FRATERNAL DAY - Socy. Gabrielson, of the state fair, is getting favorable reports from a number of the fraternal orders. They are appointing committees to confer together and make one day set apart at the state fair for state gatherings of all the fraternal orders a great success. All that have not appointed committees should do so at once as the secretary desires to have them called together and make detailed arrangements for programs and entertainment of the visitors. The fraternal orders of our city can exert a wide influence in making the fair a success and are taking hold in a hearty manner.

X-RAYS, On the Webfoot Politicians, Independent Comment on People in State and Nation.

The old room where the postoffice was, is being fitted up for a saloon. This reminds the X Ray man that the old postoffice block used to be the fashionable opera house. A company came along in the 'sixties and advertised a loud and hard variety vaudeville performances. John G. Wright, J. S. Boothby, Wm. Waldo, Ed. Hirsch, W. W. Skinner, J. Murphy, Tilmon Ford, Bill Anderson, John Minto, E. M. Walte and John H. Albert were among the lively young fellows then. They got into the show, had seats well in front. To their disappointment it proved to be a very respectable performance.

Why don't Rockefeller buy the island of Cuba and give them liberty? That would be philanthropy of the right kind.

The De Moss Concert Company, have bought the old Hank Monk Concord coach, the same one that he gave Horace Greely a ride in from Carson to Strawberry valley in the 'sixties, and will go overland in it to Oregon.

An Ashland paper indicates that a great prosperity boom has struck that town in this item: Our friend, Farmer H. E. Durkee, was in town Tuesday from the sticky side of Bear creek and laid an egg on our editorial table. It was of leg-horn variety and a whopper for size, measuring as much as any able bodied turkey could do under favorable circumstances.

During a general election a canvasser called at the home of the late Prof. Froude, the historian. Mr. Froude was out, so the canvasser had to content himself with interrogating the butler as to how Mr. Froude would vote. The butler - an old servant, who understood his master well - replied: "When the liberals is in Mr. Froude is sometimes a conservative. When the conservatives is in Mr. Froude is always a liberal."

Salem is a hot town in some respects. We never take some things mildly, for instance out of 1700 school children 930 took measles.

Some are complaining because Collins P. Huntington gave Salem the go-by: Well, there are twogood reasons; he knew every thing was all right at Salem as long Ex-Mayor Skinner is agent and alive and well and Patrick Donnell Prunty section foreman; besides Mr. Huntington, bought the Springfield branch some years ago for several millions and had never seen it, so he went that way.

Pendleton Tribune: The Portland Evening Telegram contains this item which has been running for a week or two: "The Oregon Blood Purifier has and will cure ninety-nine per cent. Take it now with a capital stock of \$100,000." In the language of the

slangster, "wouldn't that physic you?"

We acknowledge receipt of "The American X Ray Journal," a monthly devoted to the practical application of the new science" by Heber Roberts, M. D., editor, 2914 Morgan street, St. Louis, Mo. Vol. 1, No. 1 is a beauty, illustrated and up to date. We welcome this addition to X Ray literature. The editor says: "It is the design of this journal to give to readers and thinkers a faithful resume of all X Ray work done in any portion of the globe. The editor's personal experience with the X Rays for practical purposes, together with seventeen years of medical and surgical experience, renders the task of imparting X Ray information more appropriate for those who read and think."

Uncle Sam's gold is going to China to supply the loan of \$80,000,000 recently made from a British syndicate.

There is plenty of money in the country. It is so plenty that it even finds its way to state institutions to buy claims against the state at a discount. Then when the poor employes go to a Salem merchant they are again "discounted" in order to get from one to three months' time. They are scalped both ways and the only wonder is that they have any hide left on their bodies.

This is the new branch of the Woodman's Circle which was organized at St. Louis by the Oregon and other delegates who seceded from the old order. It is enjoying a remarkable growth, there being but a very few of the old order that refuse to unite their interests with the newly organized circle.
