## STRIKE.

### Victory for the Coal Miners.

More Men Join the Strikers--Officials Deny This.

PITTSBURG, Aug. 5.—The strikers gained another victory at Plum Creek by inducing more diggers to join the ranks. This leaves the mine working with about half the force of yesterday. The New York & Cleveland Gas Coal Company claim that all the Plum Creek miners are working, where the strikers say that not more than 40 men are in the pit. The complete closing of the mine may be expected in a few days. Strikers were reinforced by large bodies from Sandy and Furtle Creek. The combined forces arrived at the mine when they marched back to camp, taking with them in triumph 20 diggers, who came out.

The demonstration against the DeArmitt mines has had the effect of decreasing their capacity from 340 cars to 42 cars.

The hearing of President Dolan and other miners' officials charged with riot and unlawful assemblage, is set. The case will be dropped by the defendants giving bail for the court and a nolle prosequere being entered later.

The miners at Schmick's mill, on the Redstone branch of the Pennsylvania railroad, came out today and the mines are once more closed down. When the news was received in this city the price of coal jumped to \$1 a ton, and the brokers said prices were likely to advance to \$1.50 before next week.

President W. P. DeArmitt, of the New York & Cleveland Gas Coal Co., says his men are not on a strike, and not in sympathy with the movement. "They have been intimidated," he said, "and I have no doubt that all would return to work if the strikers encamped at the different mines were withdrawn."

LATER.

The strike situation has not changed. Everything about the Turtle Creek camp was quiet. The strikers claim twenty new accessions to their ranks from the Plum Creek mines.

No work was done at the Oak Hill or Sandy Creek mines. The camp was reduced in number by 300 men.

They were sent to their homes for two reasons—to lessen the expenses, and because the men were not inclined to the numerous marching orders imposed on them. The camp has been costing \$300 a day to keep it in provisions, etc., being at the rate of 7 cents per day per man, as against 18 cents per day in the national guard encampments. The camp is now under strict military discipline, and everything is moving like clockwork, and the customary march will be made to Plum Creek in the early morning and will be continued daily, the miners' officials say, until the suspension in the DeArmitt mines is complete.

At the hearing in the case of Dolan and others for riot and unlawful assemblage, before Justice Clemens, a number of witnesses were heard, but the justice reserved his decision. The hearing of the four miners, arrested last week at McGovern mines near Cannonsburg, for trespass, was concluded. No evidence connecting the defendants directly with the song "We Will Hang the Black Sheep to a Sour Apple Tree," or use of opprobrious epithets were produced. None of the defendants appeared at the hearing, and they were held in contempt, and attachments were issued for their arrest.

Arrangements have been completed for an open air demonstration under the auspices of the United Labor League of Western Pennsylvania in the interest of the striking miners. The leaders expect 20,000 people to attend. The meeting will be addressed by E.

V. Debs, Mrs. Mary Jones of Chicago, M. M. Garland, president, and W. A. Carney, vice-president of the Amalgamated Association, and M. M. Garlick.

After the addresses an appeal will be made to the audience for financial assistance for the striking miners.

Ohio Miners Out.

CANTON, O., Aug. 5.—Over 100 Osnaburg miners headed by a band visited all the local mines and succeeded in inducing all the miners to come out. An agreement was reached whereby no coal will be mined for any purpose whatever, until the present troubles are settled.

Strike at Atlanta.

ATLANTA, Ga., Aug. 5.—Two hundred women and girls employed at the Fulton Bag & Cotton Mills, in this city, struck because of the employment of negro help by the management.

The operatives learned that 25 colored women were to be put to work in the folding department. The white women asked President Elsas whether it was true that he proposed to put negroes to work with them. He said he did, and the white women refused to go to work.

At noon the 400 men employed in the mills walked out in obedience to the orders of the Textile Workers' Union, and in sympathy with the striking female operatives. This forced the closing down of the factory. Eight hundred men, women and children are affected by the strike.

Demand Former Wages.

NEW YORK, Aug. 5.—One hundred women, employed as warpers in the Rhenia silk mills, at College Point, L. I., made a demand for the re-employment of the men who struck two months ago, in consequence of a reduction of 30 to 40 per cent in wages. The request was refused, and the strikers decided to stay out until they win.

Will Visit Oregon.

CHICAGO, Aug. 5.—Within a short time Secretary of Agriculture Wilson will make a report on the condition of the Western states as regards the culture of the beets for sugar. The cabinet official in this city, on his way to the West. He will visit Utah, Montana, Oregon, Idaho and a number of other Western states with the idea of investigating the conditions for growing sugar beets.

During the past season he has sent the seed of the sugar beet to 22,000 farmers. The majority of them are now growing the vegetable. The valleys of the West are well adapted to raising them, and it is his opinion that this industry will deal a severe blow to the sugar trust.

He has received a number of letters from those interested in cornering sugar, asking him what he would do in the matter of sugar beets. He said:

"I failed to reply to any of them. After a tour which will last a month, I believe I will be able to make a report of the condition of the West for the culture of the saccharine bulbs. It costs but an average of \$12 an acre to water a number of the valleys in the West I have seen, and I have figured that the farmers can make a handsome profit."

"As for the Clondyke gold fields, my department has sent a number of experts to make a report of their condition. The experts were instructed to look after the agricultural interests of the United States in the new Eldorado."

Oregon Flour

WASHINGTON, Aug. 5.—Consul Reid at Tien-Tsin, reports to the state department that the importation of American flour there is restricted in the needs of foreign residents, and that the standard of living among the Chinese and cheap labor affords no opportunity to extend the importation of flour for their use. American flour controls the market. California and Oregon flour retails at \$3 (Mexican) per 50 pounds.

Gross Outrage.

PHOENIX, ARIZ., Aug. 3. Gordon Hunsaker, one of the wealthiest pioneer ranchers, of the Salt river valley, being held a prisoner by the Mexican authorities at El Pasco, in the state of Sonora.

A month or more ago Hunsaker left Mersa City for the southern part of the territory to find and identify some cattle thieves. Some time before he had purchased a large herd of cattle from Indians. These cattle proved to have been stolen, and Hunsaker was obliged to relinquish them to the owner. Then Hunsaker went with the Mexican authorities, at El Pasco, to arrest the Indian cattle thieves, whom he succeeded in locating. A fight ensued, in which one of the officers was wounded.

Hunsaker has been arrested and is held as a witness against the Indians, and the Mexican authorities decline to release him until the trial is held.

Violated Labor Law.

PEORIA, ILL., Aug. 5.—W. B. Berham, grand secretary and treasurer of the Order of Railway Telegraphers of America, has been arrested on the charge of violating the federal statute forbidding the importation of alien labor contract.

W. E. Reese, who recently resigned a clerkship in the general offices, is the complainant in the case and A. S. McLellan is the man who it is claimed was imported to take his place.

Mr. Berham was taken before United States Commissioner Howe and gave bonds in the sum of \$500 for his appearance at the hearing, which was continued for 10 days.

Experts Report.

TOLEDO, O., Aug. 5.—A summary of the report of Expert Geo. R. Mackenzie, who experted the books of the various county officers of Lincoln county, was filed by County Commissioner Chas. P. Williams in the county clerk's office. By the terms of the summary the clerk is short \$4,800, the sheriff \$2,300, and the treasurer \$9.05. The shortage in the clerk's and sheriff's offices is caused by a disagreement as to whether the officers are under salary or fees. The case is now pending in the supreme court to test this matter.

Must Go.

NEW HAMPTON, N. H., Aug. 5.—Congressman Joseph W. Walker, of Worcester, who is a member of the board of trustees of Brown university, and to whose opposition to the public utterances of President Andrews, on the subject of free silver, the recent resignation of Andrews is attributed, admits that he started the agitation and says, in his opinion, there is no chance that Andrews will be permitted to remain or to reconsider his resignation.

Bryan.

MAMMOTH HOT SPRINGS, WYO., Aug. 5.—It was 7 o'clock before W. J. Bryan and party reached here. Bryan's coming having been announced, fully 200 tourists awaited his arrival. Colonel Young, military superintendent of the park, and S. S. Huntley, of the transportation company, rode up to Norris to meet him. Last evening all army officers and their wives here called upon Mr. Bryan, his wife and Mr. Welch.

Latest From Hawaii

WASHINGTON, Aug. 5.—In the last Hawaiian mail to reach the state department, bringing records of events on the islands up to the 21st of last month, Minister Sewall tells of the diplomatic correspondence between Japan and the Hawaiian governments on the labor controversy, and reports that, in the opinion of the best-informed people on the islands, the Japanese government will be amply content with the recognition by the Hawaiians of the principle for which they contend, without insisting upon substantial pecuniary damages.

Mrs. James Hunter, wife of one of Lin county's well-known citizens, died Sunday, after a long illness, at the age of about 55.

## HOPS

### Condition in Many Places.

The Hop Vermin Universal and Very Persistent.

R. L. Swartz reports his hop yards east of this city in fine shape, with no lice to speak of. He expects a heavy crop.

Capt. J. Q. Barnes, of the New York Racket store, in this city, has been spending a few days in Yamhill county, and reports every kind of crop over there in equally as good condition as in old Marion.

He was especially pleased to notice that there is much less complaint over there about the condition of hops. He reports some lice, but thinks the growers are not apprehensive of much damage. There is little or no spraying being done in Yamhill. Mr. Uriah Whitney, of Stayton, was in today and when asked about the condition of the hops in the vicinity of Stayton, said they never looked better than at present, and said he thought they were quite free of lice and somewhat earlier than usual. They have a finer color than is usual at this stage in their growth and will, unless something unlooked for turns up make a number one article.

The hop outlook is more favorable than it was a week ago, in Polk county as reported by Sheriff Pummer, who is the largest grower in the county. He says the hot weather is killing the lice faster than any spraying could.

Hopgrowers inform us that Fugel hops will be ready to pick the later part of next week. They will turn out well and will be of good quality. —Eugene Guard.

SUVER, Aug. 5.—Hoplice are reported to be present in the J. B. Stump yard near Suver, Polk county, but not in sufficient quantities to damage the crop much. The hop is far advanced in this yard and of fine rich color and if no farther damage is caused by vermin will make a first class article.

ALBANY OR., July. 5.—In regard to the situation in the hop-fields it is found that the hoplice is present in full force and is doing big damage. Considerable spraying is being done, but hops need more warm weather in order to save them. Unless it comes some yards will not be picked.

LANE COUNTY HOPS.—H. J. Ottenheimer, the hopbuyer, returned this afternoon from a brief visit at Eugene. Mr. Ottenheimer did not have enough time to visit the yards in the vicinity of Eugene but reports the lice quite prevalent. The growers are spraying their yards quite freely. (Continued on second page.)

Home From the East.

E. Cook Patton, the genial book-dealer, and Julius C. Wolfe, of Silverton, returned Wednesday from the east. Cooke reports the grand lodge B. P. O. E., which convened in Minneapolis, being a wonderful assemblage. There were 3,500 delegates present and the street parade required two hours to pass a given point. At the conclusion of the session of the grand lodges, Messrs. Patton, Wolfe and Contris, the Salem trio, who attended the Grand Lodge of the Elks, went to Chicago, where Dr. Contris is now practicing dentistry. He will not return to Salem until October. While in Chicago, Cook imagined he had been robbed when he found he was about \$100 ahead and he came to the natural conclusion that the "other fellow" had come out second best. Messrs. Patton and Wolfe then continued their journey and were next "put off at Buffalo." The wonderful Niagara Falls were visited, and the gentlemen then went to New York, thence to Salem.

To Abolish Export Duty.

SAN FRANCISCO, Aug. 5.—Advice received by the Belgic state that the Japanese government has decided to totally abolish the export duty from the commencement of the 31st financial year; that is to say, April next.

ACTION FOR DAMAGES.

Myers Wins the Bicycle Case—It Is Pronounced a Lottery.

At 1 o'clock this afternoon, Recorder E. N. Edes announced his decision in the Neal Myers bicycle case. By the decision, the defendant wins the case. In making his decision Recorder Edes said in part:

"If the contention of the defendants is correct there was no consideration and consequently the plaintiff could not recover. But if the contention of the plaintiff is correct, the transaction is a lottery and contrary to public policy." Recorder Edes expressed the opinion that the case was a lottery.

It now remains for the next grand jury to investigate the case and if this firm has been conducting a lottery in connection with their business let it so report and allow the law to take its course. The city court may have been mistaken in pronouncing this a lottery.

ITEMS OF INTEREST.

The people of Colorado have reduced their indebtedness nearly two millions this year.

Next year will bring the fiftieth anniversary of the discovery of gold in California.

Over 4000 men and women, mostly political prisoners, were sent to Siberia last year.

The Carnegie company is said to be considering a proposition for sale of its plant to the Russian government.

The country is recovering its activity. At a base ball game in Pittsburgh the umpire was knocked down twice and several times pelted with rotten eggs.

A thousand carrier pigeons from Germany have arrived in England supposed to be sent there by German war department to be practiced in message carrying flights.

Sark the smallest of the Channel Islands, will be the first British possession in which the postoffice will use the marconi system of telegraphy, without wires. The island has now no telegraphic communication with outside world, and is often cut off entirely by fogs and storms.

The men who were sent down to recover the treasure from the steamer Catherthun, that was sunk after going ashore off Seal Rocks, New south Wales, Australia, worked at a depth of 77 fathoms and recovered every one of the boxes of sovereigns that went to the bottom.

STATE NEWS

Sarah E. Pierce, of Eugene, has sued J. B. Coleman in the state circuit court for \$10,000 for breach of promise.

The Other Side, Populist, published by the Reform Publishing Company, of Hillsboro, has suspended publication.

John Porter died at his home at Elmira, Lane county, July 31, at the age of 83. The cause of old age. Deceased left two sons and two daughters.

Charles Hartman, an Astoria fisherman, was severely scalded; he was engaged in tanning his net, when he fell into a tank of boiling water. He will live.

The mountain home of S. Train, of Albany was broken open and robbed of \$100 worth of property, among which were three guns, blankets, clothing, etc. The home of Mrs. Dr. Kelly was also robbed.

NEW NOTARIES.—C. W. Fulton and Wm. Tinson, of Astoria were today appointed notaries.

INSANE.—H. E. Burt, of Grant county, aged 38 years, was today brought to the asylum.

Examination Notice.

Notice is hereby given that the regular quarterly teachers examination for Marion county, will be held in the court house at Salem, Oregon, beginning at 1 p. m., Wednesday, August 11, 1897.
