#### Five Killed at a Fourth of July Celebration--Other News.

CHICAGO, July 6.—Patriotism claimed five lives yesterday, and there was an unusually large list of maimed and injured people as a result of the celebration. The dead are:

James W. Kean, found dead in his back yard, struck in the head by a stray bullet.

Charles Smith, frightened by the explosion of a giant firecracker, and fell out of a second-story window.

John Hoffuler, killed by the explosion of powder in a glass bottle, which he held in his hands.

John Thomas, killed in exactly the same manner as above.

William Allen, clothing fired by firecrackers, causing fatal burns.

About 50 people were slightly injured during the day.

#### Wedding Trp.

NEW HAVEN, Conn., July 6.—On Tuesday next Hugo J. Lee and Miss Florence Leonard, of Meriden, will be united in marriage, and will immediately start on one of the most novel trips ever undertaken, the tour extending to the frozen regions of Greenland. Mr. Lee has for years been an intimate associate of Explorer Peary, and has accompanied him on his voyages to the frozen zone. This time his bride will accompany him, going with the Peary expedition, which leaves Boston about July 15.

#### Exclusive Celebration.

HAVANA, July 6.—The exclusion of American newspaper correspondents from the Fourth of July celebration over which Consul-General Lee presided, at the United States consulate, is commented upon in local Spanish circles. It is also remarked that no Spanish official was invited to be present, and that the guests included no member of the Spanish conservative party.

#### Aeronauts Injured.

EUREKA, Cal., July 6.—A terrible accident occurred here in which two men were fatally injured. Professor George Weston, aeronaut and his assistant, H. Scotton, of Aberdeen, Wash., were fearfully crushed while the former was attempting an ascension and parachute jump. When the balloon was inflated and restraining ropes cast off, it shot up 60 feet, with Scotton entangled in the ropes. He was dropped to the earth and sustained fractures and bruises from which he will die. Weston clung to the parachute, and a strong wind carried him with terrific force through the tops of some trees, and he, too, dropped to the earth crushed and mangled terribly.

#### Patriots Returning.

NEW YORK, July 6.—George Viler, a Greek of this city, and 15 other Greeks who three months ago were among the patriots who went to Athens to offer their services to the king of Greece, returned on the French line steamer La Bretagne. They had started for their several homes, some of them having been settled in the West.

Mr. Viler says that on reaching Athens they were told that their services would not be required, and they were, therefore, not enrolled in the army. Of the several hundred Greeks who went from the United States, many will remain in Greece. Others are scraping together their means and will endeavor to return.

#### Drowned.

SAN FRANCISCO, July 6.—While the schooner Laurence and William was sailing down the bay from Broadway wharf for Redwood City, with a cargo of hides, Captain John Henning was knocked overboard by being struck by the boom of the mainsail, and was drowned. His body has not been recovered.

#### President's Mother Injured.

CANTON, O., July 6.—President McKinley this morning took a stroll through the yard before the sun was high, and shortly after joined his mother, who was sitting on the front porch. Mother McKinley, in walking on the porch, on a piece of straw carpeting, slipped and fell, striking her forehead on the doorstep. Although 88 years old, she was not so stunned but she was able to arise in a few moments and wash away the blood. The doctor was summoned, and found a cut so deep as to require sewing up.

#### Suicide.

SAN FRANCISCO, July 6. John Hall, a barber employed occasionally in the Palace hotel shop, has committed suicide. For some time he has been sick and unable to earn enough to support his wife and children. The barber shop was closed yesterday, but Hall entered it, having a key, early in the morning, and seating himself in a chair, swallowed carbolic acid. He was discovered dead soon afterwards.

#### Fired by Fireworks.

SAN FRANCISCO, July 6.—Fire destroyed seven small houses on Sacramento street, near Jones, causing a loss of \$10,000, and rendering 13 families homeless. The fire was caused by an explosion of fireworks. One of the tenants charges the owner of some of the property with starting the fire, but little attention is paid to the charges.

#### Alleged Talks.

#### Careless.

OAKLAND, Cal., July 6.—Mary Sullivan, a young woman who lives with her mother in West Oakland, swallowed a pin several days ago, and she is in great agony. A week ago Miss Sullivan was plying some household care and unconsciously placed a pin between her lips. She drew a deep breath as the result of some exertion and swallowed the pin.

#### Hopgrowers Meet.

The Yakima hopgrowers' association met last week, and decided that 75 cents a box or 4 of a cents a pound be the established rate for picking, and a committee of three, consisting of Messrs. Lesh, Sandler and Jason Carpenter, was appointed to obtain reduced transportation rates from all points for pickers. The association also decided to meet regularly hereafter on second and fourth Saturdays of the month.

#### REPAIRS PROGRESSING

Big Bridge Will Probably Be Open to Travel By Friday Night.

The work of repairing the big bridge is progressing quite rapidly and the work will be completed much sooner than was at first expected. The planking of the bridge will probably be completed by Friday when it will be open to travel.

Some prejudiced persons have been making some complaint about the manner in which Contractor R. M. Gilbert is adjusting the bridge tension. When it is known that the parties making these complaints are actuated into doing so by failing to secure sub-contracts of the work from Mr. Gilbert, their statements will not be given any consideration by fair-minded people. Mr. Gilbert is proceeding with the work as per contract and the traveling public will ever appreciate the rapidity with which the work is being prosecuted and the opening of the bridge to travel once more. It is unjust to say the least that such reports should be so industriously circulated. CIt.

EXECUTION SALE.—In case of H. S. Gile, vs. Geo. P. Baldwin, Sheriff F. T. Wrightman, this morning conducted an execution sale when a good bicycle sold for \$19.50. Four large handsome mirrors brought \$8.75 while a serviceable clock sold for \$2.50.

## HEAT.

### Prostrations in the East.

#### Twelve People Perish and Thirty-five Prostrated.

CINCINNATI, July 6.—There were twelve fatalities from heat. There were 35 prostrations of which official notice was taken by the police, conveying the victims to homes or hospitals, and fully as many minor cases in which the victims were able to go home without. The weather bureau reports the mercury at 70 deg. at 5 a. m. and 93 deg. at noon which was the maximum.

The local weather bureau, in answer to queries, refers to Saturday's prediction, which extended the hot blast over Tuesday. Street thermometers registered the temperature from 3 to 5 degrees above the weather-bureau figures. There have been 31 fatalities in three days.

The Commercial Tribune special report result of the heat from outside points as follows:

Springfield, O.—Nine cases of heat prostration.

Toledo.—The sham battle resulted in 20 men being overcome, no very serious cases.

Wapakner—Friday, Saturday, Sunday the Mercury stood all the way from 102 to 108. The farmers cannot do harvesting. The extreme heat has had serious effect on horses. Wheat is dead ripe, and is beginning to become brittle.

Parkersburg, W. Va.—Yesterday was the hottest day on record here, the maximum temperature being 90 at the weather bureau and 112 in the shade on the street. No fatalities reported.

#### HOTTEST FOR TEN YEARS.

PITTSBURGH, July 6.—The thermometer reached 99, the hottest July day for 10 years. As a result, two deaths and 17 prostrations are reported. During a heavy storm, Matthews, a well-known horseman, was killed by lightning at Homewood race track.

#### Instantly Killed.

SAN FRANCISCO, July 6.—There was a fatal accident at the city fireworks display near the end of Haight street. Edward J. Matthews, 20 years old, a driver for the DeLong Bros. dairy, at 1015 McAllister street, while watching the display, was instantly killed by the explosion of a mortar, and his companion, Miss Hildenberg, was badly lacerated on the face, and received a shock to her system which may affect her mind.

A battery of mortars, which had been placed on Clayton street, was to be fired, and two employes, Will Martin and Vollers, set fire to the fuses of the battery. Without a single warning one of the 36-inch mortars exploded, and the death-dealing fragments of iron were hurled in all directions. By a strange fatality the two men who were engaged in setting fire to the mortars were uninjured, while the unfortunate young Matthews, who was standing fully 50 feet away, in the middle of Clayton street, was struck on the forehead by a piece of the flying iron and the whole top of his head was carried away. Death was instantaneous.

Miss Hildenberg, who was on the arm of the unfortunate man, was badly cut on the face, and when the police ran to her assistance she presented a frightful sight. The brains of her companion covered her from head to foot, and mingled with the blood which flowed from the severe wounds which she had sustained.

#### Street-Car Strike.

HOUSTON, Tex., July 6.—Not a trolley car is running in this city, the men having struck to compel recognition of their union. About 20 cars ran until 5 o'clock this afternoon, when the company gave up efforts to run cars, leaving thousands of people in the outskirts of the city.

They have been pushed to the fullest capacity, and are putting up a quality of fruit that will be a great credit to Oregon wherever it goes. Their dryer is the patent Stevens dryer, which they are manufacturing with great success. A small machine of this make is now on exhibition at Steiner & Blosser's hardware store.
