THE RIVER.—The boats flying on the Willamette are running on schedule time. The stage of the river this morning was 5 feet above low water mark. Local steamboat men expect that the stage of the river by July 1 will be such that the large steamboats will have to be replaced by crafts of lighter draught.

At Kaiser School House. The "Yellows" of the Young Woman's Foreign Missionary society, of the First Methodist church, gave an entertainment at the Kaiser school house a few miles north of Salem, last evening. The school house was crowded and a very creditable musical and literary program was rendered. The "Yellows" realized a very nice little sum from the entertainment all of which will go to the missionary work. About forty Salemites attended the entertainment, making the trip via a bay-rack which the young folks in the party declared was worth the price of admission to the entertainment in the school house.

FIELD DAY CONTESTS. Local Athletic Meet in Progress at Fair Grounds. The members of the three athletic teams could not have wished for a more pleasant day in which to hold the local field day, than they were granted today. The sky was clear and Old Sol's rays gave the air warmth. The track is in fair condition and some very interesting contests will no doubt be witnessed. Large numbers of young ladies, each carrying in a conspicuous place some bit of ribbon, thereby indicate the team in whose success the bearer was personally interested. Orange and navy blue ornamented the apparel of all Y. M. C. A. supporters, while friends of the Chemawa team wore cream and bright red, characteristic of the Indian race. Cardinal and old gold—Willamette's colors predominated, the combination of colors making a bright sight. The Chemawa delegation reached the city about 1 p. m. The band at once formed and played a number of airs on the street, when they proceeded to the fair grounds. The contests did not begin until nearly 3 o'clock and owing to the lateness of the hour no results could be given in this issue. A complete report of the meet will appear in Monday's JOURNAL.

State Superintendent Croissant, of the Oregon reform school, visited that institution, Friday, and was in consultation with state officials today, in regard to details of management, but none of the arrangements can yet be made public. HAS SETTLED.—E. M. Rowley, who has purchased the Pioneer grocery of John G. Wright, has moved with his family into the O. B. B. cottage on Center street, near Liberty street.

FORGERY.

Lyon Adolph Is Arrested.

Forges His Mother's Name on a Check For \$1500.

At 2 o'clock this afternoon Lyon Adolph, was arrested by Chief of Police A. C. Dilley on the charge of forgery, such criminal information having been filed against him by his mother Mrs. Samuel Adolph.

Just before noon today young Adolph appeared at the Ladd & Bush bank and presented a check for \$1500 made payable to himself and bearing the signature of his mother Mrs. Samuel Adolph. The check was promptly cashed. Although the signature was quite like the original, suspicion was at once aroused among the bank officials and a messenger was at once dispatched to the home of Mrs. Adolph on East State street to ascertain the genuineness of the signature, when it was learned that the same was a forgery.

It is not likely that Adolph will be given a preliminary examination before Monday.

It will be remembered that only a few weeks ago the report was circulated that Adolph had been assaulted by two highwaymen and robbed of \$72 which he had collected on the preceding afternoon. Those best acquainted with Adolph, did not give the story much credence and advanced the theory that the bruises found on his head were self-inflicted that his story might be more readily believed.

Adolph has been living a fast life for several months and his downfall is not the least unexpected.

Adolph will be kept in the city cooler until Monday. The money was nearly all found on his person and no great loss will be sustained.

Two Splendid Operas. If standing room is not at a premium on next Tuesday and Wednesday evenings at the Reed's opera house, it will prove most surprising. The operas, for this occasion, "Olivette," and "Pretty Persian" is one of the best works ever written. There has been a large advance sale which assures a crowded house. The company which will be heard is a large one. The prima donna, Miss Ethel Balch, was with the celebrated Bostonians. The prima donna contralto, Miss McNeill, is one of the best singers now before the public, while Henry Davis, the tenor, has a national reputation.

CORNER STONE OF HEALTH.

Effect of Paine's Celery Compound Upon the Blood and Nerves.

Now is the season to lay the foundation for future health and strength. The corner stones of good health are complete digestion, sound sleep, pure blood and a perfectly nourished nervous system.

The wonderful success of Paine's celery compound in making people well and keeping them so, has always been accounted for by physicians by its extraordinary power of nourishing and regulating all of these functions.

It is not strange that so many unscientific remedies do no permanent good when they disregard this close interdependence of the nerves and the organs of digestion and circulation, and attend to but one deranged part at the expense of all the rest.

The only possible way that a real lasting gain in strength and vitality can come is through purer blood, better nourished nerves and tissues, more refreshing sleep and an economy in the expenditure of nerve force.

These are the objective points, aimed at and attained by Paine's celery compound!

This remarkable remedy permanently cures every form of nervous debility, neuralgia, sleeplessness, melancholy, hysteria, headaches, dyspepsia and heart palpitation. Primarily the nerves, and then every organ governed by them is induced to work in a normal and orderly manner.

Mothers should give their children Paine's celery compound now it is spring! Instead of some heresy blood purifier that can have no power of correcting an impure state of the blood or regulating so complicated parts of the body as the brain and nerves.

Debility and disease are cured by Paine's celery compound. It is in the power of any remedy to make people so permanently and so completely well as this astonishing nerve and brain strengthener and restorer and blood purifier, Paine's celery compound.

One needs simply to give it a trial to be satisfied.

Chairman Hibbard in calling to order stated that the prime object of the meeting was to get at the sentiment of the committee on the question of union of forces. He expressed his personal preference as being in favor of waiting until their regular county convention next spring, and receive their instructions direct from the people. He was willing to abide by the action of this committee however.

Mr. Hibbard realized that it was a critical time for the People's party, and said that he as chairman had been asked to join in a call for a union mass convention to select three delegates to the Albany union conference June 2. Geo. W. Weeks moved that a committee of three be appointed on resolutions. Carried, and chair named Geo. W. Dimmick of Hubbard, Chas. Miller, Sr., of Jefferson, and L. W. Guiss of Woodburn as such committee and an adjournment was taken to two o'clock p. m.

REPORT OF COMMITTEE. The committee on resolutions reported as follows: We believe that the People's Party organization should be maintained. 5. We as American citizens are ready and willing to work and vote with all citizens of whatever party in order to secure the control of this government so that it may be one more administered in the interest of the whole people, as those who made it administered it. 3. We consider the wealth producer of much more importance than the wealth owner and believe this government should be administered in the interest of the laboring and producing classes that it may be in name a government of the people and to secure this object we are still as we were in the last campaign willing to vote and act with all good citizens. 4. We consider the initiative and referendum as the only final safeguard of the people. G. W. DIMMICK. L. W. GUISS. Hon. Chas. Miller did not sign the report.

Chas. Miller, Sr., opposed the report as did Vedder and two Messrs. Darby, J. P. Robertson favored as did J. M. Payne. He deplored a disposition to fight over the past. He hoped the People's Party would drop the past and catch up with the procession. He favored pushing the boat to a sure and safe landing. The money question was the leading issue, and there was no use threshing over old straw.

Prof. Jory said the redeemability of money was the great point at issue. He warned them against the deception of redeemable money. Robertson moved to amend the second and third resolutions so as to read in favor of five specific propositions of reforms. No second. Chas. Miller moved to lay the second and third resolutions on the table. R. P. Boise said he was sorry this discussion had wandered from the point. He eulogized Wm. Jennings Bryan as a statesman. He was more eloquent than Clay and more magnetic than Webster. He was an honest man and the most capable man who had appeared before the American people in twenty years. It would have been wiser if Democrats and Populists had got closer together than they did. He wanted to see taxes reduced in Oregon. His taxes were fifteen per cent higher than a year ago. Without the lawmaking power in the hands of the people, no matter what party was in power the aristocracy and money power would rule. The motion to table the second and third resolutions was carried. The first and fourth planks were adopted.
