Charles Montgomery and Dan D. Magone. Montgomery made a confession, implicating Magone, Ed Long and Wm. Richter. They were arrested. The body was found buried at Magone's place, one mile and a half below Oregon City. The officers are now bringing it to the city. The principal clew that led to the capture of the men was a drawing knife, which was made by a blacksmith at Milwaukie. This was left at the grave by the robbers. When it was shown to the blacksmith he at once recognized it, and told the officers he made it for Magone.

The body was buried at Magone's Park, a well-known landmark on the Willamette river, a mile and a half below Oregon City. Its hiding-place was cleverly concealed by moss and leaves, and it would never have been discovered had not Montgomery weakened and led the officers to it. Chief of Police Burns learned Thursday morning that a gang, of which Magone was at the head, was concerned in Monday night's outrage. He immediately dispatched a messenger to Portland, and Detective Welsh started at once for Oregon City with a team, stopping to pick up Detective Simmons on the way. They took the West Side road, and, on approaching the Magone place, stopped and reconnoitered. Magone was not at home. He had been spending most of his time of late on the river, his wife said, and she was unable to keep track of his goings and comings.

THEY MISSED THE BODY.
The two detectives spent the rest of the afternoon searching the river front for the body, passing several times directly over it; but their search was not rewarded. They found, however, that the broken draw-shave and tools which the ghouls used in the transaction of their ghastly business of Monday night had been taken from a scow moored on Magone's Park, and they also learned that Magone had spent a long time Sunday night in conversation with young Montgomery.

While they were searching about, some one set their team adrift, and the horses ran to Oswego before they were caught. The detectives set out at once on foot in pursuit, overtaking the team at Oswego, and reaching Portland at 11 o'clock.

Arrived here, Deputy District Attorney Fitzgerald was aroused, filed complaints against Magone and Montgomery, charging them with larceny.

Welsh and Simmons spent the night at the Esmond hotel, and again set out for Oregon City yesterday morning, reaching Magone's ranch about 9 o'clock.

"Is your father at home?" they asked a child who was playing in the dooryard.

"He's home today," was the reply; "but he hasn't been for a long time."

FIRST CLEW.
The capture is a particularly clever piece of work, and reflects credit on all who were concerned in it, directly or indirectly. The messenger who gave the first valuable working clew to Chief Burns was a blacksmith at Oswego, who remembered having made a knife for some of the conspirators. Montgomery, it is said, a month ago, asked Senator Geo. C. Brownell whether he thought Mr. Ladd's grave was connected with electric wires. This clew was also valuable in effecting the capture.

Police Captain Barry, assisted by Patrolmen Kerrigan and Snow has been working night and day on the case, and they were on the right scent when the news of the capture called them home. Yesterday afternoon Capt. Barry discovered that the telephone leading to Mr. Charles E. Ladd's house, at Riverside had been tapped and a telephone instrument

inserted near the cemetery, so that one of the ghouls could listen to see if any news of their work had reached the house, while the others were engaged in their work. The telephone used was stolen nearly two months ago from the Orchard station of East Side Railway Company, a circumstance which shows how long the scoundrels had their dreadful plans in preparation.

THE ROBBERS WERE JOOLY.
Patrolman Carleson, of Sellwood, says that late Monday night he heard some one rowing up the river singing and carousing, and it is very probable that it was the party of grave robbers, tolling forth their ghoulish glee over the success of their crime, and in anticipation of the rich reward which they hoped it would bring them. Their joy was short-lived, for they remained in possession of their prize but two days before they were brought to justice. There is no present clew to their fellow criminals, but it is hardly likely that they will escape.

GRECO-TURKISH.

The Terms of Peace Treaty, Provides for Rectification of Frontier, Small Indemnity.

LONDON, May 22.—A Daily Mail dispatch from Constantinople says the ambassadors will present a note to the porte embodying the terms of peace to which they will agree. The note will refuse to permit the abolition of the capitulations in the case of Greek subjects, or the annexation of Thessaly, but will consent to a strategic rectification of the frontier and an indemnity not exceeding 115,000,000 francs.

A BREACH.
LONDON, May 22.—A Berlin dispatch says the Post publishes a telegram from Salonica asserted that in spite of the armistice, a Greek warship has fired upon and sunk a vessel flying the Turkish flag. Five of the crew were drowned.

LONDON, May 22.—The Athens correspondent of the Telegraphs says small bodies of the Turkish right wing in Thessaly advanced (Friday) toward the village of Divri. This is a flagrant breach of the armistice.

ALMOST A PANIC.
PARIS, May 22.—The Athens correspondent of the Journal, referring to the recent Greek defeat, telegraphs:

The stupor and panic caused by the latest defeat is intense. The people look for the immediate arrival of the Turks at Athens. On all sides, families are preparing to go to the islands, anxious crowds parade the streets, and there is the wildest excitement everywhere. I learn that some shots were fired at the crown prince as he endeavored to stay the confusion. Two Greek battalions were seized with panic, and the retreating soldiers, on entering Lamia, could not be restrained by their officers. They shouted, "The Turks are coming!" The panic which resulted was increased by the jailbirds, who had been released, and caused disorder throughout the town.

SEES THE SULTAN.
CONSTANTINOPLE, May 22.—United States Minister Terrill escorted General Miles, of the United States army, who was accompanied by his aid-de-camp, Captain Gannes, and two secretaries of the embassy, to the ceremony as the Selamlik today, after which General Miles was received by the sultan, who gave him a special audience.

Some Highwayman Killed, Shot by Superintendent Dame While Relieving Passengers

TACOMA, Wash., May 22.—A single robber, late this yesterday afternoon, held up and attempted to rob an incoming car on the Steilacoom electric line. About four miles and a half out of the city, a tall man, roughly dressed, hailed the car which stopped to let him aboard. As he got on the platform he pulled a blue dotted calico mask, having holes cut through for eye, down over his face, pronounced a revolver and ordered Superintendent Dame of the motor line and Motorman Wellman to the other end. They complied slowly and he followed, ordering the men and the passengers to hold up their hands, and the ladies to sit down.

Dame and Wellman had entered the rear compartment, used for carrying baggage and freight. The robber evidently thought them safely disposed of, for he paid no more attention to them, but commenced relieving Geo. B. Evans, a contractor, of his valuables. This done he commanded William E. Hacker, a broker, to stand up and be searched. In the meantime Superintendent Dame had taken out his revolver and came in behind Hacker, where he awaited an opportunity of shooting. A moment later he placed his arm on Hacker's shoulder and fired into the robber, who returned the fire. Dame fired two shots and the robber three. Two minutes later the robber was lying beside the car, dead, while Dame had been shot in the arm and Jewett Smith, a passenger, in the leg. The robber's third bullet passed through the door of the baggage compartment and struck Motorman Wellman on the left breast, but inflicted no injury. The robber's body was placed on the car and brought to town where it lies at the morgue awaiting identification.

HANGED.
FOLSOM, Cal., May 22.—Benito Lopez, who murdered George S. Washburn, in Calaveras county, on April 4, 1896, was hanged in the state prison here. Lopez was 70 years of age, partially paralyzed, and very feeble, but the crime for which he suffered the death penalty was a cold-blooded one.

CAPTURED.
SEATTLE, Wash., May 22.—Sheriff Driver, of Wasco county, Oregon, is in town with Prisoner Louis Boggs, charged with stealing a team of horses which he sold in Portland, after eloping with another man's wife, the woman taking her two children with her. After disposing of the team the couple came north, and have since been living in Victoria.

Boggs believes that he will be sent to the Salem penitentiary, and is in much mental distress. He declares Sheriff Driver did not get him away from British soil legally, but since he was successfully landed on United States territory, he does not know what he can do. The prisoner goes to Portland.

ORDERED TO LEAVE.
SPOKANE, Wash., May 22.—Chief of Police Hawthorne ordered a number of gamblers and confidence men to leave the city before sundown. Among these was Sandy Olds, the notorious Portland gambler, who served a term in the Oregon penitentiary for the killing of Emil Webber.

THE FRUIT OUTLOOK.
C. L. Dailey, the horticultural commissioner reports that petite and silver prunes are a nearly total failure in his section, while Italians where the trees are in good order, will bear about all they ought to. Mrs. Wanda, of Hampden Park, reports plenty of peaches, few prunes and practically no strawberries out that way. A letter from Eugene reports a good setting of prunes thereabout. The fruit about Salem promises to be of excellent quality.

DISCUSSION

Of the Morgan Resolution By the Cabinet--The Senate Severely Criticised.

WASHINGTON, May 22.—The action of the senate in passing the Morgan joint resolution declaring a state of war exists in Cuba, was regarded as a movement that threatened, if carried out to the end, to interfere seriously with the efforts of the executive branch of the government to accomplish something substantial for the Cubans.

The details of the plan President McKinley has in mind have not yet been disclosed, and in fact it may be said they are subject to an arrangement upon the basis of the latest official information received from Cuba, probably from Mr. Calhoun, but it was clearly manifested in the cabinet meeting that the president had made up his mind to another forward step.

He has now come to the determination to use his powers to stop bloodshed on the island as far as this can be done without involving the United States in war.

There was some talk respecting the application of relief measures, in favor of American citizens in Cuba. It was decided that the delay of the informal signature of the resolution would not necessarily prevent the immediate application of some money to feeding the people represented as in great distress, as drafts cannot be received before formalities are completed and the resolution becomes a law.

Among other matters briefly discussed was the full report of the forestry commission upon the reservation question, which caused so much debate in congress. No action was taken on this subject.

NOT YET A LAW.
The resolution appropriating \$50,000 for the relief of suffering Americans in Cuba was signed yesterday by Speaker Reed, but owing to the absence of the vice-president and the president pro tem of the senate, it could not receive the signature of either of them. As the senate adjourned until Monday it cannot be signed before that day.

The secretary of state has directed Consul-General Lee, at Havana, to draw for the immediate purchase of supplies and medicines for the relief of American citizens and transportation for such as are without means, and desire to return to the United States, not to exceed \$10,000. He has also instructed Lee to furnish United States consuls in Cuba in his discretion with funds for this purpose.

Consul Brice, at Matanzas, has been instructed by the secretary of state to apply to Consul-General Lee for funds to relieve citizens there.

TRAINS DELAYED.—A freight train was derailed near Ashland Friday afternoon, by reason of which the north bound California overland due at 7:19 a. m. will not reach the Capital City until 4:30 p. m. A number of freight cars left the track but no lives were lost. It required several hours to clear up the debris. The special train of seven coaches containing a large delegation of the order of railway conductors enroute to Portland, was also delayed by reason of the accident and will not reach Portland, where a reception is awaiting them, before this evening.

EXECUTION SALES.—At 10 o'clock today, to satisfy a judgment of \$747.50 with interest and costs, lot 2 and the north half of lot 3 in block 1 of Geo. H. Jones' addition to Salem was bid in by plaintiff for \$902.95. The case was known as the Woman's Christian Association of Newark, N. J., vs. Henry Shomaker et al. All of lot 8, block 28, North Salem, to satisfy a judgment of \$49.50, with interest and costs held by H. Stapleton against Fredrick and Yenne Vander Baan, was bid in by plaintiff for \$160.

Salem Floricultural Society.
There will be a special meeting of this society, at the residence of Mrs. Wm. Brown, on State street, Monday, May 24, at 5:30 p. m. All members are earnestly requested to attend.
By order of E. M. WAITS,
President.

REBELLION.

South America Happenings. Battle Between Uruguayan Troops and Rebels.

NEW YORK, May 22.—The Herald's correspondent in Montevideo telegraphs that fierce fighting has been going on for four days near the Brazilian frontier. The fighting is still in progress, and both sides have sustained heavy losses.

Lamas, one of the rebel leaders, has continued at the head of his forces for the four days, in spite of the fact that he has been seriously wounded.

The forces in action on both sides have had practically no rest since the beginning of the engagement.

Another attempt has been made to assassinate President Borda, of Uruguay. The first attempt was made by a boy, who tried to shoot the president: the last by means of a bomb, which was sent to the president from La Plata, Argentina, and which he received recently.

The bomb was in a box, arranged so that it would explode when opened. Fortunately, suspicion was aroused, and the box was turned over to the police and destroyed.

The Herald's correspondent in Rio de Janeiro says Brazil is taking steps to strengthen her navy. The president will ask congress to immediately appropriate money for the purchase of one ironclad, two cruisers and eight torpedo-boats.

A treaty has been signed by Brazil and Peru to replace the boundary landmarks.

Reports have reached Rio de Janeiro that the government troops have again met defeat at the hands of the fanatics near Canudo. It is reported that Juan Brandas, one of the leaders of the fanatics, is dead. It is stated that the vanguard to the government troops has been destroyed.

A bill has been offered in the chamber of deputies offering an award of 500 centos for some method of protecting citizens of Brazil from yellow fever.

A Herald special from Buenos Ayres says the British commission, which came to Argentina to buy a great quantity of horses for use at Cape Colony, has made several big purchases. Two steamers loaded with horses have sailed for Cape Colony, and negotiations for still further purchases are under way.
