

ROMANCE VERSUS REALITY.

THE SENATORS POSED FOR A GREAT HISTORICAL PICTURE.

THEY DIDN'T KNOW IT WAS A ROENTGEN CAMERA.

New England is much concerned with free hides. Some of her biggest industries, especially that of boots and shoes, have been built up during our century of a century of free hides. She exports boots and shoes in all parts of the world. Taxed hides would cripple her and other industries. Her leading exporters pretend to represent her and to put up a fight for free hides. In reality they will, if necessary, sacrifice free hides to obtain high duties on sugar with plenty of margin for trust profits. Just why this is so should be a matter for senatorial investigation, if investigation would only investigate. Fortunately for the Sugar trust, unfortunately for the rest of us, 100,000 people, the Sugar trust understands well the art of making friends. They will do the most good. It is the able attorneys to advise it how to distribute its sweets to politicians and bankers and at the same time to clear of jalls. In this way and in this way only can account for the attitude of not a few senatorial tariff makers at Washington. The situation is interesting—decidedly

Prices of Linens Go Up.

When the tariff bill was about to be passed, the Republican leaders stated they desired to be moderate and to do anything like excessive rates. Mr. Dingley, when introducing the amended measure into the senate, claimed that rates were generally lower than those of the house bill. The linen schedule, however, is a notable one of exceptions. In it the senate rates are higher than those of the house and higher than anything ever before known. Under the McKinley bill of 1890 linens were assessed 35 per cent, with a few exceptions as high as 50 per cent in value. Under the rates proposed in the senate a large proportion of the linens in everyday use will be assessed from 65 to 85 per cent and in some cases over 100 per cent. The following table shows some of the changes in the price of medium and low grade linens:

Table with 4 columns: New duty, Price per yard, Old duty, Price per yard. Rows include items like 'Linen tablecloth', 'Linen for roller towels', 'Linen for dress lin.', 'Linen for butchers' aprons'.

The domestic manufacturers in whose interests these changes are supposed to be made have stated that they do not desire over 50 per cent duty on linens, and one of the principal manufacturers of linen and cotton handkerchiefs in America (of Acheson, Hardon & Co., Passaic, N. J.) states that he does not desire any advance of duty on his goods.

The gross injustice of these duties cannot be appreciated when it is remembered that, owing to climatic conditions, good fiber flax cannot be grown in this country, and when it is further remembered that the kind of linen that is used is the kind that is used by the poorer classes, while a much lower duty is put on the finer grades.

"A License to Steal."

That must have been embarrassing information to the United States senate when Statistician Carroll D. Wright furnished that body last week concerning the labor cost of lumber in this country and in Canada. His figures showed that the average wages in Canadian mills is \$1.41 and \$1.71 per day, while the average labor cost of 1,000 feet of lumber is \$1.28 in Canada and \$1.01 cents here. The decreased cost of production in this country is attributed to the superior machinery used. The contention that the rate of wages does not indicate the cost of production—that low wages are very often expensive to employers, and vice versa. But these hard facts furnished an officer of the government who made the lumber barons from their lips to get a tariff on Canadian lumber so that they can more effectually American consumers. Protectionists are nothing for facts. What they want is a license to steal.—National Single

Who Pays the Tax?

The Republicans claim that "the foreigner pays the tax" is amply proved by the following letter, which will appeal to the people of Nebraska and Iowa, as it interests them particularly:

The explanation of the recent marked advance in the price of burlap bags is in the prospect of a tariff. Under the Wilson bill they are on the free list, but the Dingley bill provides for a duty which would amount to about 10 per cent per bag on the 60 lb. sack, eight cents on the 40 lb. sack. The price on our recent market is the lowest which we can offer on the present market. Yours truly, BIRMINGHAM BAG COMPANY, M. C. PETERS, Manager.

The consumers of burlap bags who live in this section of the country need not imagine that the increased price of bags concerns them. The foreigner has to pay it. Congressman "Champ" Clark, in his speech on the Dingley tariff bill, said "the passage of the bill will force every merchant in the land to make a tariff for revenue only speech every time he sells a bill of goods across the counters." The above letter is only one of the tariff speeches referred to by the eloquent and witty Missouri congressman.—World-Herald.

Elkins on Wages. "Wages must go down," says Senator Elkins in a recent interview published in the Cincinnati Enquirer. "Wage earners," continued the senator, "do not wish to see it or believe it, but it is so." And again he said, "Wages in America stand against any revival of business."

He was discussing the coal trade. He said, "We do not export coal to Europe because we have wages against us, and that is the whole kernel of the coal trade." Being asked whether black labor was settled in the mines of West Virginia, he said: "Firmly. It is as effective as white labor and does not combine and conspire, and the negro spends all he makes, while the Italians and Poles send every cent out of the country." The senator has just as decided ideas on the tariff question. He is firmly convinced that protective duties, especially those on coal, should go up. Tariff up, wages down. That is what happened under the McKinley bill and is what will happen and in fact is happening under the Dingley bill. It is all done in the interest of labor.

Miss Columbia's Overgrown Infant.

I believe in protecting infant industries, but when the infants get to be six feet high and grow whiskers, and when they threaten to kick the end out of the cradle if they don't get more pay, I think it's about time to take the bottle away from them.—Colonel R. G. Ingersoll (Rep.).

The Airship's Mysterious Voyage.

The airship that was launched in Nashville last week has disappeared from sight, but by accounts of "entirely reliable observers" it was last seen heading for Canada. Intimations are thrown out that after taking on an assorted cargo of dutiable goods the ship will recross the line and land its cargo in some quiet spot far from the reach of custom house officers. In regard to such a cargo, it would be extremely difficult to apply Secretary Gage's circular of instructions for the retroactive section of the Dingley bill.—Philadelphia Record.

GIVES STRENGTH TO MEN.

It is remarkable fact that a man never appreciates the sufferings of others until himself has passed through the fire of pain or remorse. Then it is that he looks around for those who are suffering; he wants them to profit by his experience; he gives his time and

money gladly for the benefit and never tires of his zeal. There are plenty of men weak and worn out, struggling with remorse and fear, and the natural outcome of habits that brought incapacity, a sense of loneliness and a feeling as if the best side of life had been banished forever. Such men should write to Thomas Slater, Box 390, Kalamazoo, Mich. He will send free of charge by mail, in a plain sealed envelope full particulars about the method he used, and this will enable any man to get a complete cure at home. It is the method Mr. Slater used to cure himself of the troubles that sap the strength and vigor. The cure was so complete, so satisfying and such wonderful change from his former condition that he will gladly tell others all about it, sending all particulars. He figures that he doesn't know of a better way to show his appreciation of his own cure and the sufferings of others. There must be generous men in this world to offset the tide of avarice. Write to Mr. Slater—it will cost nothing for his description and method
