The Union county grand jury found 11 true bills and two not true bills.

A 55 pound salmon was caught at The Dalles Friday. It was four feet long.

Walton and Morse, of Astoria had a four round bout ending in Walton being worsted. The city issued a permit for the contest it is claimed.

Klamath Falls is preparing to fight the electric light and water company of that place, to restrain the company from collecting interest on $10,000 bonds.

A special municipal election to be held on Friday, June 25, at Myrtle Point, to vote on the question of bonding the town for $6000 for the purpose of putting in a good light and water system.

The Dalles Times-Mountaineer says: It is reported that 10,000 head of horses have been bought in the section of country between Umatilla and Castle Rock, in Washington, by the Linnton cannery, at an average of $1.50 per head.

At a meeting of the stockholders of the Lake County Co-operative Union, at Pine Creek, last week, it was found that the store business was about $900 behind, that the longer it was run the farther behind it was getting.

A little 13-months old child of Mr. and Mrs. Charles Dye, died at Myrtle Point Monday. The little one accidently drank a quantity of concentrated lye from a can, and was brought to town for medical aid, which proved futile.

A special officer of the Wells Fargo express, C. H. Jennings, arrived in Roseburg Sunday with Albert Pool, whom he had arrested in Washington county, Idaho. Pool will be held for trainrobbery in Cow creek canyon, 1895.

Mr. and Mrs. Nelson Swaggart, at Athena, celebrated their 50th wedding anniversary. Mr. Swaggart is 80 years of age and Mrs. Swaggart 66. They crossed the plains in 1853. They lived in Lane county 20 years and removed to Eastern Oregon.

Tony Hansen, aged 11 years old, made the trip from the Alsea country in Lane county, a distance of 60 miles. He was thinly clad and bare footed, having on light overalls and a thin shirt and ragged coat. He came to ask the county board for aid. He heroically made the long journey on foot.

A 12-year-old daughter of a section foreman at Oregon City fell through the railroad bridge at the Clackamas last evening, a distance of fully 12 feet, to the ragged rocks below. She was carrying an umbrella, which opened as she fell, and served as a parachute to ease her fall, and her injuries consist of bruises.

A phenomenon in the shape of a calf was born to one of Mart Walter's cows, at Lakeview, last week. Twins were born, one of them without a vestige of a tail. In fact, says the Examiner, in the place where that useful appendum ought to be, several of the vertebra are missing, which gives the calf a very ludicrous appearance.

S. S. Piersol came to Pendleton Friday evening from Ritter, Grant county and reported that, while he was at Jacob Brown's place, on Owens creek, between Ukiah and Alba, word came in from the mountains that a sheepherder had shot himself in the leg near Camp creek, at the head of Camas prairie close to the North Fork.

There were only two Kangaroo Columbia bicycles in Oregon, One is owned by E. M. Waite, the vetern printer of Salem, now over 70 years of age. Mr. Waite, continues to ride his wheel regardless of its being for out of date. The other is owned by the Man about town, of the Democrat office, and there is a rumor that it will be seen in the plug ugglies on the 4th of July. It has not been used for several years.—Albany Democrat.

The Rosepurg Review gets this off on the women of Eugene: "A baloon-ascent and parachute jump is to be an attraction at the Albany 4th of July celebration, and the professor (?) advertises that he will marry any women who will make the ascent with him and stay in the baloon after he cuts the parachute loose. If this proposition is ever made in Eugene, it is stated upon good authority that the bold aerial navigator will be forced to enlarge the carrying capacity of his baloon." The Ashland Record gets the same thing off on Jacksonville. Come to Albany and see the fun.—Albany Democrat. Three of Salem's girls declare they will go up inthe baloon at Albany. Good for the Salem girls, they are always to the front.

Wise Men Know.

It is folly to build upon a poor foundation, either in architecture or in health. A foundation of sand is insecure, and to deaden symptoms by narcotics or nerve compounds is equally dangerous and perceptive. The true way to build up health is to make your blood pure, rich and nourishing by taking Hood's Sarsaparilla.

Hood's Pillsact easily and promptly on the liver and bowels. Cure sick headache.

ITEMS OF INTEREST.

Negotiations extending over three years were necessary before a Michigan man could buy two islands, comprising five acres from the government. The price paid was $5.50.

It is said that the patterns on the finger tips are not only changeable through life, but the chance of the finger tips of two persons being alike is less than one chance in 64,000,000.

This excerpt from Emerson would make a good political platform: "Give no bounties, make equal laws, secure life and property, and you need not give arms."

Lady Beresford and the Duchess of Marlborough are two American women who are said to be competing for the questionable honor of wearing the most jewels at English court functions.

Twenty-five states and territories are to be found in the list of our gold product for 1896, officially given by the director of the United States mint. The largest state output was California, $15,235,900, and Maryland and Tennessee are a tie for the smallest, $300 each.

The biggest figure that the mint officers could possibly make for the gold product of the United States for the year 1896 was $51,088,000, an increase over 1895 of a little over $6,000,000. Even at the low price of silver we produced $76,069,000 of the white metal.

Dr. Charles Frederick Wulllgobs, the oldest physican in Ohio still keeps up his practice, despite his 93 years. He says every member of his family, for the past 300 years, has lived over 100 years, and his grandfather, at the age of 106, cradled wheat for three days in succession.

Three young ladies of Jacobsburg, Ohio, attended evening service at the Methodist church. In walking home they were struck by lightning and killed. Their steel corsets atracted the electric fluid. A young lady walking with them wore no corsets and was only stunned by the bolt.

It is a whole day's work for two men to fell even the smallest mahogany tree. On account of the spurs which project from the base of the trunk a scaffold has to be erected and the tree cut off above the spurs, leaving thus a stump of the very best wood from ten to 15 feet high.

When you ask an editor to suppress an item of news because it does not please you; then go and ask your grocer to exclude pickels from his store because you can't eat them, or your butcher not to keep bologna because it goes against the stomach. There is just as much fairness in one as the other. News is an editor's stock in trade. So are pickels a grocer's and bologna and knockwrust a butcher's.—Dansville Breeze.

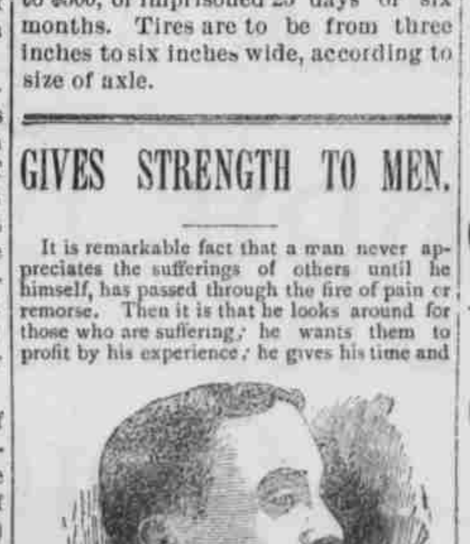
California is going to force wide tires upon its farmers, with threats of fearful punishment. The new law goes into effect January 1, 1900. Any person who sells, purchases or brings into the state after that date vehicles with tires of less width than specified in the law shall be fined $25 to $500, or imprisoned 25 days or six months. Tires are to be from three inches to six inches wide, according to size of axle.

GIVES STRENGTH TO MEN.

It is remarkable fact that a man never appreciates the sufferings of others until he himself, has passed through the fire of pain or remorse. Then it is that he looks around for those who are suffering; he wants them to profit by his experience; he gives his time and



money gladly for the benefit and never tires of his zeal. There are plenty of men weak and worn out, struggling with remorse and fear, and the natural outcome of habits that brought incapacity; a sense of lonesomeness and a feeling as if the best side of life had been banished forever. Such men should write to Thomas Slater, Box 390, Kalamazoo, Mich. He will send free of charge by mail, in a plain sealed envelope full particulars about the method he used, and this will enable any man to get a complete cure at home. It is the method Mr. Slater used to cure himself of the troubles that sap the strenght and vigor. The cure was so complete, so satisfying and such a wonderful change from his former condition that he will gladly tell others all about it, sending all particulars. He figures that he doesn't know of a better way to show his appreciation of his own cure and the sufferings of others. There must be generous men in this world to off-set the tide of avarice. Write to Mr. Slater.—it will cost nothing for his description and method
