Keep Up Your Scott's Emulsion in Summer-time

What are your resources for the summer? Have you an abundance of health stowed away for the long, hot, depleting days, or does summer find you low in vitality, run down, losing flesh, and weak? Scott's Emulsion of Cod-liver Oil will give you the proper reserve force, because it builds up the system on a solid foundation. A tonic may stimulate; Scott's Emulsion not only "boosts," it sustains.

It is a wise precaution always to have at least a small bottle of Scott's Emulsion in the house. Unopened, it will keep indefinitely. Tightly corked, after using, kept in a cool place, it will remain sweet for weeks.

New Tariff Amendments.

Work Progressing Slowly--Sharp Debate.

WASHINGTON, June 25.—A stubborn contest, over the duties on manufactured woolen goods, occupied the senate. It was a constant roll call and a cross-fire debate on the effect of the duties on advancing rates. Many amendments were proposed to reduce the rates, but they were rejected by a decisive majority. Less than five pages were disposed of during the day, carrying the senate through paragraph 370, including the chief paragraphs relating to carpets

During the day Caffery spoke at some length against the protection system and severely arraigned those Democratic senators who had voted for duties on wool and other raw materials.

LOBBYING.

Hale offered a proposed amendment to the senate rules admitting to the privileges of the floor only ex-members who are not interested in any claim or in the prosecution of the same or directly interested in any bill pending before congress.

Hale said he did not think it was compatible with the dignity of the senate that the privileges of the floor should be used by gentlemen interested in pending legislation.

Allen asked what had taken place to call attention to the subject. Mr. Hale asked that he be not requested to particularize. Mr. Allen declared there had been no more lobbying of late than there had been for years.

The proposed amendment went over.

Consideration of the wool schedule was then resumed. Allison said it was the purpose to complete the wool, silk and tobacco schedules in order named and then some paragraphs such as lead, hides, etc.

HOUSE.

An air of gloom pervaded the house owing to the sudden death of Cooke of Illinois, who was very popular with colleagues. The speaker announced the reception of an invitation from the Belgian chamber of deputies to the members of the house to attend an international parliamentary conference in favor of arbitration, which commences August 6.

Foss of Illinois, on behalf of his delegation, announced the death of Mr. Cooke. The customary resolutions were adopted and a committee to attend the funeral adopted. Then, as a further mark of respect the house adjourned until Monday.

COOKE'S DEATH.

Congressman Edward Dean Cooke, was found dead in his room at the Cochran hotel this morning, presumably of heart disease.

Cooke retired apparently in perfect health. At 5 o'clock Night Clerk Cochran was called to his room and found him suffering from nausea, but he soon recovered and declined to have a physician called. About 5 o'clock Cochran went to Cooke's room, and found he was dead.

Cook was a native of Iowa, and was 48 years old.

(Edward Dean Cooke, of Chicago, was born at Cascade, Dubuque county, Iowa, October 17, 1849; was educated in the common schools, the Cascade academy, and the high school at Dubuque; studied law with Cooley & Eighmey, at Dubuque, and at the Columbian university, Washington, D. C., receiving the degree of bachelor of laws; was admitted to the bar in 1873 continuously, and since 1876 with his present partner, Maj. Henry D. Beam, was elected a representative in the Illinois legislature in 1882 as a Republican, and was a member of the judiciary committee and committee on banks and banking and chairman of the committee on elections; was elected to the Fifty-fourth congress from what is known as the "North Side District" in the city of Chicago and re-elected to the Fifty-fifth congress, receiving 25,723 votes, against 19,144 votes for Joseph W. Martin, Free Silver Democrat, 587 votes for Sigmund Zeisler, sound money Democrat, and 269 votes for Mason, Prohibitionist.

FISH COMMISSION.

The work of the United States fish commission during the past season has been enormous. Over 100,000,000 of cod fry, hatched at Gloucester and Woods Hall, have been planted at the fisheries on the New England coast, and 2,000,000 of shad, collected in the Potomac, Susquehanna and Delaware rivers, were distributed along the Atlantic coast from Massachusetts to Florida.

About 100,000,000 lobsters have been taken to Maine and Connecticut. These are being liberated by several vessels engaged in the work.

From the hatcheries on the Greek Lakes 125,000,000 whitefish fry and 150,000,000 lake trout fry have been planted.

The hatcheries at Quincy, Ill., Neosho, Mo., Manchester, Ia., Leadville, Colo., and San Marcos, Taxes, have collected and distributed 30,000,000 and about 100,000,000 bass. Auxiliary stations are in contemplation in the Clackamas, Rogue and Salmon rivers, in Oregon, on Puget sound and Little White Salmon river in Washington.

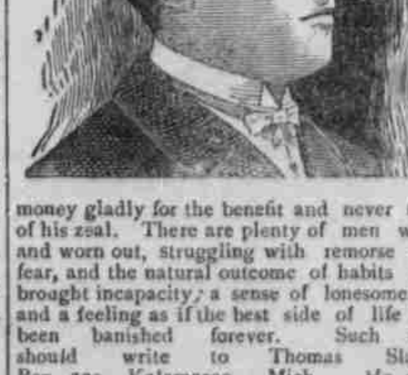
During the summer the study of conditions in the Columbia basin, with especial attention to biographical features, will be continued. This year some interesting biological investigations will be made at Wallowa lake and other series of investigations on the chain of lakes beginning with the Upper Klamath and extending eastward through Central Oregon, including Summer, Albert and other lakes.

It is believed these waters will become very valuable as sources of food supply and the present inquiries are to determine what species the waters can be stocked with.

Chicago now claims 1,800,000 inhabitants nearly all of whom are within the reach of postal communication.

GIVES STRENGTH TO MEN.

It is remarkable fact that a man never appreciates the sufferings of others until he himself, has passed through the fire of pain or remorse. Then it is that he looks around for those who are suffering; he wants them to profit by his experience; he gives his time and



money gladly for the benefit and never tires of his zeal. There are plenty of men weak and worn out, struggling with remorse and fear, and the natural outcome of habits that brought incapacity; a sense of lonesomeness and a feeling as if the best side of life had been banished forever. Such men should write to Thomas Slater, Box 390, Kalamazoo, Mich. He will send free of charge by mail, in a plain sealed envelope full particulars about the method he used, and this will enable any man to get a complete cure at home. It is the method Mr. Slater used to cure himself of the troubles that sap the strenght and vigor. The cure was so complete, so satisifying and such a wonderful change from his former condition that he will gladly tell others all about it, sending all particulars. He figures that he doesn't know of a better way to show his appreciation of his own cure and the sufferings of others. There must be generous men in this world to off-set the tide of avarice. Write to Mr. Slater—it will cost nothing for his description and method
