BY HOPER BROTHERS.

WEDNESDAY, JUNE 30, 1897.

The senate committee recommends that Hon. H. W. Corbett be given his seat as per appointment of Governor Lord in his right to appoint. There is little doubt that the senate will seat Mr. Corbett. He is a gold standard man, but he favors a moderate tariff and will be a strong supporter of McKinley administration. He possesses the most eminent qualifications for a Republican senator from Oregon at this time. He will be especially acceptable to New England and the great financial centers and a tower of strength in sustaining the policy of producing prosperity and confidence on the gold standard theory. McKinley owes Governor Lord a great debt.

In Dr J. A. Richardson's bill for pauper dietoring, as published in Tuesday's JOURNAL, was a mistaken use of the word "rebate." The bill was $113 75, "less rebate" $72 50 leaving $41 25. What the doctor meant was "discount," as Dr. Lee Steines put it. Rebate as the word is used now, is money covered back after it has been collected and paid over. Of course, Richardson meant discount or deduction. But in public records every word has an exact legal meaning. The practice of allowing large discounts on bills against the county is a questionable one. Where the discount is nearly twice the sum allowed, it looks as though a worthless account had been unloaded upon the county. The doctors' bills are nearly all for salem, and it is cheaper to support newspapers and doctors out of the public treasury, but it is not lawful or just or expedient, and it ought not to be tolerated.

Important events in the world of letters are as much a part and parcel of the current history as wars and politics. The publication of the Count of Monte Christo, or the completion of a sketch like Dicken's "Little Nell," or Harriet Beecher Stow's "Topsy" are world events as much as the Battle of Bunker Hill or the Coronation of the Czar. June will be memorable in literary history for several things. Du Maurier's "Martian" came to a rather unsatisfactory close. But for his identity with it, in an autobiographical relation, it must rank inferior to his other two novels, Peter Ibbetson and the immortal Trilby. Miss Wilkins concludes her New England story, "Jerome, A Poor Man," in a most sane and reasonable manner. Its charm is for old and young. It is a literature on the high plain of the universal, on the level of the common human interest. The third event is Frank R. Stockton's "Great Home of Sardis." In the opening chapters he bids fair to surpass in this new work the adventures of Captain Horn.

Scipio was the old Roman general, whose warcry, "Carthago delundum est," has come ringing down the ages. Carthage must be destroyed, or there was no place and security for the Roman Republic. So the present court house methods of transacting business must be destroyed, or there is no peace and security for the Marion county taxpayers. The publication of the doctor's bills shows how "business" is transacted in that branch of the pauper accounts. The investigation of other departments would show the same state of affairs. Favoritism and looseness, recklessness and extravagance have characterized this administration. War must be made on the utter incompetency of the county court to transact public business properly. Because the grand jury disagreed, that doesn't settle the matter. The evil is still upon the taxpayers. Unless extirpated root and branch, and a reformation of the methods of auditing, recording and paying public accounts is made there can be no peace or security for the honest citizens and unprotected taxpayers. Rogues and professional treasury raiders may keep silent and express satisfaction. But for all others the rotten system must be destroyed. If the leaders and managers of the Republican party will not take up this matter and give the people protection, they doom their party to a deserved defeat. The people will and should take the matter up and condem such travesty on orderly county government. Meetings are already called at several places in the county and public indignation is growing at seeming indifference of those directly responsible in a political sense.

Reports of grasshopper damages to Morrow county's fields, are confirmed. It is now said that there will be no grain raised in the northern part of the county this year, and but a small amount of hay, the grasshoppers having destroyed everything in sight.

CALIFORNIA

Some Notes and Observations by a Marion County Boy.

SAN FRANCISCO, Cal., June 25, 1897.

EDITOR JOURNAL.—I left Salem on June 21, by boat, for San Francisco. Reached Portland at 4 p. m. Left Portland at 6 p. m. with fifteen coaches, the largest through train for this season, and right here let me say for accommodating gentlemanly employes, the Southern Pacific cannot be surpassed. The journey through Oregon was made mostly by night, though we saw much of Rogue river valley, the pride of Southern Oregon. We reached Gold Hill by 6:53 a. m. We found F. K. Churchill and family located, had a moment's conversation with him. We had to journey on. Ashland is a beautiful city. Nestled you might say in the foothills of the Siskiyou mountains. We now come to the most important part of our journey. Our train was divided at Ashland into sections one and two then commenced the ascent into the most wild part of country we had ever witnessed. The scenery is simply grand, beyond description. One must see to believe the mighty works of nature. Over mid-air trestles, winding around mountain and through tunnels soon presents to view that monarch of all he surveys, Mt Shast with the train at an elevation of over 4000 feet. Mt. Shasta towering far above the clouds. The scene is simply soul inspiring, but we pass on, next of import is Shasta springs. Here people never die. Bentifully nestled in a little cove is the springs. Trains stop ten minutes for soda. Thats all the people drink here. What a rush for the springs, every passenger with cup in hand rush for the fountain gushing forth from the side of the mountain. High in midair is the cool and sparkling soda, forming rainbows, as it falls. I will say to my friends if you want a summer resort come here don't miss the low fare, you will never regret it. Castle Crag must be seen to be appreciated. We are now desending into the Sacramento Valley, night closes the scenry, and we descend rapidly across the Oregon and California state line and enter the land of oranges and bananas. Arrive at Sacramento at 3 a. m. Arrived at Oakland Pier, at 8:30 a. m. Friends meet us here. We cross the bay for Alemeda where we are now stoping. Will now close and if this escapes the waste basket.

More anon.

ANOTHER ONE.

ALAMEDA Cal., June 26, 1897.

EDITOR JOURNAL:—I shall give a short description of Alameda. Alameda is situated on the east side of the bay, a beautiful city of 35,000, with its broad streets, pleasant homes and finest sewerage system known. Many business men live here where they can enjoy quiet rest. No one should visit California without seeing Alameda. There are many things of interest to the tourest in and around San Francisco. Academy of Science, Seal Rock, Governor Barrack's Palace hotel, largest and best equipted in the city. To one not used to the noise of a great city you would suppose by the amount of people on the streets that business was good, but business men tell me that everything is very dull, go where you will, you see the effects of the gold standard empty houses by the hundreds. The business men of California are just beginning to find out there is something wrong. They are rapidly becoming educated though, and we may expect good returns from California, for silver in the future. The Honorable W. J. Bryan will speak in Alameda on July 7. He will meet with a grand reception, although Alameda gave McKinley 5000 majority in November. Today we have set apart for visiting Oakland. If we see anything of interest there, we shall let the readers of THE JOURNAL know of it.

Baby's Second Summer

is the time that tries all the care of the mother and all the skill of maternal management. Baby comfort comes from fat; fat babies have nothing to do but to sleep and grow.

If your baby does not seem to prosper, if he does not gain in weight, you must get more fat there. A few drops of

Scott's Emulsion

each day will put on plumpness; fat outside, life inside, baby and mother both happy.

Your baby can take and relish Scott's Emulsion as much in summer as in any other season.

Independent Comment on People in State and Nation.

Will the people who pay the bills hold a mass meeting, and see how badly they have been robbed? They can ascertain.

Still the potato poetry continues to bloom. If the yield of spuds is anything like the crop of verses sent this office, no one will go hungry.

The American "X Ray Journal" for June has just been received.

The politicians who are running the teachers institutes for all there is in it got a dose they did not bargain for when they invited Rev. Lindsay to talk to them.

* * *

Lawyers, contractors and ring editors are not the only ones who know how. There are doctors who can draw a bill against the county.

* * *

The county ought to spend at least as much for flour and bacon as for patent medicine for the poor.

* * *

Marion county has a promising young bar. The district attorney is a Silver Bryan Democrat and his partner is a McKinley Republican; but both have now a warm place in the affections of the taxpayers by the vigorous manner in which they prosecuted the court house investigation.

* * *

Confidence has finally struck Salem. A prominent business man announces he will give no credit after July 1.

* * *

The case against Juryman Townsend was finally dismissed. It now leaks out that when arrested, Townsend was not so badly intoxicated but was only in a very talkative mood. Some of Judge Terrell's friends were standing by, and deemed it best to have Townsend taken in charge before he should reveal some startling facts regarding the court house investigation that followed.

"All things come to him who waits." Don't you believe it! You must hustle while you wait. Your trade isn't what it ought to be. Your competitors advertise and hustle for business while you wait. You must advertise, too. If you are not acquainted with THE JOURNAL "X Ray," let a trial order prove that you have lost money by not knowing it sooner.

* * *

Ex-Grand Juror Townsend ought to have a pretty steady job around the court house unless there is a new deal.

The Salem Statesman yesterday gave Judge Terrell the hardest hit yet. It published his picture.—Albany Democrat.

ANOTHER POTATO POET.

Mine eyes are now so blinded
That things look almost, like mud.
Please teil me, are these tariff blooms?
Or, blooms upon the spud.
Can you tell me what this light is?
It shines so like the moon:
Are its rays from "Grover's panic
Or is this McKinley's boom?"

If times get much more prosperous,
And I dare say there is room;
I'll be to my knees in clover.
When my spuds have shed their bloom,
But say, dear frinds, protect me.
If I count my chicks too soon,
For sure poor "Grover's panic
Looks like Mc Hanna's boom."

But if spud blooms will make confidence,
And clear away this gloom,
So I can see more clearly
How to escape the doom
Of getting into "Grover's panic,"
Or e'en McKinley's boom.
I'll gather spud blooms all this month
And store them away in jars,
Then buy friend Mitchell's senate road
And ship blooms and spuds to mars.

THE COUNTY CAMPAIGN—Will soon be here but men of all parties should not become so interested in politics that in purchasing cigars they will overlook the home product. The La Corona is generally conceded as superior to all other 10 cent cigars in the market.

Seven Months With Fever.

Wonderful Recovery of Health.

Mr. Baird's rapid and marvelous recovery from a mere skeleton to his normal weight, 270 pounds, was surely the fullest test of the grandest strength-giving and building-up medicine ever produced, namely:

Dr. Miles' Restorative Nervine.

J. H. BAIRD.

"Gentlemen—I wish to express to you my gratitude for the great good that *Dr. Miles' Nervine* has done for me. I was taken sick with typhoid fever and I laid in bed for seven months. After getting over the fever I was thin, nervous and tired, and did not regain my lost strength. I tried several proprietary medicines, and finally, after having been reduced in weight to 130 pounds, I began trying your *Nervine*, and at once began to improve. Was finally *entirely cured*, and today I can say I never felt better in all my life, and weigh 270 pounds. This is my normal weight, as I measure 6 feet 5½ inches in height."

South Bend, Ind. J. H. BAIRD.

Dr. Miles' Nervine is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at $1, 6 bottles for $5, or it will be sent, prepaid, on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.

Dr. Miles' Nervine Restores Health

Healthy Old Age

is the result of careful living. Keeping the blood pure and the body free from even minor ailments adds years of enjoyment to one's life. The trouble with most of us nowadays is, that we live too rapidly. We are in such a hurry to get some place, or do some thing, that the care of our bodily health is wholly neglected. Nature never pardons neglect. Her laws must be respected, or punishment ensues.

A man may abuse his stomach for a time, but after awhile dyspepsia comes and liver complaints and kidney troubles. These things develop all the latent weakness in his body. They make digestion imperfect, they prevent proper assimilation, proper secretion of the digestive fluids and the proper excretion of refuse matter. Probably the last is most important of all, for poisonous matter in bowels, liver and kidneys soon gets into the blood and so is carried all over the body. There is no telling where such things will stop.

In the beginning, a little common sense and a simple, natural remedy is all that is needed. Even when the trouble has progressed to serious stages, a simple, scientific remedy working strongly with Nature—soothing, stimulating, invigorating the organs of digestion, will have a wonderful effect on the whole body. There is really nothing wonderful about it. The blood is all made in the digestive organs. If they are healthy and strong, the blood is the same and it makes every part of the body strong.

Dr. Pierce's Golden Medical Discovery puts the digestive organs into perfect condition. It makes them capable of performing perfectly all their functions. It increases the power of assimilation and so makes good, solid healthy flesh. A book telling all about it (1000 pages) will be sent *free* on receipt of 21 cents in stamps to cover postage and wrapping *only*. World's Dispensary Medical Association, Buffalo, N. Y.
