## Today We Are Receiving Our New Fall Stock. It Is Immense.

Lots of it and it takes lots of shelf room. We are making that room by selling goods cheaper than ever before heard of in Salem. Come see us and be convinced. You will be repaid for your trouble.

## Holverson's Cash Store

J. Rex Byars has returned from a short outing at Melama.

Mrs. Marie and Dorelle Shives, returned this morning to Benna Vista, after a short visit in this city.

Rev. John Parsons left today for Woodburn and other points north, expecting to return on Wednesday.

Frank Savage, of Cassopolis, Mich., is due to arrive in this city, tomorrow, on a visit to his brother, John Savage, Jr.

Mrs. Chas. H. Thompson who has been the guest of Mrs. Thos. Hubbard, returned today to her home in Portland.

Mrs. John Helman and little grandson left today for Long Beach where they will join Mrs. J. H. Lann for a short visit.

Misses Clara and Jessie Holmes, Neva Griswold and Ethel Rigdon returned last evening from Dayton, where for the past two days they have been the guests of Miss Ina Stilwell.

Supt. J. L. Carter and family of the State Blind school, arrived home today. They stopped off at Corvallis and spent a day with Supt. T. M. Gatch, of the State Agricultural college. They found everything being made ready for the opening of the school.

### RECEPTION.

Congressmen Hooker and Sherman will visit next week.

Salem will probably be honored next week by a visit from two eminent Eastern legislators. Congressman W. B. Hooker, of the 31st New York district, chairman of the house committee on rivers and harbors and J. S. Sherman, of the 25th New York district, chairman of the house committee on Indian affairs, who are now in California are expected to reach Salem some time. In view of the contemplated visit of the gentlemen, a meeting will be held this evening at 8 o'clock in the parlors of the First National bank, when arrangements will be gotten under way for a proper reception of these distinguished gentlemen while in our city. It is now proposed that a committee of Salem business men accompany the party on a trip down the Willamette on a steamer that the Eastern gentlemen may observe the Willamette as she actually is and may possibly be awakened to the necessity of not only an ample appropriation but of improvements being made to the river. It is hoped the visit of these gentlemen to the coast may ultimately result in some speedy and badly needed legislation for the improvement of the Willamette river.

### A Severe Cut.

John Vincent Deter, whose home is in Kenoma, Barton Co., Mo., while working with a bucksaw at Woodburn, Thursday morning about 7 o'clock, had the misfortune to very painfully cut the index finger of the right hand. The saw completely severed the bone of the index finger and entered the joint of the second making a very ugly and painful wound. The poor man being without money or friends, and in search of work and suffering intense pain from the wound, set out on foot for this city reaching here last night when he applied at the hospital for medical attendance but being refused, he came down town where Dr. J. N. Smith dressed the injured hand and the man was furnished accommodations in the city jail for the night, after having been given a good meal.

This morning the man applied to County Judge G. P. Terrell for admission to the hospital at the county's expense but this was also refused him. City Recorder Edes has extended to him the privilege of occupying the city jail, until his injured hand has sufficiently healed that he can continue his way.

The man is not a "tramp" in any sense of the word and is deserving of sympathy, and financial aid. He has a bright, frank honest and an intellectual face and is probably only placed in unfortunate circumstances, by ill luck. He dislikes the idea of begging, and prefers to labor honestly for anything he may receive.

## CASTORIA

The family signature of Dr. H. H. Hatcher is on every wrapper.

## THE HOTTEST DAY.

How Some of Salem's Fleeshy Men Keep Cool During the Hot Weather.

The weather of the past few weeks has been unusually warm while the heat of the past week has been especially oppressive. The thermometers were closely watched Wednesday which was considered the hottest day of the season but "old Sol's" rays beat down with intense heat yesterday and at a number of places during the afternoon, thermometers about the business houses, indicated 100 degrees. The heat was extremely oppressive and the atmosphere most sultry, not a breath of air stirring. The valley was lined with a cloud of smoke that seemed to act as a lens for the hot rays of the sun. Friday was undoubtedly the hottest day of the season and ice cream and lemonade booths enjoyed a big business throughout the afternoon and evening.

In making his rounds for news this morning Col. Jeff Myers suggested to a JOURNAL reporter that he ascertain how some of Salem's corpulent residents manage to keep cool this hot weather. Acting upon his suggestion the reporter called on several of Salem's heavy-weight residents and inquired the methods they adopted to keep cool.

City Recorder Ed N. Edes was the first man of this class encountered, and to the question "How do you manage to keep cool this hot weather?" replied: "By taking off all the clothes I can and conform to the law and then stand over a grating and allow the wind to circulate through my clothing."

Deputy County Clerk F. A. Turner said: "We fleeshy people don't keep cool. I remove my coat, vest, collar and necktie, and stand around in my shirt sleeves and create a breeze by fanning myself with an old straw hat."

G. W. Johnson, the clothing merchant, was next seen. "I manage to keep comfortable this hot weather by dressing as sparingly as the law will allow and by frequently visiting the Spa, which is conveniently located near my place of business."

Councilman E. F. Parkhurst seemed insulted when informed that he was classed among the fleeshy people of the capital city. The reporter explained things satisfactorily when he told of his defective eyesight. The good-natured alderman from the second ward, said: "I am not fleeshy and have no trouble whatever in keeping cool."

E. H. Flagg, school clerk, said: "I keep cool by having a sweet disposition and a clear conscience."

Prof. D. W. Yoder, principal of the Lincoln school, said: "I don't keep cool. Am hot all day."

J. M. Wallace, president of the Salem Water Co., in response to the same interrogation said: "I keep cool by marking up the price of wheat and drinking plenty of pure Willamette nectar."

Maurice Klinger, the jolly brewer, was next seen and said: "I keep cool by drinking lots of Klinger's best. It is good for my health."

There are many practical suggestions in the above that are worthy of consideration by people who suffer with the heat.

### FREE TO OUR CYCLIST READERS.

A Valuable Hand-Book on the Wheel Sent to Bicyclists.

A book which may be read to great advantage by all cycling devotees, has recently been published by the Cyclist Publishing Company. It contains useful information for every one interested in the wheel, including hints and instructions for the beginner, the lady rider and the tourist. Many pages are devoted to the points on the care and repair of a wheel, so that the average rider may learn to keep and mend his wheel without frequent visits to a repair shop. Suggestions on training and racing from such riders as Zimmerman and Bald are among the interesting articles, while a complete list of road and track records is also included. Points on touring, both in United States and Europe with a number of choice routes, suggestions on dress, medical advice on healthful cycling, and a wealth of useful and interesting information, with a collection of half-tone photographs of famous racing men and prominent riders, making altogether a valuable acquisition of any cyclist's library.

Arrangements have been made so that all our readers who are interested in bicycling can have a copy free by sending their name and address to the Cyclist Publishing Co., 1813 N. Sixteenth street, Philadelphia, Pa., with three two-cent stamps, to defray the postage and incidental expenses. In writing state our paper as there is a special edition published for our readers.

Feed Drops "Muehly." Bran and Shorts are cheaper than corn. Price of mill feed greatly reduced. Call at the mill for quotations. Delivered, free in ton lots. SALEM FLOURING MILLS CO. 9-18-dtd.

### Excursion Rates Every Day.

The Southern Pacific now offers for sale round trip tickets from Salem to Newport, good until Oct. 1, for the price of \$4.50. Call on the Salem agent for same. W. W. SKINNER.

## APPOINTMENTS

Made by Governor Lord.

Col. A. I. Wagner of Salem Succeeds General Compson.

Governor Lord today made two important appointments, Railroad Commissioner and Dairy and Food Commissioner.

Col. A. I. Wagner, of Salem, is named for the office of Railroad Commissioner, Vice H. B. Compson.

Hon. W. W. Baker, of the Portland Rural Spirit is named as State Dairy and Food commissioner, vice H. C. Luce of Hillsboro.

The commissions read "In place of the person of" whose term has expired.

Governor Lord has refused to recognize the bonds of the pretended hold-over commissioners. When the legislature failed to organize, these offices became extinct, on the ground that these offices cannot hold forever, as that would be contrary to public policy.

Secretary of State Kincaid urged that appointments be made at once, as he was desirous of having the matter tested in the courts, whether the officials in question were in office or not. The governor expects that a suit will be brought to test the matter as to whether Compson or Wagner is railroad commissioner. Of course he will recognize Col. Wagner's bond and the latter will be sworn in and enter upon his duties at once.

Col. Wagner filed his bond and took the office this afternoon and is now holding the office. Col. Compson, is at Yaquina Bay and has not been heard from. The appointee is 43 years old, came to Salem in 1890, taking the Willamette hotel which he has conducted ever since. He is the Democratic member of the board, and has all the qualifications for an efficient commissioner. He came to Oregon from California, has been secretary of the Salem board of trade since its organization. Mr. Wagner is an experienced and energetic business man, of conservative views and who will seek to faithfully represent the commercial and shipping interests of the state.

W. W. Baker is the father of the late state printer Frank Baker, and well known as editor of the Rural Spirit. He held the office when it was first created and is entirely competent to fill the place, possession of which will probably be resisted by Mr. Luce, the present official.

THE HOTTEST DAY.—Thursday was unquestionably the hottest day of the season, but those eating at Strongs restaurant found much comfort in so doing. The excellence of the meals served there and the cool and pleasant dinner hall, form an agreeable combination this hot weather.

NO SERVICES.—For remainder of this month and possibly longer there will be no services at the U. B. church in Yew Park. The pastor Rev. W. Reynolds leaves Saturday morning for Waterloo, where he will join Mrs. Reynolds and enjoy a well-earned vacation in the mountains.

A NEW SWITCH.—The Salem & Suburban Railway Co., has placed a new switch at the depot branch of the line on State street. It is a big improvement over the one that has been there for several years past.

A REMARKABLE GROWTH.—Hon. Tilmon Ford has left a sample of spring oats, grown on his Mission Bottom farm, at this office. The stalks measure 6 feet 8 inches in length and well headed out. Counselor Ford could easily loose himself in such a field of grain.

The Gypsies are now at Baker City. They are everywhere asked to move on.

Who opened that bottle of HIRES Rootbeer?

The popping of a cork from a bottle of Hires is a signal of good health and pleasure. A sound the old folks like to hear—the children can't resist it.

HIRES Rootbeer

is composed of the very ingredients the system requires. Aiding the digestion, soothing the nerves, purifying the blood, a temperance drink for temperance people.

Made only by The Charles E. Hires Co., Philadelphia. A package makes 5 gallons. Sold everywhere.

## FRUIT SHIPMENTS.

It is Predicted That Over 100 Carloads Will be Shipped This Season.

The following from the Eugene Guard would indicate that the fruit growers of that section of the state are shipping considerable fruit this season: The packing establishments are very busy with large amounts of green fruits to handle.

The Earl Company has already loaded eleven cars and shipped them and will load three more tomorrow, and continue with from one to six daily for some time. They predict that they will ship from this point 50 car loads of Italian prunes, already engaged, ten carloads from Creswell and twelve from the Humphrey orchard at Irving, and probably two or three from Junction City, making a total of 75 carloads of this one kind of fruit, besides the 20 carloads of plums, silver prunes, etc. Mr. Ladd, of California, an expert, is superintending the packing.

The Jeffries' company has already shipped four car loads and expect to ship at least twenty cars more.

The total number would then be 116 car loads.

This is only a portion of our fruit as the dryers will have at least a month's run and probably handle as much as will be shipped green.

Six or seven years ago, a person would have been adjudged mentally unsound to have predicted the possibility of such shipments. And it must be remembered that most of the orchards are only from four to eight years old. Next year they will double the output.

### A BIG CROP.

The Eugene Register says: "Norris Humphrey, one of our most prominent fruit growers, has a big crop of prunes this year. Tomorrow he will put a force of packers at work, and will ship twelve car loads of green fruit from Irving. This will leave him enough fruit to dry to keep his dryer busy on one month. He has a fine dryer and warehouse, and will pack his fruit at home."

### AT SALEM.

The O. F. & P. Co. this morning shipped two more carloads of peats to the east making ten cars that have been shipped by this company during the present week.

A NEVER FAILING RULE.—One trial at Bransons & Co's, grocery ensures a future customer. With the first grade groceries to be found there, nothing else could be expected.

### ITEMS OF INTEREST.

In Montana the N. P. has been assessed at \$5,100 a mile, the Great Northern \$4600, the Montana Union \$7000.

The Cramps are suing the government for \$1,736,149 for damages caused by delays in furnishing plate and plans for battleships.

The Spanish debt amounts to about two billion dollars, gold, with an interest charge of nearly \$90,000,000. The income is only \$150,000,000.

A naturalist says he has seen in New York on the hats of women the feathers of 173 different kinds of wild birds, including 40 species, of which are protected by law under a fine of \$25.

There are about 40 builders in France who profess to make self-propelled carriages, but the devices are yet not entirely satisfactory. Petroleum motors have the preference.

A gold plate which Charles Bonaparte pawned in order to pay traveling expenses of his son, Napoleon, to the military school at Cricenne has been placed in the town museum at Ajaccio.

Beware of Ointments for Catarrh That Contain Mercury, as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, O., by F. J. Cheney & Co., Testimonials free.

Sold by all Druggists, price 75c. per bottle.
