

The essence of life is force. Every breath you breathe, every heart he t, every motion of your hani, takes force. The measu e of force we call vitality. If this is lacking, there is loss of flesh, lack of resistive power, a tendency to catch disease cas?, es ecially a tendency to Consumption. For low vitality nothing is better than Scott's Emu sion. It supplies force by furnishing the nourishing, strengthening elements of food in an easily digested form; enriches the blood, and builds up the system. When ordinary food is of no avail, Scott's Emulsion will supply the body with all the vital e ements of life.

Two sizes, 50 cts. and \$1.00. All druggists.

If you will ask for it we will send you a book telling you all about Scott's Emulsion. Free.

SCOTT & BOWNE, New York,

Weather and Crop Bulletin.

Slightly lower temperatures, with more clouds and a few sprinkles of general the morning of the 9th, which injured tender vegetation to some extent.

The temperature for the week averaged 60 degrees. The day tempernight 51 degrees. The highest during 1200 sacks, and they fill 30 cars. the week was 80 degrees, on the 11th, and the lowest was 42 degrees, on the 9th.

More rain is badly needed. Not over an one-half crop of hay will be secured. Rains, such as are necessary to improve the late hay, are not probable, hence no material improvement can be expected in the crop. Spring grain of all kinds is badly in need of Pendleton subscribed enough money rain. The showers were of benefit, but they were not heavy enough.

Blackberries and raspberries are ripening rapidly, and both are full crops. Of cherries, the May Duke is ripe; the Royal Anne and Black Remajor portion will be picked and board the Northern Pacific train, and shipped. Some trees are filled with cherries, while others are only par. tially so. The cherry crop, as a whole, is good: in some years better yields have been had.

The prune crop now promises to be

The dropping which has been reported crop now promises to be veay heavy. Hand pruning is in progress. The apple crop pron.ises to be fair; some most the same as apples.

Hops are growing rapidly. The hop man, louse has appeared, and spraying has commenced. The hop prospects are excellent. Gardens are doing remarkably well. Potatoes, peas, beans, cauliflower, and other garden produce, are plentiful. Corn is making a much better growth than usual. Grapes also promise a heavy yield.

Rain would improve the condition of all vegetation; but the conditions are not favorable for the rain, that is needed, to occur, though showers are probable.

GIVES STRENGTH TO MEN.

It is remarkable fact that a man never ap-preciates the sufferings of others until he himself, has passed through the fire of pain or remorse. Then it is that he looks around for those who are suffering, he wants them to profit by his experience : he gives his time and

complete cure at home. It is the method Mr. Slater used to cure himself of the troubles

Slater used to cure himself of the troubles that sap the strenght and vigor. The cure was so complete, to satisifying and such a wonderful charge from his former condition that he will gladly tell others all about it, sending all particulars. He figures that he doesn't know of a better way to show his appreciati n of his own cure and the sufferings of others. There must be generous men in this world to off-set the tide of avarice.
